It discusses a wide range of the most pressing issues in contemporary artistic education and culture including philosophical principles the historical experience of professional artistic education and problems concerning innovative technologies in continuing professional education among others. In Ukraine's present socio-cultural space the issue of finding new ways of designing the semantic content of artistic education is often controversial and requires broad awareness from the larger international educational community. This is because artistic education plays an important role in the preservation and development of national cultural and educational traditions and contributes to the integration process into the international educational space. **The Violinist of Auschwitz** Jean-Jacques Felstein, 2021-12-22 A son chronicles his Jewish mother's real life efforts to save as many young women as possible from the Auschwitz gas chambers during World War II. Arrested in 1943 and deported to Auschwitz, Elsa survived because she had the opportunity to join the women's orchestra. But Elsa kept her story a secret even from her own family. Indeed her son would only discover what had happened to his mother many years later after gradually unearthing her unbelievable story following her premature death without ever having revealed her secret to

anyone Jean Jacques Felstein was determined to reconstruct Elsa's life in Birkenau and would go in search of other orchestra survivors in Germany Belgium Poland Israel and the United States The recollections of H l ne first violin Violette third violin Anita a cellist and other musicians allowed him to rediscover his twenty year old mother lost in the heart of hell The story unfolds in two intersecting stages one contemporary is that of the investigation the other is that of Auschwitz and its unimaginable daily life as told by the musicians They describe the recitals on which their very survival depended the incessant rehearsals the departure in the mornings for the forced labourers to the rhythm of the instruments the Sunday concerts and how Mengele pointed out the pieces in the repertoire he wished to listen to in between selections In this remarkable book Jean Jacques Felstein follows in his mother's footsteps and by telling her story attempts to free her and himself from the pain that had been hidden in their family for so long

The Integrative Mind Tobin Hart, 2014-06-25 In a world on fire with unprecedented possibility as well as peril what kind of mind is needed in order to thrive and survive How can education help develop human potential to be a match for this reality The Integrative Mind radically updates the vision that we hold for education the pedagogy that can help us achieve it and the human consciousness that underlies it all Consciousness and culture has been thrown out of balance by the neglect of key ways of meeting the world The solution at the edge of this new episteme is not so much about what we know but instead about how we know With practical applications and contemporary research Tobin Hart shows that the way into the future requires a recalibration of mind Hart explores five missing minds contemplative empathic beautiful embodied and imaginative These help open the aperture of consciousness enabling us to move as Thomas Berry said from seeing the world as a collection of objects to experiencing it as a communion of subjects The result is an essential deepening of understanding and our humanity
