unconventional systems would die out they have persisted with undiminished vitality They have in fact experienced a reinvigoration and expansion during the last fifteen to twenty years In the United States this renewal is fueled by people representing a wide cross section of American society and most of them also use conventional medicine This eclecticism can result in conflicts between the values and assumptions of Western scientific medicine and those of unconventional health systems O Connor demonstrates the importance of understanding how various belief systems interact and how this interaction affects health care She argues that through neutral observation and thorough description of health belief systems it is possible to gain an understanding of those systems to identify likely points of conflict among systems especially conflicts that may occur in conventional care settings and to intervene in ways that ensure the best possible care for patients The Informal City Michel S. Laguerre, 2016-07-27 In this book Michel S Laguerre argues that there exists an informal city located just beneath and in the interstices of the formal city The metaphor is not geographical but rather structural and hermeneutical This is the city where manoeuvres that cannot be done publicly legally ethically or otherwise are performed The author shows with illustrative data drawn from the American urban experience the San Francisco Oakland Metropolitan area why and how the informal city must be seen as the hidden dimension of the formal city **Meeting the Challenges of Elder Care** Yayoi Saitō, Reiko Abe Auestad, Kari Wærness, 2010 Based on comparative and collaborative studies of Japanese and Norwegian specialists this book focuses upon the critical analysis of rationality of care with an empirical examination of care services in the two countries The book argues that elder care is not simply the act of labor but that of love and it looks at such aspects of care as home help new public management and social enterprise Predicated on the historical experience and contemporary reality of elder care in both countries the study confronts the commercial rationalization of care practices and explores their desirable forms **Handbook of Health Administration and Policy** Anne Kilpatrick, 1998-11-23 This comprehensive text offers a broad view of health care policy health services delivery and organization and health care management Drawing on the insights of over 100 scholars and leading practitioners it highlights organizational changes reflected in health care mergers networks and affiliations and describes the role of funding agencies in the direct provision of services Providing over 2350 references tables and drawings the book charts the influences of managed care on provisions funding and the configuration of providers and services and portrays the increasingly influential and challenging role of health administrators *Medical Books and Serials in Print*, 1984 **Gazing at Welfare, Gender and Agency in Post-socialist Countries** Maija Jäppinen, Meri Kulmala, Aino Saarinen, 2010-10-12 The volume presents a new and unique view of welfare in Russia and Eastern European countries from an intersectional perspective of welfare gender and agency Since the collapse of socialism the welfare structures of the post socialist states have experienced large and rapid changes The discussions on the reforming welfare models serve as the integrating theme for the volume The authors discuss past and current developments and make comparisons in time and space between the early 1990s and late 2000s and between post

socialist and transitional countries Welfare and political democratization are analyzed on the one hand as structures and processes and on the other hand as cultural meanings and through agency which all are strongly gendered Macro level analyses and in depth case studies by scholars from different countries and disciplines provide a wide and multilayered picture of welfare developments and gendered practices of social services caregiving and civic activism among others Special attention is given to research methodologies particularly on fieldwork and micro level understanding of the related topics The contributors come from social and political sciences and from both former socialist and Western countries from Russia and Slovenia as well as the US the UK Germany and Finland In their studies the authors examine various regions of Russia and other post socialist countries such as the Czech Republic Romania Moldova and Slovenia *Recasting Conservatism* Robert Devigne,1996-08-28 Explores how conservative thought in the work of Oakeshott and Strauss and their followers responds to the postmodern loss of tradition morality and authority in contemporary British and American society The work also compares each theory to previous political outlooks in both countries *Seeking Health Care* Nielan M.
