## **The Latin Church In Cyprus 1195-1312:**

*The Latin Church in Cyprus, 1195-1312* Nicholas Coureas, 2016-12-05 This is a study of the first century of the Latin Church on Cyprus following the island's loss to the Byzantine empire and its conquest by Richard the Lionheart in 1195. It covers both secular and regular clergy and deals with the complex relations between church and crown, the nobility and the urban Latin population within the island as well as its relations with the papacy and the other Latin churches of the East. Not least, it analyses the troubled relations between the Latin and the Orthodox churches. An important feature of the book is the new light thrown on the links between the Church of Cyprus and the Latin patriarchs of Jerusalem and Antioch and on the expansion of the Latin Church in the East in the Byzantine territories conquered following the Fourth Crusade. This book is the first in-depth account of the religious history of the Latin kingdom of Cyprus, which was the most durable of all the Latin states established by the Crusaders in the Eastern Mediterranean.

Moreover, the text analyses the relations between the Greek Church in Cyprus, the Morea, and Constantinople with the Latin Church. At the same time, it demonstrates the relationship between the Greek Church of Cyprus, the Morea, and Constantinople and the secular authorities.

In this new edition, great efforts have been made to increase and strengthen coverage of non-Anglican denominations, for example, non-Western European Christianity, as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe. In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the increasingly important area of moral and pastoral theology, among many others. K. Walsh, Peter W. Edbury, Nicholas S.H.

Coureas, 2016-12-05 There was a time seven centuries ago when Famagusta's wealth and renown could be compared to that of Venice or Constantinople The Cathedral of St Nicholas in the main square of Famagusta serving as the coronation place for the Crusader Kings of Jerusalem after the fall of Acre in 1291 symbolised both the sophistication and permanence of the French society that built it From the port radiated impressive commercial activity with the major Mediterranean trade centres generating legendary wealth cosmopolitanism and hedonism unsurpassed in the Levant These halcyon days were not to last however and a 15th century observer noted that following the Genoese occupation of the city a malignant devil has become jealous of Famagusta When Venice inherited the city it reconstructed the defences and had some success in revitalising the city's economy But the end for Venetian Famagusta came in dramatic fashion in 1571 following a year long siege by the Ottomans Three centuries of neglect followed which combined with earthquakes plague and flooding left the city

in ruins The essays collected in this book represent a major contribution to the study of Medieval and Renaissance Famagusta and its surviving art and architecture and also propose a series of strategies for preserving the city's heritage in the future They will be of particular interest to students and scholars of Gothic Byzantine and Renaissance art and architecture and to those of the Crusades and the Latin East as well as the Military Orders After an introductory chapter surveying the history of Famagusta and its position in the cultural mosaic that is the Eastern Mediterranean the opening section provides a series of insights into the history and historiography of the city There follow chapters on the churches and their decoration as well as the military architecture while the final section looks at the history of conservation efforts and assesses the work that now needs to be done

The Military Orders Volume VI (Part 1) Jochen Schenk, Mike Carr, 2016-10-26 Forty papers link the study of the military orders cultural life and output with their involvement in political and social conflicts during the medieval and early modern period Divided into two volumes focusing on the Eastern Mediterranean and Europe respectively the collection brings together the most up to date research by experts from fifteen countries on a kaleidoscope of relevant themes and issues thus offering a broad ranging and at the same time very detailed study of the subject
