From School Board to Local Authority Eric Eaglesham, 2025-03-03 First published in 1956 From School Board to Local Authority is a meticulous and exact inquiry into the events which led up to the famous Cockerton v The School Board for London case It suggests that the reorganization of the education system in 1902 was not primarily the result of an unexpected legal decision in Cockerton Judgement rather was the outcome of a deliberate policy evolved by Morant and Gorst aimed at ending the administrative confusion which then existed The book is based mainly on the material found on the files of the Education Department the Science and Art Department and the Local Government Board It further reveals the administrative confusion and jealousies of these Departments shown as conflicts about Higher Grade Schools Secondary Schools Organized Science Schools and Evening Schools

South Africa Pushed to the Limit Hein Marais, 2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people s skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa s vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma s rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country s continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens South Africa Pushed to the Limit presents a riveting benchmark analysis

of the incomplete journey beyond apartheid **Report of the Commissioner of Education Made to the Secretary of
