Situating College English Lessons From An American University:

Situating College English Evan Carton, Alan W. Friedman, 1996-05-28 Drawing on contemporary critical theories learning technologies classroom experience and personal self reflection the contributors examine the issues that proceed from our simultaneous occupation of pedagogical and political spaces institutional and larger sociocultural positions and differently constructed empowered and constrained identities *Situating College English* Evan Carton, Alan W.

Friedman, 1996-05-28 Drawing on contemporary critical theories learning technologies classroom experience and personal self reflection the contributors examine the issues that proceed from our simultaneous occupation of pedagogical and political spaces institutional and larger sociocultural positions and differently constructed empowered and constrained identities **A Guide to Composition Pedagogies** Gary Tate, Amy Rupiper-Taggart, Kurt Schick, Brooke Hessler, 2014-02

This is a bibliographic guide written for newcomers to the field The book familiarizes writing instructors with the current topography of composition studies and directs them to the best books and articles for further exploration **Contrastive**

Rhetoric Revisited and Redefined Clayann Gilliam Panetta, 2000-11-01 The theory of contrastive rhetoric was first put forth by Robert Kaplan in the mid 1960s to explain the differences in writing and discourse between students who were native speakers of English and their international counterparts Over the past three decades contrastive rhetoric theory has been used primarily by linguists in language centers and involved in ESL teaching As the number of international students in American universities has continued to grow contrastive rhetoric has become increasingly relevant to all disciplines and to rhetoric and composition in particular This volume breaks important new ground in its examination of contrastive rhetoric in the exclusive context of composition The editor has assembled contributors with varying areas of specialty to demonstrate how the traditional definition of contrastive rhetoric theory can be applied to composition in new and innovative ways and how it can be redefined through the lens of addressing difference issues in writing Thus the volume as a whole clarifies how the basic principles of contrastive rhetoric theory can help composition instructors to understand writing and rhetorical decisions With the inclusion of current research on multicultural issues this collection is appropriate for all instructors in ESL writing including teachers in rhetoric composition and linguistics It can also be used as an advanced text for students in these areas Wherever it is employed it is certain to offer significant new insights into the application of contrastive rhetoric within the composition discipline **Politics, Language, and Culture** Joseph W. Check, 2002-10-30

Politics language and culture are three of the most powerful forces affecting education today yet they have been little discussed in relation to systemic school reform the new status quo of urban schools This book looks at their effects through the eyes of teachers administrators and insider outsiders who are actually living reform at the school level in four widely different urban school systems Chicago San Francisco and Oakland California and Boston The book also creates a statistical and conceptual picture of urban education and school reform as national phenomena with deep historical roots and offers a composite case study of

an urban elementary school undergoing reform The author argues that urban school reform is failing because its basic strategy is misguided and because reform thinking has consciously ignored three essential sources of knowledge about school change Strategically efforts for reform have relied heavily on the widespread replication of nationally promoted exemplary programs This approach assumes that local schools lack the knowledge and will to solve their own problems and require prescriptive intervention from national models In fact the exemplary programs approach has yielded very limited success What is needed instead is the creation and long term support of unique local exemplary contexts that combine best practice approaches with local knowledge conditions and resources **College English Association Critic** ,1998

Current Contents Institute for Scientific Information (Philadelphia),1997 *Patriotic Treason* Evan Carton,2006-09-15 John Brown is a lightning rod of history Yet he is poorly understood and most commonly described in stereotypes as a madman martyr or enigma Not until *Patriotic Treason* has a biography or history brought him so fully to life in scintillating prose and moving detail making his life and legacy and the staggering sacrifices he made for his ideals fascinatingly relevant to today's issues of social justice and to defining the line between activism and terrorism Vividly re-creating the world in which Brown and his compatriots lived with a combination of scrupulous original research new perspectives and a sensitive historical imagination *Patriotic Treason* narrates the dramatic life of the first U S citizen committed to absolute racial equality Here are his friendships Brown lived worked ate and fought alongside African Americans in defiance of the culture around him his family he turned his twenty children by two wives into a dedicated militia and his ideals inspired by the Declaration of Independence and the Golden Rule he collaborated with black leaders such as Frederick Douglass Martin Delany and Harriet Tubman to overthrow slavery Evan Carton captures the complex tragic and provocative story of Brown the committed abolitionist Brown the tender yet demanding and often absent father and husband and Brown the radical American patriot who attacked the American state in the name of American principles Through new research into archives attention to overlooked family letters and reinterpretation of documents and events Carton essentially reveals a missing link in American history A wrenching family saga *Patriotic Treason* positions John Brown at the heart of our most profound and enduring national debates As definitions of patriotism and treason are fiercely contested as some criticize religious extremism while others mourn religion's decline and as race relations in America remain unresolved John Brown's story speaks to us as never before reminding us that one courageous individual can change the course of history

Nineteenth-century Literature ,1996 Contains articles which focus on a broad spectrum of significant figures in fiction philosophy and criticism such as Austen Carlyle Dickens Thackeray the Brontes Tennyson Browning Arnold Emerson Hawthorne Thoreau Whitman Twain and Henry James *The Writers Directory* ,2013
