Schwartz-Salant,2017-04-11 Increasing order in a system also creates disorder this seemingly paradoxical idea has deep roots in early cultures throughout the world but it has been largely lost in our modern lives as we push for increasing systematization in our world and in our personal lives Drawing on nearly five decades of research as well as forty five years working as a psychoanalyst Nathan Schwartz Salant explains that in a world where vast amounts of order are being created through the growing success of science and technology the concomitant disorder is having devastating effects upon relationships society and the environment As a Jungian analyst with training in the physical sciences Schwartz Salant is uniquely qualified to explore scientific conceptions of energy information and entropy alongside their mythical antecedents He analyzes the possible effects of created disorder including its negative consequences for the creator of the preceding order as well as its potentially transformative functions With many examples of the interaction of order and disorder in everyday life and psychotherapy *The Order Disorder Paradox* makes new inroads into our understanding of the wide ranging consequences of the order we create and its effects on others and the environment □□□□ ,1884 **Law and Order in**

Cosmic and Universal Laws Margo Kirtikar Ph.D.,2021-11-17 Described in Holy Scriptures of all religions in mythology in fairy tales and allegories that describe the essence and nature of the human These divine laws act as guidelines to define the order and structure of creation govern every form of life and every action that occurs in the universe The same principles work for all alike No law activates itself it is we who activate a law of the universe through our thoughts and actions individually and collectively As we have been given the freedom of choice we can make right or wrong choices But if we repent there are laws that allow us to correct our mistakes Heaven meets earth in the human who is both physical and divine The human being is the highest manifestation of the cosmos and is co creator pre destined as the builder and collector of all treasures of the universe The power of creativeness responds to the call of the spirit and the human determines his own
