The Icy Fire Five Studies In European Petrarchism:

The Icy Fire Leonard Forster, 1969 The themes and literary devices developed by Petrarch in his poetry became a kind of International stylistic Esperanto in renaissance and baroque literature In this short introductory book Professor Forster examines Petrarchism as a European phenomenon transcending national boundaries He begins with a general survey of themes and conversations providing with quotation something like a repertory of the devices He then shows in an important historical study how various vernacular literatures were seeking for a renewal of poetic diction at the moment when Petrarchism was available to meet the need The third study examines particular forms the alba or dawn poem the pastourelle the epithalamium and shows how realism in love relationships could be accommodated within the tradition A fourth shows how the literary conventions applied to England's Virgin Queen could serve political and national ends and the last shows the devices still being used in Goethe's Faust This is a learned and engaging book ranging freely among literatures Latin Italian French Dutch English German translations are provided It gives an introduction to one of the most important and longest lasting traditions in comparative literary studies The Icy Fire provided an extremely valuable introduction to an important topic Too few critics have the necessary fluency in all the relevant European vernaculars and in Latin to undertake the exhaustive treatment of Petrarchism which as Professor Forster points out is urgently needed Modestly he claims he cannot himself meet this need this book makes one feel that he should be persuaded otherwise The Times Literary Supplement Publisher

Leonard Forster, Leonard Wilson Forster, 1969 **Pastoral Drama and Healing in Early Modern Italy** Federico Schneider, 2016-05-13 Pastoral Drama and Healing in Early Modern Italy represents the first full length study to confront seriously the well rehearsed analogy of the pastoral poet as healer Usually associated with the edifying function of the Renaissance pastoral this analogy if engaged more profoundly raises a number of questions that remain unanswered to this day How does the pastoral heal How exactly do the inner workings of the text cater to the healing What socio cultural

conventions make the healing possible What are the major problems that pastoral poetry as mimesis must overcome to make its healing morally legitimate In the wake of Derrida's seminal work on the Platonic pharmakon which has in turn led recent criticism to formulate a much more concrete understanding of the theater drug analogy the stringent approach to the therapeutic function of the Renaissance pastoral offered in this work provides a valuable critical tool to unpack the complexity contained within a little understood cliché

The Judgment of Palaemon Philip Ford, 2013 In Virgil's third Eclogue Palaemon concludes the poetry competition between Menalcas and Damoetas by saying that he cannot choose between them a judgment that is emblematic of the contest between Neo Latin and vernacular poetry in Renaissance France Both forms of poetry draw on similar roots both are equally accomplished and the contest between them is largely amicable The Judgment of Palaemon illustrates the almost symbiotic relationship between Renaissance Latin and French poetry while exploring poets' motivation for choosing one language over another the different challenges each form of writing involved and the extent of the collaboration between different language communities It focuses on some of the major writers of the period as well as less known ones and on genres specific to humanist poetry It shows that composing in Latin was often considered more natural than writing in the vernacular at a time when many Frenchmen's mother tongue was a non standard French dialect or distinct language Book jacket

The Ashgate Research Companion to The Sidneys, 1500-1700 Mary Ellen Lamb, 2017-02-17 Presented in two volumes The Ashgate Research Companion to The Sidneys 1500-1700 assesses the current state of scholarship on members of the Sidney family and their impact as historical and/or literary figures in the period 1500-1700 Volume 2 Literature begins with an exploration of the Sidneys' books and manuscripts and how they circulated followed by an overview of the contributions of family members Sir Philip Sidney Mary Sidney Herbert Countess of Pembroke Lady Mary Wroth Robert Sidney Earl of Leicester and William Herbert Earl of Pembroke in the genres of prose romance drama poetry psalms and prose These essays outline major controversies and areas for further research as well as conducting literary analysis

Visions of the Courtly Body Christiane Hille, 2013-01-09 In 1603 the beginning of the Stuart reign painting was of minor importance at the English court where the elaborately designed masques of Inigo Jones served as the prime medium of royal representation Only two decades later their most celebrated performer George Villiers the First Duke of Buckingham had assembled one of the largest and most significant collections of painting in early seventeenth century Europe His career as the personal and political favourite of two succeeding monarchs James I and Charles I coincides with the commission of a number of highly ambitious portraits from the hands of Peter Paul Rubens and Anthony van Dyck that displayed his body in spectacular manner As the first comprehensive study of Buckingham's patronage of the visual arts this book is concerned with the question of how the painted image of the courtier transferred strategies of social distinction that had originated in the masque to the language of painting Establishing a new grammar in

the competing rhetorics of bodily self fashioning this recast notion of portraiture contributed to an epistemological change in perceptions of visual representation at the early modern English court in the course of which painting advanced to the central art form in the aesthetics of kingship
