The Illustrated History of Edinburgh's Suburbs Sandy Mulla,2002 *Cassell's Illustrated History of England* ,1857

Street Trees in Britain Mark Johnston,2017-07-31 The trees which line many of the streets in our towns and cities can often be regarded as part of a heritage landscape Despite the difficult conditions of an urban environment these trees may live for 100 years or more and represent living history in the midst of our modern streetscapes This is the first book on the history of Britain s street trees and it gives a highly readable authoritative and often amusing account of their story from the tree lined promenades of the seventeenth century to the majestic boulevards that grace some of our modern city centers The impact of the Victorian street tree movement is examined not only in the major cities but also in the rapidly developing suburbs that continued to expand through the twentieth century There are fascinating descriptions of how street trees have helped to improve urban conditions in spa towns and seaside resorts and also in visionary initiatives such as the model villages garden cities garden suburbs and new towns While much of the book focuses on the social and cultural history of our street trees the last three chapters look at the practicalities of how these trees have been engineered into concrete landscapes This includes the many threats to street trees over the years such as pollution conflict with urban infrastructure pests and diseases and what is probably the greatest threat in recent times the dramatic growth in car ownership *Street Trees in Britain* will have particular appeal to those interested in heritage landscapes urban history and the natural and built environment Some of its themes were introduced in the author s previous work the widely acclaimed *Trees in Towns and Cities A History of British Urban Arboriculture* *John Cassell's Illustrated History of England* John Frederick Smith,1860

John Cassell's illustrated history of England. The text, to the reign of Edward i by J.F. Smith; and from that period by W. Howitt Cassell, Ltd,1865 *The Book of British Topography. A Classified Catalogue of the Topographical Works in the Library of the British Museum Relating to Great Britain and Ireland* John Parker Anderson,2024-04-26 Reprint of the original first published in 1881 The Book of British Topography John Parker Anderson,1881 The Edinburgh Literary Companion Andrew Lownie,2005 Few cities can boast such a distinguished literary history as Edinburgh The new and expanded edition of this remarkable anthology traces the city s history and charts its literary past and present a fascinating portrait of a vibrant capital as seen by writers through the centuries The British National Bibliography Arthur James Wells,2003 **Scotland** David M. Munro,Bruce M. Gittings,Royal Scottish Geographical Society,2006 This is the first comprehensive guide to Scotland since the 19th century produced on behalf of the Royal Scottish Geographical Society It is remarkable that in this age of information there is no up to date guide to the places of Scotland That situation is about to be remedied with the publication of *Scotland An Encyclopedia of Places and Landscape* edited by Dr David Munro Director of the Royal Scottish Geographical Society and Bruce Gittings of the University of Edinburgh This authoritative comprehensive gazetteer will include over 8 500 entries on cities towns and villages mountains lochs and rivers visitor attractions and

monuments throughout the nation Each entry places its subject in an appropriate historical geological or environmental context providing essential information of interest to a wide range of potential users The book starts with an introductory essay on the Landscapes of Scotland There is also an extensive glossary of terms including Gaelic words incorporated into many place names and a detailed bibliography Street plans are provided for over 100 main towns and cities as are maps of each administrative area spread throughout the book There is a fully indexed full colour atlas providing a wealth of extra cartographic information
