At the Edges of Sleep Jean Ma, 2022-10-04 A free open access ebook is available upon publication Learn more at www.luminosoa.org Many recent works of contemporary art performance and film turn a spotlight on sleep wresting it from the hidden private spaces

to which it is commonly relegated At the Edges of Sleep considers sleep in film and moving image art as both a subject matter to explore onscreen and a state to induce in the audience Far from negating action or meaning sleep extends into new territories as it designates ways of existing in the world in relation to people places and the past Defined positively sleep also expands our understanding of reception beyond the binary of concentration and distraction These possibilities converge in the work of Thai filmmaker and artist Apichatpong Weerasethakul who has explored the subject of sleep systematically throughout his career In examining Apichatpong s work Jean Ma brings together an array of interlocutors from Freud to Proust George M li s to Tsai Ming liang Weegee to Warhol to rethink moving images through the lens of sleep Ma exposes an affinity between cinema spectatorship and sleep that dates to the earliest years of filmmaking and sheds light upon the shifting cultural valences of sleep in the present moment *The Last Words of Jesus* Daniel P. Horan,2020-03-05 Much has been written on the last words of Jesus the traditional phrases taken from Scripture that depict the final moments of Jesus s life as he dies on the cross In this new take on the last words author Dan Horan brings a fresh perspective to this time honored meditation as he challenges readers to look at their lives through the lens of Jesus s suffering and death Yet interlaced with suffering the focus throughout is on the immense love of God for human beings shown in the gift of Jesus God made flesh In his preface Horan writes In a world that remains irrevocably shaped by the suffering of the human condition the misunderstanding between groups and cultures symbolized by the horrific events of September 11 we need to hear Christ s words anew He gives us a different look into these words by drawing on works by other noted scholars and spiritual writers then fashioning a view of these phrases that s contemporary and thought provoking An ideal Lenten companion especially during Holy Week *The Last Words of Jesus* will also serve as a useful meditation throughout the year on the deep love Jesus bore for us in taking on the human condition The audio edition of this book can be downloaded via Audible *Epistemology or the Theory of Knowledge* Peter Coffey,2023-07-24 This book aims at applying the principles of Scholasticism to the solution of the problems raised by a critical inquiry into the validity of knowledge and the grounds of certitude It does not purport to be in any sense a history of theories of knowledge or to supply anything like an adequate bibliography of works on the subject It is primarily a text book for the use of university students in philosophy though it is hoped that a perusal of it may be found helpful to all who desire a closer acquaintance with the attitude of modern scholastic writers towards the critical problems which almost monopolize the attention of philosophers nowadays It is needless to emphasize the growing importance of such problems in this age of restless inquiry and scepticism Nor will a text book in English from the standpoint of Scholasticism be deemed superfluous ***Materijali za istorijata na Makedonija*** ,1982 ***Epistemology or the Theory of Knowledge, 2 Volumes*** P. Coffey,2009-01-01 P Coffey was Professor of Logic and Metaphysics at Maynooth College Ireland His works include *Ontology or the Theory of Being* ***Reflecting Realities*** Anastacio, Jean,2000-07-21 *Reflecting realities* explores participants perspectives on participation structures capacity building and the technical and

professional support available and systems for monitoring and evaluating regeneration programmes The report includes recommendations for national and regional government local authorities and community organisations

E. Bailey Boydston, 2019-02-27 Most of us live a life wrapped in a subjective fiction we call our reality Relational Reality is grounded in applicable behavioral skills proven over thousands of years In this postmodern age there has never been a more important tether to objective truth Never has there been a time when connection to objective reality has been needed more These rules for relationships have lasted for literally thousands of years and brought about civilization as we know it We stand on the threshold of losing the very truths of intimate relationships into a morass of confusion Theories of Human Development Barbara M. Newman, Philip R. Newman, 2010-10-18 Intended for courses on theories of human development this new text presents nine theories grouped into three major families those that emphasize biological systems those that emphasize environmental factors and those that emphasize a dynamic interaction between biological and environmental forces The nine theories selected have a long and productive history in human development and continue to evolve as a result of new insights The inclusion of social role theory and life course theory expand the book s relevance to the study of adulthood and aging Grouping the theories by families enhances students ability to think critically about theoretical ideas assess the strengths and weaknesses of each theory and gain a deeper understanding of how each theory guides research and application The three families are introduced with a brief overview of the unique perspectives of each theory and the rationale for grouping these theories together Discussion of each theory includes the historical and cultural context in which the theory was developed an overview of key concepts and important ideas new directions in contemporary scientific work a research example illustrating how the theory has been tested and modified an application showing how the theory has guided the design of an intervention or program an analysis of how the theory answers basic questions about human development and a critique highlighting the theories strengths and weaknesses Theories of Human Development serves as a text in advanced undergraduate and or beginning graduate courses in theories of human development Its clear organization and engaging writing style make it accessible to students with a minimal background in human development **Epistemology** Peter Coffey, 1917 **How to Believe** John Cottingham, 2015-11-19 In *Why Believe* Continuum Professor John Cottingham argued that every human being

possesses impulses and aspirations for which religious belief offers a home His new book *How to Believe* is concerned not so much with why we should believe as with what leads a person to become a believer Cottingham challenges believers and non believers alike to think afresh about the need to change their lives and about what such change might involve Many people are deeply interested in the spiritual aspects of human existence but hold back from religious commitment because of doubts about the evidence for God In this lucid and emotionally engaged study John Cottingham charts a rational pathway towards religious belief by showing how it requires all the responses of the human mind Intellectual analysis has its place but to grasp all the relevant evidence we also need emotional openness and imaginative sensitivity Drawing on a rich array of literary scriptural and poetic resources the author locates religious belief in a transformative framework of meaning and value
