Julian of Norwich and the Problem of Evil Richard Norton,2023-10-26 Julian of Norwich s Revelations of Divine Love grapples with the same fundamental question that has vexed philosophers and theologians since the advent of monotheistic religion and continues as a barrier to belief for many today Namely if God is so good how can natural disaster genocide trauma and my present suffering occur Historically there

have been two apparently very different approaches to the problem the pastoral or practical on the one hand and the systematic on the other However Richard Norton suggests that these two lines of thought may not be as separate as they seem and may indeed be dependent on one another for their cohesion Drawing on Julian s medieval experience of personal and population wide suffering alongside that of more recent theologians such as Dorothy Solle and Jurgen Moltmann Norton constructs a compassionate model of theodicy that can be of use to both pastoral and systematic theologians Throughout he remains sensitive to the raw atrocity of evil while preserving a vision of God as the one who ensures that all shall be well

South Asia's Nuclear Security Bhumitra Chakma,2014-12-17 South Asia is often viewed as a potential nuclear flashpoint and a probable source of nuclear terrorism But how valid are such perceptions This book seeks to address this question and assesses the region s nuclear security from two principal standpoints First it evaluates the robustness of the Indo Pakistani mutual deterrence by analysing the strength and weaknesses of the competing arguments regarding the issue It also analyses the causes and consequences of nuclear arms race between India and Pakistan the nature of deterrence structure in the region and the challenges of confidence building and arms control between the two countries in order to assess the robustness of South Asia s nuclear deterrence Second it assesses the safety and security of the nuclear assets and nuclear infrastructure of India and Pakistan The author holds that the debate on South Asia s nuclear security is largely misplaced because the optimists tend to overemphasise the stabilising effects of nuclear weapons and the pessimists are too alarmists It is argued that while the risks of nuclear weapons are significant it is unlikely that India and Pakistan will give up their nuclear arsenals in the foreseeable future Therefore what needs to happen is that while nuclear elimination should be the long term goal in the interim years the two countries need to pursue minimum deterrence policies to reduce the likelihood of deterrence failure and the possibility of obtaining fissile materials by non state actors
