

A person wearing a green hooded jacket, blue pants, and black rubber boots stands on a mossy rock in the foreground, looking out over a body of water. In the distance, a small white house with a dark roof sits on a grassy hill. The sky is overcast with soft, grey clouds. The water is calm with some ripples. Hybrid Artificial Intelligent Systems, Part II Manuel Grana Romay, Alexandre Manhaes Savio, 2010-06-14 The 5th International Conference on Hybrid Artificial Intelligence Systems HAIS 2010 has become a unique established and broad interdisciplinary forum for researchers and practitioners who are involved in developing and applying symbolic and sub symbolic techniques aimed at the construction of highly robust and reliable problem solving techniques and bringing the most relevant achievements in this field Overcoming the rigid encasing imposed by the arising orthodoxy in the field of artificial intelligence which has led to the partition of researchers into so called areas or fields interest in hybrid intelligent systems is growing because they give freedom to design innovative solutions to the ever increasing complexities of real world problems Noise and uncertainty call for probabilistic often Bayesian methods while the huge amount of data in some cases asks for fast heuristic in the sense of suboptimal and ad hoc algorithms able to give answers in acceptable time frames High dim

sionality demands linear and non linear dimensionality reduction and feature extraction algorithms while the imprecision and vagueness call for fuzzy reasoning and linguistic variable formalization Nothing impedes real life problems to mix difficulties presenting huge quantities of noisy vague and high dimensional data therefore the design of solutions must be able to resort to any tool of the trade to attack the problem Combining diverse paradigms poses challenging problems of computational and methodological interfacing of several previously incompatible approaches This is thus the setting of HAIS conference series and its increasing success is the proof of the vitality of this exciting field **The Hunter's Prey** Diane Whiteside,2003
