The Intellectual Resistance In Europe:

The Intellectual Resistance in Europe James D. Wilkinson, 1981 Camus Sartre and Beauvoir in France Eich Richter and Boll in Germany Pavese Levi and Silone in Italy These are among the defenders of human dignity whose lives and work are explored in this widely encompassing work James D Wilkinson examines for the first time the cultural impact of the anti Fascist literary movements in Europe and the search of intellectuals for renewal for social change through moral endeavor during World War II and its immediate aftermath It was a period of hope Wilkinson asserts and not of despair as is so frequently assumed Out of the shattering experience of war evolved the bracing experience of resistance and a reaffirmation of faith in reason Wilkinson discovers a spiritual revolution taking place during these years of engagement and views the participants the engages as heirs of the Enlightenment Drawing on a wide range of published writing as well as interviews with many intellectuals who were active during the 1940s Wilkinson explains in the fullest context ever attempted their shared opposition to tyranny during the war and their commitment to individual freedom and social justice afterward Wilkinson has written a cultural history for our time His wise and subtle understanding of the long range significance of the engages is a reminder that the reassertion of humanist values is as important as political activism by intellectuals

German Intellectuals and the Challenge of Democratic Renewal Sean A. Forner, 2017-03-23 This book examines how democracy was rethought in Germany in the wake of National Socialism the Second World War and the Holocaust Focusing on a loose network of public intellectuals in the immediate postwar years Sean Forner traces their attempts to reckon with the experience of Nazism and scour Germany's ambivalent political and cultural traditions for materials with which to build a better future In doing so he reveals they formulated an internally variegated but distinctly participatory vision of democratic renewal a paradoxical counter elitism of intellectual elites Although their projects ran aground on internal tensions and on the Cold War their commitments fueled critique and dissent in the two postwar Germanys during the 1950s and thereafter The book uncovers a conception of political participation that went beyond the limited possibilities of the Cold War era and influenced the political struggles of later decades in both East and West *Romain Rolland and the Politics of the intellectual Engagement* David James Fisher, 1988 *French Intellectuals Against the Left* Michael Scott Christofferson, 2004-06-01 In the latter half of the 1970s the French intellectual Left denounced communism Marxism and revolutionary politics through a critique of left wing totalitarianism that paved the way for today's postmodern liberal and moderate republican political options Contrary to the dominant understanding of the critique of totalitarianism as an abrupt rupture induced by Aleksandr Solzhenitsyn's *The Gulag Archipelago* Christofferson argues that French anti totalitarianism was the culmination of direct democratic critiques of communism and revisions of the revolutionary project after 1956 The author's focus on the direct democratic politics of French intellectuals offers an important alternative to recent histories that seek to explain the course of French intellectual politics by France's apparent lack of a liberal tradition Romain Rolland

and the Politics of the Intellectual Engagement David Fisher, 2017-07-05 This intellectual portrait of Romain Rolland 1866 1944 French novelist musicologist dramatist and Nobel prizewinner in 1915 focuses on his experiments with political commitment against the backdrop of European history between the two world wars Best known as a biographer of Beethoven and for his novel *Jean Christophe* Rolland was one of those nonconforming writers who perceived a crisis of bourgeois society in Europe before the Great War and who consciously worked to discredit and reshape that society in the interwar period Analyzing Rolland's itinerary of engaged stands David James Fisher clarifies aspects of European cultural history and helps decipher the ambiguities at the heart of all forms of intellectual engagement Moving from text to context Fisher organizes the book around a series of debates Rolland's public and private collisions over specific committed stands introducing the reader to the polemical style of French intellectual discourse and offering insight into what it means to be a responsible intellectual Fisher presents Rolland's private ruminations extensive research and reexamination of the function and style of the French man of letters He observes that Rolland experimented with five styles of commitment oceanic mysticism linked to progressive democratic politics free thinking linked to antiwar dissent pacifism and ultimately Gandhism antifascism linked to anti imperialism antiracism and all out political resistance to fascism and most controversially fellow traveling as a form of socialist humanism and the positive side of antifascism Fisher views Rolland's engagement historically and critically showing that engaged intellectuals of that time were neither naive propagandists nor dupes of political parties David James Fisher makes a case for the committed writer and hopes to re ignite the debate about commitment For him Romain Rolland sums up engagement in a striking dialectical formula

Europe's Intellectuals and the Cold War Nancy Jachec, 2015-07-31 In 1950 nearly 300 of Europe's leading artists philosophers and writers formed an international society intended to end the Cold War The European Society of Culture was composed of many of Western Europe's best known intellectuals including Theodor Adorno Julien Benda Albert Camus Benedetto Croce Andre Gide J B Haldane Karl Jaspers Carl Jung Thomas Mann Henri Matisse Francois Mauriac Maurice Merleau Ponty Jean Paul Sartre Giuseppe Ungaretti and Albert Schweitzer among many others over the next twenty years it would also include many luminaries from the East such as Bertolt Brecht Ernst Bloch Ilya Ehrenburg and Georg Lukacs Pioneering the earliest political discussions between intellectuals in Eastern and Western Europe that would serve as a model for the activities of the better known CCF in its efforts to end communism the ESC went on to create an informal but powerful 1 600 member strong cultural and political network across the world in pursuit of dialogue between the Marxist East and the liberal West and in pursuit of peace and shared cultural values Here in this first comprehensive history of the SEC's early years Nancy Jachec demonstrates the influence its members had not only on preventing the isolation of Europe's eastern states but on enabling the flow of people publications and ideas from the West into the East thus playing a vital role in introducing the ideals of human rights and cultural rights in the East in the run up to the signing of the Helsinki Accords of 1975 She also shows the profound impact that the SEC had on the development of post

colonial theory through the exchanges it organised between European and African intellectuals directly shaping the expectations statesmen like Leopold Sedar Senghor revolutionaries like Frantz Fanon and institutions such as Unesco would have of culture in newly emerging countries French Intellectuals and Politics from the Dreyfus Affair to the Occupation D. Drake, 2005-04-05 A companion volume to Drake's *Intellectuals and Politics in Post War France* 2002 *French Intellectuals from the Dreyfus Affair to the Occupation* traces the political positions adopted by French writers and artists from the end of the 19th century to the Liberation Drawing on a wide range of primary and secondary sources it offers a clear and accessible analysis of the intellectuals' engagement with nationalism pacifism communism anti communism surrealism fascism and anti fascism which is located within the evolving national and international context of the period **Dwight MacDonald and the Politics Circle** Gregory D. Sumner, 1996 Sumner finds the clearest expression of MacDonald's creative power and of the political thinking that would eventually bridge the Old Left and the New **German POWs, Der Ruf, and the Genesis of Group 47** Aaron D. Horton, 2013-12-11 This work explores the experiences of Hans Werner Richter and Alfred Andersch authors who served in the German army during World War II were captured by U.S. forces and enlisted into a secret program to promote American democracy to their fellow POWs while imprisoned in the United States Upon repatriation they brought their experiences with the POW publication *Der Ruf* back to Germany where they founded a periodical of the same name Having grown disillusioned with the American occupation the authors' stark criticisms of U.S. policies led to their dismissal from the second *Der Ruf* after only fifteen issues This study attempts to understand their journey from acceptance and endorsement of American democratic ideals to disappointment and opposition to U.S. occupation policies This transition played a crucial role in the foundation of the most influential West German literary circle Group 47 organized a few months after the authors' dismissal **Federalism and European Union** Michael Burgess, 2006-04-10 One of the most frequent criticisms levelled at the European Community is the discrepancy between federalist rhetoric and the intergovernmental response between its ideological aspirations and contemporary political reality The federalist heritage of the European Community has become discredited by contemporary political thinkers and yet it still forms an important part of the community's ideological foundations Within this book the contrasting theories of Spinelli and Monnet are subjected to rigorous criticism examining the benefits and pitfalls of their proposals for a unified Europe and the probability of the gap between theory and actuality ever being bridged in the future
