Thomas Edward Watson,2015-07-11 Excerpt from The Life and Times of Thomas Jefferson By far the greater number of  
books treating of American history and biography have been written by Northern men Southern men of the Old Regime were  
not much given to the writing of books and when the man of New England strode forward pen in hand nominated himself  
custodian of our national archives and began to compile the record nobody seriously contested the office This being so it  
happened almost inevitably that New England got handsome treatment in our national histories Tended by the reverential  
hands of her own sons her historical graves have been kept very green indeed The microscope applied to every historical

scene and character in New England has let no excellence escape its magnifying power This was very natural The New England author by the sheer strength of environment education heredity inborn prejudice and preference saw everything from a New England point of view and as it appeared to him so he colored the record Nobody denies that New England deserved good treatment in our histories About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
