something that sounds good or is easily spelled What s the baby s name is much more likely to be asked than some question about its state of health its weight or the color of its eyes People are often named according to religious tradition exemplified in the custom in some countries of speaking of a christian name In other countries it is a given name often the name of some favored relative particularly a father as in the system of patronymics In some parts of the world ci name may be more practical making it dear that this person is number one son for example But in such a case why not simply give numbers to the children in order of their birth One might presume that other animals number their children take one away and the mother will realize that the count is wrong possibly even to the point of knowing precisely which infant has been removed The most basic part of speech is a noun a word that itself means name particularly in its dominant use as the subject i e in the nominative case
