The Leaves Clapped Their Hands:

And the Trees Clap Their Hands Virginia Stem Owens, 2005-02-04 Ever since Newton people including Christians have considered matter to be strictly mechanical uninformed by any spirit and without sentience Such a view says Virginia Owens demotes to mere metaphor all the natural imagery of Scripture that calls for creation to participate in the praise of its maker Now however contemporary physical theory offers us an expanded view of the cosmos which suggests that it is indeed sentient and informed with knowledge For Christians Virginia Owens argues in this book the cosmos bears witness to the Incarnation itself Owens offers a brief history and exploration of physics interwoven with vivid and provocative perceptions of the physical world reminiscent of the writings of Annie Dillard The heavens really do proclaim the glory of God Owens insists The prophet s figure of trees clapping their hands is a living reality And the Trees Clap Their Hands will appeal to all general readers who are interested in the relationship between faith and our understanding of the physical world **The Trees Will**

Clap Their Hands Jon Huntzinger, 2012 The Trees Will Clap Their Hands looks at the story of the Garden of Eden and traces its most important themes throughout the Old and New Testaments We see how biblical writers over the centuries drew upon the story to describe the times in which they lived and to envision a new future for themselves and for God s people Though many people think of the garden as something like the ultimate vacation spot we learn that it is in fact the ultimate vocation destination It is primarily a place of devotion and worship of God This basic truth binds the Bible together from Genesis to Revelation Through this study we discover that the garden is not just a biblical or historical landmark nor is it only a future hope but it is a place that we are invited to live in today **Violet** C.S.
