Divining the Self Velma E. Love,2015-06-29 *Divining the Self* weaves elements of personal narrative myth history and interpretive analysis into a vibrant tapestry that reflects the textured embodied and performative nature of scripture and scripturalizing practices Velma Love examines the Odu the Yoruba sacred scriptures along with the accompanying mythology philosophy and ritual technologies engaged by African Americans Drawing from the personal narratives of African American Ifa practitioners along with additional ethnographic fieldwork conducted in Oyotunji African Village South Carolina and New York City Love s work explores the ways in which an ancient worldview survives in modern times *Divining the Self* also takes up the challenge of determining what it means for the scholar of religion to study scripture as both text and performance This work provides an excellent case study of the sociocultural phenomenon of scripturalizing practices

Yearning bell hooks, 2014-10-10 For bell hooks the best cultural criticism sees no need to separate politics from the pleasure of reading Yearning collects together some of hooks's classic and early pieces of cultural criticism from the 80s Addressing topics like pedagogy postmodernism and politics hooks examines a variety of cultural artifacts from Spike Lee's film *Do the Right Thing* and Wim Wenders's film *Wings of Desire* to the writings of Zora Neale Hurston and Toni Morrison The result is a poignant collection of essays which like all of hooks's work is above all else concerned with transforming oppressive structures of domination

Sister Citizen Melissa V. Harris-Perry, 2011-09-20 From a highly respected thinker on race gender and American politics a new consideration of black women and how distorted stereotypes affect their political beliefs Jezebel's sexual lasciviousness Mammy's devotion and Sapphire's outspoken anger these are among the most persistent stereotypes that black women encounter in contemporary American life Hurtful and dishonest such representations force African American women to navigate a virtual crooked room that shames them and shapes their experiences as citizens Many respond by assuming a mantle of strength that may convince others and even themselves that they do not need help But as a result the unique political issues of black women are often ignored and marginalized In this groundbreaking book Melissa V Harris Perry uses multiple methods of inquiry including literary analysis political theory focus groups surveys and experimental research to understand more deeply black women's political and emotional responses to pervasive negative race and gender images Not a traditional political science work concerned with office seeking voting or ideology *Sister Citizen* instead explores how African American women understand themselves as citizens and what they expect from political organizing Harris Perry shows that the shared struggle to preserve an authentic self and secure recognition as a citizen links together black women in America from the anonymous survivors of Hurricane Katrina to the current First Lady of the United States

Decolonizing Equity Billie Allan, Rhonda Hackett, 2022-05-15T00:00:00Z Institutions everywhere seem to be increasingly aware of their roles in settler colonialism and anti Black racism As such many racialized workers find themselves tasked with developing equity plans for their departments associations or faculties This collection acknowledges this work as both survival and burden for Black Indigenous and racialized peoples It highlights what we already know and are already doing in our respective areas and offers a vision of what equity can look like through a decolonial lens What helps us to make this work possible How do we take care with ourselves and each other in this work What does solidarity collaboration or allyship look like in decolonial

equity work What are the implicit and explicit barriers we face in shifting equity discourse policy and practice and what strategies skills and practices can help us in creating environments and lived realities of decolonial equity This edited collection centres the voices of Indigenous Black and other racialized peoples in articulating a vision for decolonial equity work Specifically the focus on decolonizing equity is an invitation to re articulate what equity work can look like when we refuse to separate ideas of equity from the historical and contemporary realities of colonialism in the settler colonial nation states known as Canada and the United States and when we insist on linking an equity agenda to the work of decolonizing our shared realities
