The Sheathed Sword, 2022-09-30 After a brief interlude following the Cold War nuclear weapons have regained their prominent place in world affairs Yet our current nuclear age will not be a replay of the Cold War New technologies changing political contexts and the death of old arms control agreements mean that today s nuclear strategists have to navigate uncharted waters filled with fresh perils Unfortunately the consequences of failure in the nuclear world can be catastrophic The immediate imperative today is to lower the possibility of nuclear weapons use during a crisis or conflict involving nuclear powers While deliberate or pre-emptive nuclear use is less likely the rising danger of our time is that nuclear weapons will be employed due to some combination of miscommunication misjudgment misperception and sheer accident

The Sheathed Sword From Nuclear Brink to No First Use is a collection of essays by leading scholars and practitioners on the role of nuclear weapons in global security The contributors examine how individual states view nuclear weapons the devastating effects of nuclear war on the world s climate and the issues around nuclear no first use They also debate the feasibility and desirability of a global no first use GNFU agreement

NATO's Security Discourse After the Cold War Andreas Behnke, 2013 This book provides a critical investigation into the discursive processes through which the North Atlantic Treaty Organisation NATO reproduced a geopolitical order after the end of the Cold War and the demise of its constitutive enemy the Soviet Union

Europe, Cold War and Coexistence, 1955-1965 WILFRED LOTH, 2004-03-01 This title examines the role of the Europeans in the Cold War during the Khrushchev Era It was a period marked by the struggle for a regulated co-existence in a world of blocs an initial arrangement to find a temporary arrangement failed due to German desires to quickly overcome the status quo It was only when the danger of an unintended nuclear war was demonstrated through the crises over Berlin and Cuba that a tacit arrangement became possible which was based on a system dominated by a nuclear arms race The book provides useful information on the role of Konrad Adenauer and the beginnings of the German new Eastern policy as well as examining the Western European power policy in the era of Harold Macmillan and Charles de Gaulle

[Dialogue with the Mediterranean](#) Gareth Mark Winrow, 2002-05-03 The first examination of the importance of NATO s Mediterranean Initiative for the security and stability of the Euro-Mediterranean area this book discusses the challenges risks and possible threats to NATO member states which may stem from the southern and eastern Mediterranean

European-American Relations and the Middle East Victor Mauer, Daniel Möckli, 2010-10-18 This book examines the evolution of European American relations with the Middle East since 1945 Placing the current transatlantic debates on the Middle East into a broader context this work analyses how why and to what extent European and US roles interests threat perceptions and policy attitudes in the region have changed

relating to both the region as a whole and the two main issues analysed Gulf Security and the Arab Israeli Conflict The contributors then go on to discuss the implications of these developments for Western policymaking The volume makes four key contributions First it examines the subject matter from a truly transatlantic perspective with all chapters adopting a bi or multilateral approach taking into account the views from both the US and individual European countries or the EC EU collectively Second the book takes a long term view covering a series of crises and developments over the past six decades Third it has a systematic structure with the predominantly chronological order of the chapters being geared towards depicting trends and evolutions with regard to the key themes of the book Finally the book builds bridges between historians and political scientists analysts as well as between experts of transatlantic relations and Middle East scholars This book will be of great interest to students of transatlantic relations the Middle East US foreign policy European politics international history and IR in general Daniel M ckli is a Senior Researcher at the Center for Security Studies CSS ETH Zurich He is also the editor of CSS Analyses in Security Policy Victor Mauer is Deputy Director and Head of Research of the Center for Security Studies CSS ETH Zurich and Lecturer in the Department of Social Sciences and Humanities at ETH Zurich

Palgrave Advances in Cold War History Geraint Hughes,2006-05-31 This innovative collection deals with the ideational cultural political and strategic aspects of the multifaceted Cold War Drawing on the work of numerous established scholars and experts this volume combines knowledge of the subject with key intellectual trends that have been developed over recent years *United States, Western Europe and Military Intervention Overseas* Christopher Coker,2016-01-12 **Sharing Security** M. Chalmers,2016-04-30 Sharing Security is a unique and comprehensive study of a key yet often neglected feature of modern international society It begins by assessing how political theory can contribute to an understanding of international burdensharing It then analyses in turn why some Western states contribute more than others to common defences the European Union budget and overseas development aid It highlights the particular burdensharing problems involved in global regimes focusing on the UN s continuing financial crisis and the costs of combating global warming It argues that today s burdensharing disparities continue to be shaped by the particular character of the international settlement at the end of the Second World War **Grand Designs and Visions of Unity** Jeffrey Glen Giauque,2003-04-03 In the late 1950s against the unfolding backdrop of the Cold War American and European leaders began working to reshape Western Europe They sought to adapt the region to a changing world in which European empires were rapidly disintegrating Soviet influence was spreading and the United States could no longer shoulder the entire political and economic burden of the West yet hesitated to share it with Europe Focusing on the four largest Atlantic powers Britain France Germany and the United States Jeffrey Giauque explores these early stages of European integration Giauque uses evidence from newly opened international archives to show how a mix of cooperation and collaboration shaped efforts to unify postwar Europe He examines the grand designs each country developed to advance its own interests specific plans for collaboration or accord

and the reactions of the other Atlantic powers to these proposals. Competing national interests not only derailed many otherwise sound plans for European unity, Giauque says, but also influenced such nascent European institutions as the Common Market, the antecedent of today's European Union. Indeed, beyond examining the origins of the European community, this comparative study provides insight into national attitudes and aspirations that continue to shape European and American policies today.

Architects of Delusion Simon Serfaty, 2008. The commencement of war in Iraq in 2003 was met with a variety of reactions around the globe. In *Architects of Delusion*, Simon Serfaty presents a historical analysis of how and why the decision to wage war was endorsed by some of America's main European allies, especially Britain, and opposed by others, especially France and Germany. Tony Blair, George W. Bush, Jacques Chirac, and Gerhard Schroeder were, Serfaty argues, the architects of one of the most serious crises in postwar transatlantic relations. These four heads of state were the victims, not only of their personal delusions but also of those of the nations they led. They all played the hand that their countries had dealt them: the forceful hand of a righteous America, the principled acquiescence of a faithful Britain, the determined intransigence of a quarrelsome France, and the ambiguous new way of a recast Germany. Serfaty's deft interweaving of the political histories and cultures of the four countries and the personalities of their leaders transcends the Europe-bashing debate sparked by the Iraq invasion. He contends that not one of these four leaders was entirely right or entirely wrong in his approach to the others or to the issues before and during the war. For the resulting wounds to heal, though, and for the continuity of transatlantic relations, he reminds us that the United States and France must end their estrangement; France and Britain must resolve their differences; Germany must carry its weight relative to both France and Britain; and the United States must exert the same visionary leadership for the twenty-first century that it showed during its rise to preeminence in the twentieth century.

Special Bibliography Series United States Air Force Academy. Library, 1991. **The New Europe** Frances Scott, 1991. **Special Bibliography Series**, 1957. **Rebuilding Europe** David W. Ellwood, 2014-02-04. With the end of the Cold War and the prospect of a federal Europe ever closer, this book is a timely reassessment of the processes by which western Europe was reborn out of the devastation and despair of 1945. Concentrating on the first postwar decade and making rich use of the latest research findings, David Ellwood gives a detailed account of the practicalities of reconstruction: how it was done, what it cost, who paid for it, and what those involved hoped for, expected, and actually received.
