THE HIEROS GAMOS OF SAM AND AN SMITH BY JOSEPHINE SAXTON

The Hieros Gamos Of Sam And An Smith

Robert L. Caserio, Clement Hawes

The Hieros Gamos Of Sam And An Smith:

The Hieros Gamos of Sam and An Smith Josephine Saxton, 2011-09-29 During the day a blazing and merciless sun beat down on the boy and at night a friendless and cold darkness enveloped him It was a bleak and lonely countryside over which he had been wandering for ten years A rare tree bird or wild animal was the only life he encountered during his desolate trek through his young years of roaming Infrequently he was fortunate enough to find shelter and food in the shops of deserted villages otherwise he foraged what he could from the nearly barren land Contact with other humans was his innermost and greatest fear But the day came when his curiosity overcame his sensibilities of self preservation and he was drawn to the sound of a great wailing not far from a place where he had come to rest From that moment on his whole existence took on a radical change His wanderings became a kaleidoscope of adventures emotions and responsibilities never static forever mobile and potentially dangerous There were moments when it would have been easier to turn his back return to old ways but somehow he knew this was an impossibility He accepted his new fate but still feared the greatest of all commitments until it was too late for him This fantasy adventure will not fail to excite and stir in every reader memories and emotions of seemingly forgotten times and moments

Consciousness and Science Fiction Damien Broderick, 2018-11-30 Science fiction explores the wonderful baffling and wildly entertaining aspects of a universe unimaginably old and vast and with a future even more immense It reaches into that endless cosmos with the tools of rational investigation and storytelling At the core of both science and science fiction is the engaged human mind a consciousness that sees and feels and thinks and loves But what is this mind this aware and self aware consciousness that seems unlike anything else we experience What makes consciousness the Hard Problem of philosophy still unsolved after millennia of probing This book looks into the heart of this mystery at the science and philosophy of consciousness and at many inspiring fictional examples and finds strange challenging answers The book s content and entertaining style will appeal equally to science fiction enthusiasts and scholars including cognitive and neuroscientists as well as philosophers of mind It is a refreshing
