Facets of Security in the United Arab Emirates William Gueraiche, Kristian Alexander, 2022-01-23 The United Arab Emirates UAE has elaborated its own philosophy of security Driven by emergencies and increasing risks both in the region and globally Emirati authorities have developed a sense of anticipation as well as an agility to react promptly to new threats through the ability to assess the risks in any given situation War and the avatars of conflict are a constant reality in the Middle East Transnational threats including the regional context the war in Yemen insecurity in the Levant and tensions with Iran affect the overall stability of the Peninsula and consequently that of the UAE Owing to the inclusion of the UAE in the networks of globalization non traditional security issues are not relegated to the background Issues such as COVID 19 immigration cybersecurity and human trafficking need to be addressed domestically as well as globally This volume offers a comprehensive and multifaceted examination of the traditional and non traditional security measures present in the UAE that allow the country to remain politically stable in an otherwise volatile region and aims to offer a comprehensive overview of all forms of security in the UAE

Gulf Security in the Twenty-First Century Prof. Jamal Sanad Al-Suwaidi, 2014 The connection between regional instability and the preservation of global security is

nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy

Historical Dictionary of Arab and Islamic Organizations Frank Clements,2001 Unity is an often heard word in Arab and Islamic circles This historical dictionary seeks to show that along with the underlying sources of unity there are also sources of division in these groups Unlike other volumes in this series this volume focuses not only on the organizations but also on the key countries and figures of the region Includes o An explanatory introduction o List of Acronyms o Chronology o Bibliography The United Nations, Iran, and Iraq Cameron R. Hume,1994-05-22 In 1985 faced with conflicts involving Iran and Iraq the United Nations Security Council s permanent members joined forces for the first time to mobilize the U N against threats to international peace and security Cameron R Hume s authoritative account follows the transformation of the Security Council from a stage for acrimonious public diplomacy into a forum where governments collaborate to settle regional disputes Hume underscores three interconnected themes changes in Security Council diplomacy during forty five years of successive conflicts involving Iran and Iraq including Iraq s 1990 invasion of Kuwait the Council s progression from invoking gentler means within its authority under the U N Charter to a more muscular assertion of its will and the growing congruence between diplomacy as practiced in the Security Council and the bilateral policies of the major powers Based on U N documents and the author s firsthand experience The United Nations Iran and Iraq is important for students and practitioners in international organizations multilateral diplomacy and conflict resolution **Shifting Geo-Economic Power of the Gulf** Bessma Momani,2016-04-01 Bringing together for the first time distinguished Gulf experts to analyse the renewed geo economic prominence of the Gulf states this volume investigates some of the new power brokers in the world economy the oil exporting states of the Gulf The Gulf Cooperation Council s GCC members Bahrain Kuwait Oman Qatar the

United Arab Emirates and Saudi Arabia collectively have the largest proven oil reserves in the world and are among the world's largest oil exporting states. Gulf Arab states are actively pursuing a variety of foreign investment strategies. Some of these investments are being managed by sovereign wealth funds, government investment corporations and government controlled companies. This renewed geo-economic status has received a lot of media attention but there has been a dearth of academic study on what this shift in global economic power means for the international economic system. This volume aims to fill this gap with a rigorous scholarly analysis based on primary sources and raw economic data. It brings together the expertise of academics who have devoted their career to careful study of the region and of renowned scholars of international political economy.

Protecting Intellectual Property in the Arabian Peninsula David Price, Alhanoof AlDebasi, 2017-09-13. This work examines the endeavours of the Arabian Peninsula States namely the Gulf Cooperation Council member States of Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the UAE as well as Jordan and Yemen as prospective GCC members in establishing national intellectual property protection regimes which both meet their international treaty obligations and are also congruent with their domestic policy objectives. It uses the WTO's TRIPS Agreement of 1995 as the universal benchmark against which the region's laws are assessed. The challenges faced by the States in enforcing their intellectual property laws receive particular attention. *Protecting Intellectual Property in the Arabian Peninsula* considers the changing nature of the States' intellectual property laws since 1995. It argues that the decade immediately following the TRIPS Agreement was marked by a period of foreign forces shaping or influencing the character of the States' intellectual property legislative regimes primarily through multilateral or bilateral trade based agreements. The second and current decade however see a significant shift away from foreign influences and a move towards domestic and regional imperatives and initiatives taking over. The work also examines regional initiatives for the protection of traditional knowledge and cultural heritage as areas of intellectual property which fall outside the parameters of the TRIPS Agreement but which are of significant concern to the States and other developing countries and to which they are giving increasing attention in terms of providing proper protection.

It has been designed to appeal to both academics and practitioners.

Reconstruction and Regional Diplomacy in the Persian Gulf H. Amirahmadi, N. Entessar, 2023-05-26. First Published in 1992. *Reconstruction and Regional Diplomacy in the Persian Gulf* goes beyond a description of the recent events by analysing the social, political and economic patterns of interaction between the Gulf states. The argument is strengthened by a consideration of the role of the superpowers in the region's political discourse and of religion as a force for change. Not only do the authors provide an easily accessible basis for explaining the current problems in the region but they also offer their own, sometimes provocative, policy prescriptions. This book is an important
