

Life in Ancient Greece

The ancient Greeks were great thinkers, warriors, artists, and politicians. They were also great builders. Their cities had beautiful temples, open-air theaters, and other dazzling public buildings.

Art and Artisans

The Greeks were famous for their clay pots. They came in many shapes and sizes depending on their purpose. They were often beautifully decorated with scenes from daily life.

The Greeks were really good at making statues, too. Master sculptors carved life-like statues out of a rock called marble.

Great Thinkers

The Greeks created a new way of thinking that emphasized logic, reasoning, mathematics, and careful observation. Plato (on the left) and Aristotle were famous thinkers of the time. Hippocrates, a doctor, and Archimedes, an inventor and mathematician, were well-known scientists.

Bold Builders

The ancient Greeks had a grand style of architecture that is still copied today. The Greeks believed that the secret to making a great building was math. They carefully designed their buildings, making sure all the angles, shapes, and sizes were just right.

frieze: a decorative panel of sculpture

pediment: a triangle-shaped area with more sculpture

inner chamber: a room that held a statue of the god or goddess of the temple

columns: a long post used to support a building, built around temples

The most famous Greek temple is the Parthenon in Athens. It was built for the goddess Athena.

Watchful Gods

The Greeks believed that gods and goddesses watched over them from Mount Olympus. Every city had a favorite god or goddess. People believed the gods protected them from harm. To please the gods, people brought gifts of money, flowers, food, and drink to temples like the Parthenon.
