The Life and Times of Menahem Begin Frank Gervasi, 1979 A biography of Israel's controversial Prime Minister with an analysis of the events and forces that brought him to power      **The Life and Time of Menahem Begin** Frank Henry Gervasi, 1979      **The Who's Who of Nobel Prize Winners, 1901-2000** Louise S. Sherby, 2001-12-30 The Who's Who of Nobel Prize Winners is a one stop source of detailed information on the men and women who earned the Nobel Prize during the 20th century Organized chronologically by prize each extensive article contains in depth information on the laureate's life and career as well as a selected list of his or her publications and biographical resources on the individual A concise commentary explains why the laureate received the award and summarizes the individual's other important achievements This completely updated edition also contains a history of the prize Four indexes distinguish this title from similar biographical references and enable researchers to search by name education nationality or citizenship and religion      The Friday Review of Defense Literature, 1983      Newsletter, 1979      **The Jewish Spectator**, 1979      **The Rhetoric of Menachem Begin** Robert C. Rowland, 1985-06-28 Based on the premise that the moral problems raised by the holocaust can be confronted only in myth the author shows that Menachem Begin's rhetoric is based on how he views the world through the myth of holocaust and redemption through return Demonstrates that the actions of the Begin administration which many observers have found inexplicable are perfectly logical when viewed from the perspective of the myth of return Of interest to students of rhetoric political science the holocaust and Zionism      Decisionmaking on War and Peace Nehemia Geva, Alex Mintz, 1997 Reviewing comparing and contrasting models of foreign policy this volume focuses on the cognitive vs rational debate about decisionmaking on war and peace It provides alternative models of foreign policy choice and identifies when one strategy is more appropriate than another      *Why Hawks Become Doves* Guy Ziv, 2014-11-07 Investigates how leaders' personalities shape important foreign policy shifts Why do hawkish leaders change course to pursue dovish policies In *Why Hawks Become Doves* Guy Ziv argues that conventional international relations theory is inadequate for explaining these momentous foreign policy shifts because it underestimates the importance of leaders and their personalities Applying insights from cognitive psychology Ziv argues that decision makers' cognitive structure specifically their levels of cognitive openness and complexity is a critical causal variable in determining their propensity to revise their beliefs and pursue new policies To illustrate his point he examines Israeli statesman Shimon Peres Beginning his political career as a tough minded security hawk Peres emerged as one of the Middle East's foremost champions of Israeli Palestinian peacemaking Drawing on a vast range of sources including interviews with Peres and dozens of other political elites archival research biographies and memoirs Ziv finds that Peres's highly open and complex cognitive structure facilitated a quicker and more profound dovish shift on the Israeli Palestinian conflict than his less cognitively open and complex rivals Guy Ziv has written a masterful and intriguing study that breaks new ground in demonstrating the importance of the individual leader in framing foreign policy

The comparisons of Peres Rabin Begin and Shamir are extraordinary and effectively demonstrate the advantages of a leader who has a talent for adapting to altered conditions and listening to differing perspectives It s both an absorbing page turner and a stimulating eye opener Steven L Spiegel coauthor of *The Peace Puzzle America s Quest for Arab Israeli Peace* 1989 2011 Ziv has written a fascinating account of how some leaders Peres Rabin Sharon are able to shift their goals and strategies to a less conflictual mode and how others Shamir Begin Netanyahu are simply incapable of doing so Ziv makes a strong case for the proposition that the cognitive structure of leaders matters A turn towards peace requires national leaders who are personally capable of making that turn Ziv s tome is a substantial contribution to the literatures of foreign policy analysis and political psychology and is an important read for all who seek a more peaceful world Valerie M Hudson author of *Foreign Policy Analysis Classic and Contemporary Theory* **Newsletter** United States. Department of State,1979 The Nobel Peace Prize and the Laureates Irwin Abrams,2001 Presents brief biographical portraits of the 106 recipients of the Nobel Peace Prize during its 100 year history **Department of State News Letter** United States.
