DESMOND KING

MAKING THE AMERICAN NATION

# The Liberty Of Strangers Making The American Nation

**James Hampshire**

## **The Liberty Of Strangers Making The American Nation:**

*The ^ALiberty of Strangers* Desmond King, 2004-12-09 Spanning the entire twentieth century and encompassing immigration policies the nationalistic fallout from both world wars the civil rights movement and nation building efforts in the postcolonial era *The Liberty of Strangers* advances a major new interpretation of American nationalism and the future prospects for diverse democracies Tracing how Americans have confronted and relinquished but mostly clung to group identities over the past century Desmond King here debunks one of the guiding assumptions of American nationhood namely that group distinction and identification would gradually dissolve over time creating a postethnic nation The divisions in American society have consistently proven themselves too strong to dissolve and for better or for worse the often disparaged politics of multiculturalism are here to stay with profound implications for America s democracy

**Sacrificing Soldiers on the National Mall** Kristin Ann Hass, 2013-03-22 For the city s first two hundred years the story told at Washington DC s symbolic center the National Mall was about triumphant American leaders Since 1982 when the Vietnam Veterans Memorial was dedicated the narrative has shifted to emphasize the memory of American wars In the last thirty years five significant war memorials have been built on or very nearly on the Mall The Vietnam Veterans Memorial the Korean War Veterans Memorial the Women in Military Service for America Memorial The National Japanese American Memorial to Patriotism During WWII and the National World War II Memorial have not only transformed the physical space of the Mall but have also dramatically rewritten ideas about U S nationalism expressed there In *Sacrificing Soldiers on the National Mall* Kristin Ann Hass examines this war memorial boom the debates about war and race and gender and patriotism that shaped the memorials and the new narratives about the nature of American citizenship that they spawned *Sacrificing Soldiers on the National Mall* explores the meanings we have made in exchange for the lives of our soldiers and asks if we have made good on our enormous responsibility to them

*Handbook of Citizenship and Migration* Marco Giugni, Maria Grasso, 2021-06-25 Taking an integrated approach this unique Handbook places the terms citizenship and migration on an equal footing examining how they are related to each other both conceptually and empirically

*The Politics of Immigration* James Hampshire, 2013-10-07 The book shows how four defining facets of the liberal state representative democracy constitutionalism capitalism and nationhood generate conflicting imperatives for immigration policymaking which in turn give rise to paradoxical even contradictory policies Page 4 of cover

**US Foreign Policy** Richard Johnson, 2021-06-29 Paying close attention to its domestic roots this textbook provides a valuable introduction to the construction and application of US foreign policy in the modern era Accessibly written and including helpful illustrative material a glossary and guide to further reading it is organised around four broad themes the ideologies of US foreign policy the institutions of US foreign policy making the actors who influence and shape the content of US foreign policy the policy goals and ideas that motivate US foreign policy Drawing from analyses of the broader history of US foreign policy throughout the post Second World War

period the book encourages readers to think about how these ideas institutions and goals have been at work in the foreign policy of recent presidential administrations including those of George W Bush Barack Obama Donald Trump and Joe Biden

Competing Visions of World Order Sebastian Conrad, Dominic Sachsenmaier, 2007-04-16 Bringing together scholars from around the world this first book in the Palgrave Macmillan Transnational History Series raises the question of how we can get away from the contemporary language of globalization so as to identify meaningful global ways of defining historical events and processes in the late Nineteenth and Twentieth centuries

**The Paradox of Citizenship in American Politics** Mehnaaz Momen, 2017-08-28 This remarkable book does the unusual it embeds its focus in a larger complex operational space The migrant the refugee the citizen all emerge from that larger context The focus is not the usual detailed examination of the subject herself but that larger world of wars grabs contestations and importantly the claimers and resisters Saskia Sassen Professor of Sociology Columbia University USA This thought provoking book begins by looking at the incredible complexities of American identity and ends with the threats to civil liberties with the vast expansion of state power through technology A must read for anyone interested in the future of the promise and realities of citizenship in the modern global landscape Kevin R Johnson Dean UC Davis School of Law USA Momen focuses on the basic paradox that has long marked national identity the divide between liberal egalitarian self conception and persistent practices of exclusion and subordination The result is a thought provoking text that is sure to be of interest to scholars and students of the American experience Aziz Rana Professor of Law Cornell Law School USA This book is an exploration of American citizenship emphasizing the paradoxes that are contained normalized and strengthened by the gaps existing between proposed policies and real life practices in multiple arenas of a citizen s life The book considers the evolution of citizenship through the journey of the American nation and its identity its complexities of racial exclusion its transformations in response to domestic demands and geopolitical challenges its changing values captured in immigration policies and practices and finally its dynamics in terms of the shift in state power vis vis citizens While it aspires to analyze the meaning of citizenship in America from the multiple perspectives of history politics and policy it pays special attention to the critical junctures where rhetoric and reality clash allowing for the production of certain paradoxes that define citizenship rights and shape political discourse

**Americanism in the Twenty-First Century** Deborah J. Schildkraut, 2010-11-15 This book explores public opinion about being and becoming American and its implications for contemporary immigration debates It focuses on the causes and consequences of two aspects of American identity how people define being American and whether people think of themselves primarily as American rather than as members of a panethnic or national origin group Importantly the book evaluates the claim made by scholars and pundits alike that all Americans should prioritize their American identity instead of an ethnic or national origin identity It finds that national identity within American democracy can be a blessing or a curse It can enhance participation trust and obligation But it can be a curse when perceptions of deviation lead to threat and resentment It can

also be a curse for minorities who are attached to their American identity but also perceive discrimination **American**

**Abyss** Daniel E. Bender, 2011-02-23 At the beginning of the twentieth century industrialization both dramatically altered everyday experiences and shaped debates about the effects of immigration empire and urbanization In *American Abyss* Daniel E Bender examines an array of sources eugenics theories scientific studies of climate socialist theory and even popular novels about cavemen to show how intellectuals and activists came to understand industrialization in racial and gendered terms as the product of evolution and as the highest expression of civilization Their discussions he notes are echoed today by the use of such terms as the developed and developing worlds American industry was contrasted with the supposed savagery and primitivism discovered in tropical colonies but observers who made those claims worried that industrialization by encouraging immigration child and women s labor and large families was reversing natural selection Factories appeared to favor the most unfit There was a disturbing tendency for such expressions of fear to favor eugenicist remedies Bender delves deeply into the culture and politics of the age of industry Linking urban slum tourism and imperial science with immigrant better baby contests and hoboes *American Abyss* uncovers the complex interactions of turn of the century ideas about race class gender and ethnicity Moreover at a time when immigration again lies at the center of American economy and society this book offers an alarming and pointed historical perspective on contemporary fears of immigrant laborers

**Citizenship and Belonging** James Hampshire, 2005-04-15 James Hampshire explores the politics of immigration in postwar Britain and shows how ideas of race demography and belonging intertwined to shape immigration policy It is the first book to explain immigration in terms of the politics of demographic governance how states manage and regulate their populations and provides a much needed historical context to current debates In addition the book develops new perspectives on the ways in which racialized ideas influenced politics and policy making

*Tracing the Relationship between Inequality, Crime and Punishment* Nicola Lacey, David Soskice, Leonidas Cheliotis, Sappho Xenakis, 2021-01-28 This book develops an interdisciplinary analysis of the institutional cultural and political economic factors shaping crime and punishment so as better to understand whether and if so how and why social and economic inequality influences levels and types of crime and punishment and conversely whether crime and punishment shape inequalities

**Transcultural Encounters in South-Asian American Women's Fiction** Adriana Elena Stoican, 2015-09-18 This book offers captivating insights into the interaction between the Indian and the American cultural worlds A fascinating work of research it illustrates an extraordinary capacity to employ the details of literary texts as significant clues in understanding the configuration of transcultural identities The book constructs an exciting dialogue between complex theoretical notions and the vibrant fictional worlds populated by Indian American and European characters Its original and multi layered approach illustrates how complex theories of culture can help the reader understand contemporary processes of migration cultural change and gender identity that interfere with daily life

**Grandmothers on Guard** Jennifer Johnson, 2021-05-18 For about a decade

one of the most influential forces in US anti immigrant politics was the Minuteman Project The armed volunteers made headlines patrolling the southern border What drove their ethno nationalist politics Jennifer L Johnson spent hundreds of hours observing and interviewing Minutemen hoping to answer that question She reached surprising conclusions While the public face of border politics is hypermasculine men in uniforms fatigues and suits older women were central to the Minutemen Women mobilized support and took part in border missions These women compel us to look beyond ideological commitments and material benefits in seeking to understand the appeal of right wing politics Johnson argues that the women of the Minutemen were motivated in part by the gendered experience of aging in America In a society that makes old women irrelevant aging white women found their place through anti immigrant activism which wedded native politics to their concern for the safety of their families Grandmothers on Guard emphasizes another side of nationalism the yearning for inclusion The nation the Minutemen imagined was not only a space of exclusion but also one in which these women could belong

**Migration Theory** Caroline B. Brettell, James F. Hollifield, 2013-05-13 During the last decade the issue of migration has increased in global prominence and has caused controversy among the host countries around the world Continuing their interdisciplinary approach editors Catherine Brettell and James Hollifield have included revised essays from the first edition in such fields as anthropology political science and history This edition also features new essays by a demographer geographer and sociologist

*Raced Markets* Lisa Tilley, Robbie Shilliam, 2021-05-30 Despite rich archives of work on race and the global economy most notably by scholars of colour and Global South intellectuals the discipline of Political Economy has largely avoided an honest confrontation with how race works within the domains it studies not least within markets By way of corrective this book draws together scholarship on the material function of race at various scales in the global political economy The collective provocation of the contributors to this volume is that race has been integral to the formation of capitalism as extensively laid out by the racial capitalism literature and takes on new forms in the novel market spaces of neoliberalism The chapters within this volume also reinforce that the current political conjuncture marked by the ascension of neo fascist power cannot be defined by an exceptional intrusion of racism nor can its racism be dismissed as epiphenomenal *Raced Markets* will be of great value to scholars students and researchers interested in political economy and racial capitalism as well as those willing to explore how race takes on new forms in the novel market spaces of contemporary neoliberalism The chapters in this book were originally published as a special issue of the *New Political Economy*

*Zionism and the Roads Not Taken* Noam Pianko, 2010-06-03 Uncovers the thought of three key interwar Jewish intellectuals who defined Zionism s central mission as challenging the model of a sovereign nation state historian Simon Rawidowicz religious thinker Mordecai Kaplan and political theorist Hans Kohn

**New Directions in Public Opinion** Adam J. Berinsky, 2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to

understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of *New Directions in Public Opinion* brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in contemporary politics

**Elites, Policies and State Reconfiguration** William Genieys, Mohammad-Saïd Darviche, 2023-11-09 This book examines the history of the French welfare state from the mid twentieth century to the present day The French social security system has changed profoundly over the last few decades The Bismarkian model of governance and social protection inherited from the Second World War has progressively faded away in favor of a reinforcement of the state's capacity to intervene on policies and the implementation of national health insurance coverage In order to understand this major transformation this book draws on rich original sources to offer a historical and sociological perspective on elite policymakers and policy change In doing so it identifies correlations between the changing social backgrounds and career paths of elites in charge of social insurance policies since the 1940s and the development of health policy programs It will appeal to all those interested in public policy health policy social studies and French history and politics

Compound Democracies Sergio Fabbrini, 2010-08-19 A major and broad ranging new comparison of the American and European political systems that argues provocatively that they are growing increasingly similar and offers a compelling new model for understanding them

Knowledge, Pedagogy, and Postmulticulturalism Gay Wilgus, 2013-05-21 This volume identifies problematizes and discusses issues specific to the design of educational programs for teacher candidates from working class ethnic and language minority and immigrant backgrounds taking as its starting point the distinctive complex perspectives that these candidates bring to the university classroom

## Unveiling the Magic of Words: A Overview of "**The Liberty Of Strangers Making The American Nation**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**The Liberty Of Strangers Making The American Nation**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
