binding *12 Etude-Caprices in the Styles of the Great Composers* Amy Barlowe,2009-09-23 Written by Juilliard trained violinist composer Amy Barlowe 12 Etude Caprices in the Styles of the Great Composers is a welcome addition to the intermediate solo violin repertoire Progressive and chronologically ordered these innovative etudes are invaluable both as study pieces and short unaccompanied concert works for competitions or recital programs Detailed Practice Guides follow each etude featuring methods for the development of technical and musical tools that will promote individual expression within the appropriate historical context Such aspects as sounding points varied vibrato and techniques for improving intonation are derived from each etude to increase facility musicianship and stylistic awareness Used as a supplement this fully illustrated and thoroughly engaging collection of original etudes provides a fresh and unique approach to the age old tradition of technical study Preparation for the major works of the great composers has never been more fun **The**

Virtuoso as Subject Zarko Cvejić,2016-06-22 This book offers a novel interpretation of the sudden and steep decline of instrumental virtuosity in its critical reception between c 1815 and c 1850 documenting it with a large number of examples from Europe s leading music periodicals at the time The increasingly hostile critical reception of instrumental virtuosity during this period is interpreted from the perspective of contemporary aesthetics and philosophical conceptions of human subjectivity the book s main thesis is that virtuosity qua irreducibly bodily performance generated so much hostility because it was deemed incompatible with and even threatening to the new Romantic philosophical conception of music as a radically disembodied abstract autonomous art and moreover a symbol or model if only a utopian one of a similarly autonomous and free human subject whose freedom and autonomy seemed increasingly untenable in the economic and political context of post Napoleonic Europe That is why music newly reconceived as radically abstract and autonomous plays such an important part in the philosophy of early German Romantics such as E T A Hoffmann Schelling and Schopenhauer with their growing misgivings about the very possibility of human freedom and not so much in the preceding generation of thinkers such as Kant and Hegel who still believed in the transcendently free subject of the Enlightenment For the early German Romantics music becomes a model of human freedom if freedom could exist By contrast virtuosity irredeemably moored in the perishable human body ephemeral and beholden to such base motives as making money and gaining fame is not only incompatible with music thus conceived but also threatens to expose it as an illusion in other words as irreducibly corporeal and by extension the human subject it was meant to symbolise as likewise an illusion Only with that in mind may we begin to understand the

hostility of some early to mid 19th century critics to instrumental virtuosity which sometimes reached truly bizarre proportions In order to accomplish this the book looks at contemporary aesthetics and philosophy the contemporary reception of virtuosity in performance and composition and the impact of 19th century gender ideology on the reception of some leading virtuosi male and female alike *Harvard Dictionary of Music* Willi Apel,1979 Writings on Music, 1965-2000 Steve Reich,2002-04-11 In the mid 1960s Steve Reich radically renewed the musical landscape with a back to basics sound that came to be called Minimalism These early works characterized by a relentless pulse and static harmony focused single mindedly on the process of gradual rhythmic change Throughout his career Reich has continued to reinvigorate the music world drawing from a wide array of classical popular sacred and non western idioms His works reflect the steady evolution of an original musical mind Writings on Music documents the creative journey of this thoughtful groundbreaking composer These 64 short pieces include Reich s 1968 essay Music as a Gradual Process widely considered one of the most influential pieces of music theory in the second half of the 20th century Subsequent essays articles and interviews treat Reich s early work with tape and phase shifting showing its development into more recent work with speech melody and instrumental music Other essays recount his exposure to non western music African drumming Balinese gamelan Hebrew cantillation and the influence of these musics as structures and not as sounds The writings include Reich s reactions to and appreciations of the works of his contemporaries John Cage Luciano Berio Morton Feldman Gyorgy Ligeti and older influences Kurt Weill Schoenberg Each major work of the composer s career is also explored through notes written for performances and recordings Paul Hillier himself a respected figure in the early music and new music worlds has revisited these texts working with the author to clarify their central narrative the aesthetic and intellectual development of an influential composer For long time listeners and young musicians recently introduced to his work this book provides an opportunity to get to know Reich s music in greater depth and perspective *St. John's Gospel* Stephen K. Ray,2011-06-17 As Catholics in ever growing numbers are taking part in Bible studies many questions arise How do I study the Bible Where do I begin Is it OK to interpret the Bible for ourselves What Bible should I use How can I understand such a deep book as the Gospel of St John This book has the answer to these and many other such questions Stephen Ray takes the difficult and makes it easy he takes the confusion and makes things clear It gives a simple start for a beginner while providing the depth and profundity for the scholar This book is one of a kind It is the first extensive easy to use and thoroughly Catholic study guide available This Bible study provides extensive text boxes with detailed information that helps students discover the cultural religious historical and other information on the specific passage they are studying It utilizes quotes for a wide range of scholars historians and specialists to instruct the student and give valuable insights into the background and meaning of the text This book can serve as a basic Bible study guide for working through the Gospel of John helping the student plumb the depths of St John s marvelous and deeply spiritual Gospel It is excellent for use by individuals or groups for families or

schools
