Six Centuries Of The Provincial Trade In Britain:

Six Centuries of Provincial Trade in Britain Peter C. G. Isaac,1990 *The Oxford Handbook of the History of the Book in Early Modern England* Adam Smyth,2023-09-05 The Oxford Handbook of the History of the Book in Early Modern England provides a rich imaginative and also accessible guide to the latest research in one of the most exciting areas of early modern studies Written by scholars working at the cutting edge of the subject from the UK and North America the volume considers the production reception circulation consumption destruction loss modification recycling and conservation of books from different disciplinary perspectives Each chapter discusses in a lively manner the nature and role of the book in early modern England as well as offering critical insights on how we talk about the history of the book On finishing the Handbook the reader will not only know much more about the early modern book but will also have a strong sense of how and why the book as an object has been studied and the scope for the development of the field *The Oxford Handbook of Chaucer* Suzanne Conklin Akbari,James Simpson,2020 This Handbook addresses Chaucer s poetry in the context of several disciplines including late medieval philosophy and science Mediterranean culture comparative European literature vernacular theology and popular devotion Government and Community in the English Provinces, 1700-1870 David Eastwood,1997-06-09 In this bold and original study David Eastwood offers a reinterpretation of politics and public life in provincial England He explores the ways in which power was exercised and reconstructs the social and cultural foundations of political authority in provincial England Professor Eastwood demonstrates the crucial role played by local elites in policy making and shows how English public institutions and political culture can only be understood in terms of the long run development of the English state The Business of News in England, 1760-1820 Victoria E. M. Gardner,2016-01-26 The Business of News in England 1760 1820 explores the commerce of the English press during a critical period of press politicization as the nation confronted foreign wars and revolutions that disrupted domestic governance **Observing God** William J. Astore,2017-07-05 Scottish theologian educator astronomer and popularizer of science Thomas Dick 1774 1857 promoted a Christianized form of science to inhibit secularization to win converts to Christianity and to persuade evangelicals that science was sacred His devotional theology of nature made radical claims for cultural authority This book presents the first detailed analysis of his life and works After an extended biographical introduction Dick s theology of nature is examined within the context of natural theology and also his views on the plurality of worlds the nebular hypothesis and geology Other chapters deal with Dick s use of aesthetics to shape social behaviour for millennial purposes and with the publishing history of his works their availability and their reception In the final part the author explores Dick s influence in America His pacifism won him Northern evangelical supporters while his writings dominated the burgeoning field of popular science powerfully shaping science s cultural meaning and its uses **Crime, Broadside and Social Change, 1800-1850** Kate Bates,2020-02-18 This book explores the form function and meaning of crime and execution broadsides printed in nineteenth century Britain By

presenting a detailed discourse analysis of 650 broadsides printed across Britain between the years 1800 1850 this book provides a unique and alternative interpretation as to their narratives of crime This criminological interpretation is based upon the social theories of Emile Durkheim who recognised the higher utility of crime and punishment as being one of social integration and the preservation of moral boundaries The central aim of this book is to show that broadsides relating to crime and punishment served as a form of moral communication for the masses and that they are examples of how the working class once attempted to bolster a sense of stability and community during the transitional years of the early nineteenth century by effectively representing both a consolidation and celebration of their core values and beliefs *Lost Books and Printing in London, 1557-1640* Alexandra Hill, 2018-04-17 *Lost Books and Printing in London 1557 1640* is the first attempt to analyse systematically the entries relating to lost books in the Stationers Company Register Books played a fundamental role in early modern society and are key sources for our comprehension of the political religious economic and cultural aspects of the age Over time the loss of these books has presented a significant barrier to our understanding of the past The monopoly of the Stationers Company centralised book production in England to London with printing jobs carried out by members documented in a Register Using modern digital approaches to bibliography Alexandra Hill uses the Register to reclaim knowledge of the English book trade and print culture that would otherwise be lost **English Manuscript Studies, 1100-1700** Peter Beal, Jeremy Griffiths, 1993-01-01 Encompassing the study of manuscripts produced in the British Isles between the Conquest and the end of the seventeenth century this series provides a forum for the interdisciplinary investigation of both medieval and Renaissance manuscripts **Print Culture, Agency, and Regionality in the Hand Press Period** Rachel Stenner, Kaley Kramer, Adam James Smith, 2022-04-06 *Print Culture Agency and Regionality in the Hand Press Period* illuminates the diverse ways that people in the British regional print trades exerted their agency through interventions in regional and national politics as well as their civic commercial and cultural contributions Works printed in regional communities were a crucial part of developing narratives of local industrial technological and ideological progression By moving away from understanding of print cultures outside of London as provincial however this book argues for a new understanding of region as part of a network of places emphasising opportunities for collaboration and creation that demonstrate the key role of regions within larger communities extending from the nation to the emerging sense of globality in this period Through investigations of the men and women of the print trades outside of London this collection casts new light on the strategies of self representation evident in the work of regional print cultures as well as their contributions to individual regional identities and national narratives
