Sixteenth Century French Religious:

The Sixteenth-Century French Religious Book Andrew Pettegree, Paul Nelles, 2017-03-02 This study comprises the proceedings of a conference held in St Andrews in 1999 which gathered some of the most distinguished historians of the French book. It presents the 16th century book in a new context and provides the first comprehensive view of this absorbing field. Four major themes are reflected here: the relationship between the manuscript tradition and the printed book; an exploration of the variety of genres that emerged in the 16th century and how they were used; a look at publishing and book selling strategies and networks; and the ways in which the authorities tried to control these and a discussion of the way in which confessional literature diverged and converged. The range of specialist knowledge embedded in this study will ensure its appeal to specialists in French history, scholars of the book and of 16th century French literature and historians of religion.

Women and Religion in Sixteenth-Century France S. Broomhall, 2005-12-15 This work considers how Frenchwomen participated in Christian religious practice during the sixteenth century with their words and their actions. Using extensive original and archival sources, it provides a comprehensive study of how women contributed to institutional, theological, devotional and political religious matters. Challenging the view of religious reforms and ideas imposed by male authorities upon women, this study argues instead that women Catholic and Calvinist lay and monastic were deeply involved in the culture, meanings and development of contemporary religious practices.

Anti-Italianism in Sixteenth-century France Henry Heller, 2003-01-01 He also discusses the important role of anti-Italian xenophobia in the events surrounding the Saint Bartholomew's Day Massacre, the Estates General of Blois in 1576, the Catholic League revolt and the triumph of Henri IV.

French Calvinism in the Sixteenth Century Stephen M. Davis, Martin Klauber, 2025-09-11 This book introduces readers to well-known and lesser-known individuals of the French Reformation and shows how God used kings, queens, statesmen and theologians in the sixteenth century to call France back to the apostolic tradition. These fifteen biographies are selective and seek to cover the period from the beginning of the Reformation in early sixteenth-century France to the Edict of Nantes in 1598 under Henri IV. Many of these individuals were contemporaries whose lives were intertwined in the same events. Most of them were Reformed Protestants who identified with the teachings of Calvin. Others such as Marguerite de Navarre, Jacques Lefèvre d'Étaples, Louis de Berquin and Michel de L'Hospital embraced evangelical teaching, desired reform and repudiated aspects of Roman Catholic doctrine and practice but sought the reformation of the Catholic Church from within. These people were saints in the biblical sense that God set them apart for salvation. They were not always saintly in their decisions and actions. These biographies provide not only information but also stimulate reflection on their lives with their faith and failures.

Onstage Violence in Sixteenth-Century French Tragedy Michael Meere, 2021-10-21 The performance of violence on the stage has played an integral role in French tragedy since its inception. *Onstage Violence in Sixteenth-Century French Tragedy* is the first book to tell this story. It traces and examines the ethical and poetic stakes of

violence as playwrights were experimenting with the newly discovered genre during decades of religious and civil war c 1550-1598 The study begins with an overview of the origins of French vernacular tragedy and the complex relationships between violence performance ethics and poetics The volume focuses on specific plays and analyzes biblical mythological historical and politically topical tragedies including the stories of Cain and Abel David and Goliath Medea the Sultan Sleyman the Magnificent the Roman general Regulus and the assassination of the Duke of Guise in 1588 to show how the multifarious uses of violence on stage shed light on a range of pressing issues during that turbulent time such as religion gender politics and militantism

Politics and Religion in Sixteenth-century France Franklin Charles Palm, 1927 *The Seventeenth-century French Emblem* Alison Saunders, 2000 [History of the Reformation in the sixteenth century; ... translated from the French by W. K. Kelly](#) Jean Henri MERLE D'AUBIGNÉ, 1842 *The World Upside Down in 16th-Century French Literature and Visual Culture* Vincent Robert-Nicoud, 2018-09-11 In *The World Upside Down in 16th Century French Literature and Visual Culture* Vincent Robert Nicoud offers an interdisciplinary account of the topos of the world upside down in early modern France To call something topsy turvy in the sixteenth century is to label it as abnormal The topos of the world upside down evokes a world in which everything is inside out and out of bounds fish live in trees children rule over their parents and rivers flow back to their source The world upside down proves to be key in understanding how the social political and religious turmoil of sixteenth century France was represented and conceptualised and allows us to explore the dark side of the Renaissance by unpacking one of its most prevalent metaphors

Local Politics in the French Wars of Religion Mark W. Konnert, 2017-05-15 Drawing on the municipal archives of eleven French provincial towns as well as other related sources this book explores the links between local and national politics during the Wars of Religion of the later sixteenth century It argues that the response of the French towns to the challenge of heresy and later the Catholic League was conditioned by local circumstances Whilst previous work has been published on the urban dimensions to the Wars of Religion few studies provide a study of an entire province allowing as this book does the opportunity to explicitly compare several towns After a detailed topographical introduction placing in context the towns of the region and describing their differing urban constitutions the following chapters deal with the crisis points of the Wars of Religion This book sits squarely in the forefront of one of the dominant themes in the historiography of early modern France the importance of the local community and local elites in political structures and political life As such it will prove fruitful reading for all scholars with an interest in early modern French urban and political culture
