premium price for a brand Is it better quality the look and feel or is it the brand s social standing Author Nigel Hollis believes
the answer to all those questions is yes Yet the vast majority of brands today trade on past equity and transient buzz And
marketers focus on plan execution rather than creating meaningful differentiation rooted in the brand experience This lack of
meaning is creating a market full of commodities rather than products that instill loyalty But loyalty i e repeat business is the
key to long term success and that requires focusing on meaningful differentiation functional emotional or societal Here brand
expert Nigel Hollis focuses on the four components of a meaningfully different brand purpose delivery resonance and
difference This unique model will be applied to two very different brand models premium priced and value priced The models
will show readers how to amplify what their brand stands for across all the brand touch points including findability
affordability credibility vitality and extendibility The book will include cases of global brands such as Dyson Johnnie Walker
