The Lesser Evil Moral Approaches To Genocide Practices:

The Lesser Evil Helmut Dubiel, Gabriel Motzkin, 2004-04-22 This book comprises 14 essays by scholars who disagree about the methods and purposes of comparing Nazism and Communism The central idea is that if these two different memories of evil were to develop in isolation their competition for significance would distort the real evils both movements propagated Whilst many reject this comparison because they feel it could relativize the evil of one of these movements the claim that a political movement is uniquely evil can only be made by comparing it to another movement How do these issues affect postwar interrelations between memory and history Are there tensions between the ways postwar societies remember these atrocities and the ways in which intellectuals and scholars reconstruct what happened Nazism and Communism have been constantly compared since the 1920s A sense of the ways in which these comparisons have been used and abused by both Right and Left belongs to our common history These twentieth century evils invite comparison if only because of their traumatic effects We have an obligation to understand what happened and we also have an obligation to understand how we have dealt with it

The Lesser Evil Helmut Dubiel, Gabriel Motzkin, 2004-04-22 In this book scholars debate the evils of Nazism and Communism and explore methods and purposes of comparing the two

Socialist Practice Victor Wallis, 2020-02-18 The level of popular discontent in the United States as elsewhere has shown a dramatic increase in recent years but has yet to crystallize into a cohesive anti capitalist political force Socialist Practice aims to contribute to a popular movement for socialism It does so by 1 revisiting under present conditions longstanding questions of Marxist theory and revolutionary history and 2 illustrating the range of issues activities and forms of expression that can both inform and be informed by a Marxist approach Essays spanning a range of national experiences address the crying need to generate a society wide awakening grounded in purposeful discussion among all those the vast majority whose interests are ill served by continuation of the status quo

Globalisation and Historiography of National Leaders Joseph Zajda, Tatyana Tsyrlina-Spady, Michael Lovorn, 2016-12-23 Globalisation and Historiography of National Leaders Symbolic Representations in School Textbooks the 18th book in the 24 volume book series Globalisation Comparative Education and Policy Research explores the interrelationship between ideology national identity national history and historical heroes setting it in a global context Based on this focus the chapters represent hand picked scholarly research on major discourses in the field of history textbooks and symbolic representations of national heroes and draw upon recent studies in the areas of globalisation history textbooks and national leaders A number of researchers have written on the importance of teaching national history in order to foster national identity and a sense of belonging to a certain society state and people among the younger generation Some nations prefer to create national heroes out of their political leaders who are still in power and whose lives and reputation are portrayed as being eminently spotless Using diverse comparative education paradigms from critical theory social semiotics and historical comparative research the authors analyse the unpacking of the ideological agenda hidden behind the

choice and lionization or silencing of the preferred national heroes They provide an informed critique of various historical narratives depicting national leaders and national heroes The book provides an easily accessible practical yet scholarly source of information on international concerns in the field of globalisation history education and policy research Offering an essential sourcebook of ideas for researchers history educators practitioners and policymakers in the fields of globalisation and history education it also provides a timely overview of current changes in politically correct history education narratives in history textbooks

The Oxford Handbook of European History, 1914-1945 Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today

Remembering the Road to World War Two Patrick Finney, 2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory

Mussolini in Myth and Memory Paul Corner, 2022-08-25 Mussolini in myth and memory Paul Corner looks at the brutal reality of the Italian dictator's fascist regime and confronts the nostalgia for dictatorial rule evident today in many European countries Mussolini has rarely been taken seriously as a totalitarian dictator Hitler and Stalin have always cast too long a shadow But what was a negative judgement on the Duce considered innocuous and ineffective has begun to work to his advantage As has occurred with many other European dictators present day popular memory of Mussolini is increasingly indulgent in Italy and elsewhere he is remembered as a strong decisive leader and people now speak of the many good things done by the regime After all it is said Mussolini was not like the others Mussolini in Myth and Memory argues against this rehabilitation documenting the inefficiencies corruption and violence of a highly repressive regime and exploding the myths of Fascist good government But this short study does not limit itself to setting the record straight it seeks also to answer the

question of why there is nostalgia not only in Italy for dictatorial rule Linking past history and present memory Corner's analysis constructs a picture of the realities of the Italian regime and examines the more general problem of why in a moment of evident crisis of western democracy people look for strong leadership and take refuge in the memory of past dictatorships If in this book Fascism is placed in its totalitarian context and Mussolini emerges firmly in the company of his fellow dictators the study also shows how a memory of the past formed through reliance on illusion and myth can affect the politics of the present

Unimaginable Jeremiah J. Johnston, 2017-12-05 A Stirring Account of Christianity's Power for Good In a day when Christians are often attacked for their beliefs professor and speaker Jeremiah Johnston offers an inspiring look at the positive influence of Christianity both historically and today In Unimaginable you'll discover the far reaching ways that Christianity is good for the world and has been since the first century AD including How the plights of women and children in society were forever changed by Jesus Why democracy and our education and legal systems owe much to Christianity How early believers demonstrated the inherent value of human life by caring for the sick handicapped and dying How Christians today are extending God's kingdom through charities social justice efforts and other profound ways Like It's a Wonderful Life the classic film that showed George Bailey how different Bedford Falls would be without his presence Unimaginable guides readers through the halls of history to see how Jesus' teachings dramatically changed the world and continue to be the most powerful force for good today This provocative and enlightening book is sure to encourage believers and challenge doubters

A New Nationalist Europe Under Hitler Johannes Dalfinger, Dieter Pohl, 2018-08-06 Nazis fascists and völkisch conservatives in different European countries not only cooperated internationally in the fields of culture science economy and persecution of Jews but also developed ideas for a racist and ethno nationalist Europe under Hitler The present volume attempts to combine an analysis of Nazi Germany's transnational relations with an evaluation of the discourse that accompanied these relations

The Routledge History of the Second World War Paul R. Bartrop, 2021-11-08 The Routledge History of the Second World War sums up the latest trends in the scholarship of that conflict covering a range of major themes and issues The book delivers a thematic analysis of the many ways in which study of the Second World War can take place considering international transnational and global approaches and serves as a major jumping off point for further research into the specific fields covered by each of the expert authors It demonstrates the global and total nature of the Second World War giving due coverage to the conflict in all major theatres and through the lens of the key combatants and neutrals examines issues of race gender ideology and society during the war and functions as a textbook to educate students as to the trends that have taken place in how the conflict has been and can be interpreted in the modern world Divided into twelve parts that cover central themes of the conflict including theatres of war leadership societies occupation secrecy and legacies it enables those with no memory of war to approach it with a view to comprehending what it was all about and places the history of this conflict into a context that is international transnational and institutional This is a

comprehensive and accessible reference volume for anyone interested in the most up to date scholarship on this major conflict Chapter 18 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>

From Fascism to Populism in History Federico Finchelstein, 2019-08-20 What is fascism and what is populism What are their connections in history and theory and how should we address their significant differences What does it mean when pundits call Donald Trump a fascist or label as populist politicians who span left and right such as Hugo Chavez Juan Peron Rodrigo Duterte and Marine Le Pen Federico Finchelstein one of the leading scholars of fascist and populist ideologies synthesizes their history in order to answer these questions and offer a thoughtful perspective on how we might apply the concepts today While they belong to the same history and are often conflated fascism and populism actually represent distinct political trajectories Drawing on an expansive record of transnational fascism and postwar populist movements Finchelstein gives us insightful new ways to think about the state of democracy and political culture on a global scale This new edition includes an updated preface that brings the book up to date midway through the Trump presidency and the election of Jair Bolsonaro in Brazil

Italy's Jews from Emancipation to Fascism Shira Klein, 2018-01-18 How did Italy treat Jews during World War II Historians have shown beyond doubt that many Italians were complicit in the Holocaust yet Italy is still known as the Axis state that helped Jews Shira Klein uncovers how Italian Jews though victims of Italian persecution promoted the view that Fascist Italy was categorically good to them She shows how the Jews experience in the decades before World War II during which they became fervent Italian patriots while maintaining their distinctive Jewish culture led them later to bolster the myth of Italy's wartime innocence in the Fascist racial campaign Italy's Jews experienced a century of dramatic changes from emancipation in 1848 to the 1938 Racial Laws wartime refuge in America and Palestine and the rehabilitation of Holocaust survivors This cultural and social history draws on a wealth of unexplored sources including original interviews and unpublished memoirs

Migrations in the German Lands, 1500-2000 Jason Coy, Jared Poley, Alexander Schunka, 2016-09-01 Migration to from and within German speaking lands has been a dynamic force in Central European history for centuries Exemplifying some of the most exciting recent research on historical mobility the essays collected here reconstruct the experiences of vagrants laborers religious exiles refugees and other migrants during the last five hundred years of German history With diverse contributions ranging from early modern martyrdom to post Cold War commemoration efforts this volume identifies revealing commonalities shared by different eras while also placing the German case within the broader contexts of European and global migration

The Devil in History Vladimir Tismaneanu, 2012-09-28 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly

compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus François Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness

Hannah Arendt and the Uses of History Richard H. King, Dan Stone, 2008-09 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in *The Origins of Totalitarianism* This text uses Arendt's insights as a starting point for further investigations into the ways in which race imperialism slavery and genocide are linked

The Oxford Handbook of Propaganda Studies Jonathan Auerbach, Russ Castronovo, 2013 Derived from the word to propagate the idea and practice of propaganda concerns nothing less than the ways in which human beings communicate particularly with respect to the creation and widespread dissemination of attitudes images and beliefs Much larger than its pejorative connotations suggest propaganda can more neutrally be understood as a central means of organizing and shaping thought and perception a practice that has been a pervasive feature of the twentieth century and that touches on many fields It has been seen as both a positive and negative force although abuses under the Third Reich and during the Cold War have caused the term to stand in most recently as a synonym for untruth and brazen manipulation Propaganda analysis of the 1950s to 1989 too often took the form of empirical studies about the efficacy of specific methods with larger questions about the purposes and patterns of mass persuasion remaining unanswered In the present moment where globalization and transnationality are arguably as important as older nation forms when media enjoy near ubiquity throughout the globe when various fundamentalisms are ascendant and when debates rage about neoliberalism it is urgent that we have an up to date resource that considers propaganda as a force of culture writ large The handbook will include twenty two essays by leading scholars from a variety of disciplines divided into three sections In addition to dealing with the thorny question of definition the handbook will take up an expansive set of assumptions and a full range of approaches that move propaganda beyond political campaigns and warfare to examine a wide array of cultural contexts and practices

Cultural Memory Studies Astrid Erll, Ansgar Nünning, 2008-08-27 This handbook

represents the interdisciplinary and international field of cultural memory studies for the first time in one volume. Articles by renowned international scholars offer readers a unique overview of the key concepts of cultural memory studies. The handbook not only documents current research in an unprecedented way; it also serves as a forum for bringing together approaches from areas as varied as sociology, political sciences, history, theology, literary studies, media studies, philosophy, psychology, and neurosciences. Cultural memory studies as defined in this handbook came into being at the beginning of the 20th century with the works of Maurice Halbwachs on *mnemonic collective*. In the course of the last two decades, this area of research has witnessed a veritable boom in various countries and disciplines. As a consequence, the study of the relation of culture and memory has diversified into a wide range of approaches. This handbook is based on a broad understanding of cultural memory as the interplay of present and past in sociocultural contexts. It presents concepts for the study of individual remembering in a social context, group and family memory, national memory, the various media of memory, and finally the host of emerging transnational *lieux de mémoire* such as 9/11. *At the Edges of Liberalism* Steven E. Aschheim, 2012-05-15. The essays in this volume seek to confront some of the charged meeting points of European, especially German and Jewish history. All in one way or another, they explore the entanglements, the intertwined moments of empathy and enmity, belonging and estrangement, creativity and destructiveness that occurred at these junctions. These encounters typically unfolded within an uneasy continuum of conflict and cooperation, conformity and resistance, refashioning or maintaining personal and collective dimensions of identity. Clearly, they never allowed for the luxury of indifference. Yet it would be wrong to present meetings of this kind as exclusively confrontational, as stark either/or choices. Life at the junctions may be vulnerable and insecure, but it can also yield fresh angles of perception and new opportunities. If these boundary situations generated a modicum of friction, confusion, and anxiety, and at times even murderousness, they also produced new alliances and friendships, creative projects, and novel fusions and formations of identity. In exploring these dramatic moments in history, Steven Aschheim provides valuable new insights into the history of Europe, Israel, and global Judaism. Empathy and its Limits Aleida Assmann, Ines Detmers, 2016-01-26. This volume extends the theoretical scope of the important concept of empathy by analysing not only the cultural contexts that foster the generating of empathy but, in focusing also on the limits of pro-social feelings and the mechanisms that lead to its blocking. **Persian Literature and Modernity** Hamid Rezaei Yazdi, Arshavaz Mozafari, 2018-12-07. *Persian Literature and Modernity* recasts the history of modern literature in Iran by elucidating the bonds between the classical tradition and modernity and exploring textual, generic, and discursive formations through heterodoxical investigations. This is first done through the rehabilitation of concepts embedded in tradition, including the *munzirah* debate, *Ahriman*, the demonic *tajarrud*, radical aloneness, and *n-riz-yat* discontent. Following this are broader structural and processual treatments, including the emergence of the genre of the social novel, the international dimension of Persian and Persianate canon formation, and the development of salvage ethnography and anthropological discourse in Iran. Covering

literary experiments from the twelfth to the twentieth centuries the chapters in this volume make a case for stepping outside the bounds of orthodox literary scholarship in Iranian studies with its associated political and orientalist determinants in order to provide a more nuanced conception of literary modernity in Iran Offering an alternative reading of modernity in Persian literature this book is an invaluable resource for scholars and students interested in the history of modern Iran and Persian Literature

Unveiling the Magic of Words: A Report on "**The Lesser Evil Moral Approaches To Genocide Practices**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**The Lesser Evil Moral Approaches To Genocide Practices**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.

The Lesser Evil Moral Approaches To Genocide Practices Introduction

In today's digital age, the availability of The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing The Lesser Evil Moral Approaches To Genocide Practices versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing The Lesser Evil Moral Approaches To Genocide Practices books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for The Lesser Evil Moral Approaches To Genocide Practices books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated

to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of The Lesser Evil Moral Approaches To Genocide Practices books and manuals for download and embark on your journey of knowledge?

FAQs About The Lesser Evil Moral Approaches To Genocide Practices Books

1. Where can I buy The Lesser Evil Moral Approaches To Genocide Practices books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
