Skateboarding Space And The City Architecture And The Body:

Skateboarding, Space and the City Iain Borden, 2001 Skateboarders are an increasingly common feature of the urban environment with an estimated 40 million worldwide Iain Borden demonstrates that street style skateboarding offers a critique of architecture the city and capitalism *Skateboarding and the City* Iain Borden, 2019-02-21 Skateboarding is both a sport and a way of life Creative physical graphic urban and controversial it is full of contradictions a billion dollar global industry which still retains its vibrant counter cultural heart Skateboarding and the City presents the only complete history of the sport exploring the story of skate culture from the surf beaches of 60s California to the latest developments in street skating today Written by a life long skater who also happens to be an architectural historian and packed through with full colour images of skaters boards moves graphics and film stills this passionate readable and rigorously researched book explores the history of skateboarding and reveals a vivid understanding of how skateboarders through their actions experience the city and its architecture in a unique way **The Global Politics of Sport** Lincoln Allison, 2005 Sport presents one of the most advanced cases of globalisation arguably because there are fewer cultural and political obstacles to the development of trade and international power in sport than there are in other fields Thus there has been a change in the nature of the politics of sport since the end of the Cold War the subject must be rewritten to acknowledge a twenty first century world in which international sporting organisations and transnational corporations have become far more important than states The Global Politics of Sport presents a range of essays examining the emerging global political issues in twenty first century sport including The role and power of organisations such as FIFA and the IOC The influence of US exceptionalism The construction of global sports heroes Tensions developing within traditionally alternative sports in a global commercial culture The Global Politics of Sport presents new and fresh exploration of different conceptions of sport as a purely commercial activity and as an activity as embodying higher social and ethical values **Space, the City and Social Theory** Fran Tonkiss, 2005 Taking a thematic approach this book covers the main aspects of modern urban life taught on undergraduate courses The key approaches to the city within contemporary social theory are assessed Tonkiss adopts an international perspective with examples drawn from places such as New York Paris and Sydney *Skateboarding and the Senses* Sander Hölsgens, Brian Glenney, 2024-09-20 This book presents a new perspective on skateboarding centred on the senses skill acquisition embodiment and the concept of city craft Skateboarding and the Senses traces how skaters use their skilled bodies to bring vitality to contested spaces Building on sensory anthropology the book draws connections between the diverse ways skaters move and their boundless drive for social action from rebellious interventionism to a critical engagement with sportification and the Olympics Coalescing around skateboarding s pedagogy of enskilment the book examines what to make of the skater s way of sensing the city of their bruised heels and scabbed elbows and of their sensory attunement to their friends and foes Grounded in historical anthropological and phenomenological theories of body and space

it examines how skaters acquire somatic knowledge and socio emotional resilience through their sonic and vibratory experience of the city streets This sensory anthropology of skateboarding reveals new insights into its long arc of subculture lifestyle and sport This is essential reading for anybody with an interest in the sociology culture or history of sport urban geographies sensory studies or social and cultural anthropology The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Routledge Handbook of Henri Lefebvre, The City and Urban Society Michael E.

Leary-Owhin, John P. McCarthy, 2019-11-21 The Routledge Handbook of Henri Lefebvre The City and Urban Society is the first edited book to focus on Lefebvre's urban theories and ideas from a global perspective making use of recent theoretical and empirical developments with contributions from eminent as well as emergent global scholars The book provides international comparison of Lefebvrian research and theoretical conjecture and aims to engage with and critique Lefebvre's ideas in the context of contemporary urban social and environmental upheavals to use Lefebvre's spatial triad as a research tool as well as a point of departure for the adoption of ideas such as differential space to reassess Lefebvre's ideas in relation to nature and global environmental sustainability and to highlight how a Lefebvrian approach might assist in mobilising resistance to the excesses of globalised neoliberal urbanism The volume draws inspiration from Lefebvre's key texts The Production of Space Critique of Everyday Life and The Urban Revolution and includes a comprehensive introduction and concluding chapter by the editors The conclusions highlight implications in relation to increasing spatial inequalities increasing diversity of needs including those of migrants more authoritarian approaches and asymmetries of access to urban space Above all the book illustrates the continuing relevance of Lefebvre's ideas for contemporary urban issues and shows via global case studies how resistance to spatial domination by powerful interests might be achieved The Handbook helps the reader navigate the complex terrain of spatial research inspired by Lefebvre In particular the Handbook focuses on the series of struggles globally for the right to the city and the collision of debates around the urban age cityism and planetary urbanisation It will be a guide for graduate and advanced undergraduate teaching and a key reference for academics in the fields of Human Geography Sociology Political Science Applied Philosophy Planning Urban Theory and Urban Studies Practitioners and activists in the field will also find the book of relevance

The Politics of Leisure Rudy Dunlap, Justin Harmon, Jeff N. Rose, 2021-11-24 This book explores entanglements between politics and leisure ranging from the electorate's concerns with public recreation resources to the presence of politics in casual conversation and to the use of leisure as a means of preserving racial hierarchies in society In noting the contributions of past scholarship it also points toward a trend of increasingly political leisure research where research helps to unpack the multiple ways in which power suffuses the experience of leisure A contrast between being political on one hand and the tribal politicization that characterizes much of contemporary social life on the other hand demonstrates that scholars and educators can and should be engaged in politically

oriented scholarship while also building a more diverse and intellectually productive academy This edited volume will be of great interest to researchers and scholars interested in race power polarization and the interrelationship between politics and leisure The chapters in this book were originally published as a special issue of the journal Leisure Sciences

Sustainable London? Imrie, Rob, Lees, Loretta, 2014-09-24 How is London responding to social and economic crises and to the challenges of sustaining its population economy and global status Sustainable development discourse has come to permeate different policy fields including transport housing property development and education In this exciting book authors highlight the uneven impacts and effects of these policies in London including the creation of new social and economic inequalities The contributors seek to move sustainable city debates and policies in London towards a progressive socially just future that advances the public good The book is essential reading for urban practitioners and policy makers and students in social urban and environmental geography sociology and urban studies **Havana** Susan Fitzgerald, 2022-05-01 Following the crisis of the Special Period Cuba promoted urban agriculture throughout its towns and cities to address food sovereignty and security Through the adoption of state recommended design strategies these gardens have become places of social and economic exchange throughout Cuba This book maps the lived experiences surrounding three urban farms in Havana to construct a deeper understanding about the everyday life of this city Using narratives and drawings this research uncovers these sites as places where education intimacy entrepreneurship wellbeing and culture are interwoven alongside food production Henri Lefebvre's latent work on rhythm analysis is used as a research method to capture the everyday beats particular to Havana surrounding these sites This book maps the many ways in which these spaces shift power away from the state to become places that are co created by the community to serve as a crucial hinge point between the ongoing collapse of the city and its future wellbeing **Parkour and the City** Jeffrey L. Kidder, 2017-04-20 In the increasingly popular sport of parkour athletes run jump climb flip and vault through city streetscapes resembling urban gymnasts to passersby and awestruck spectators In *Parkour and the City* cultural sociologist Jeffrey L Kidder examines the ways in which this sport involves a creative appropriation of urban spaces as well as a method of everyday risk taking by a youth culture that valorizes individuals who successfully manage danger Parkour's modern development has been tied closely to the growth of the internet The sport is inevitably a YouTube phenomenon making it exemplary of new forms of globalized communication Parkour's dangerous stunts resonate too Kidder contends with a neoliberal ideology that is ambivalent about risk Moreover as a male dominated sport parkour with its glorification of strength and daring reflects contemporary Western notions of masculinity At the same time Kidder writes most athletes known as traceurs or freerunners reject a daredevil label preferring a deliberate reasoned hedging of bets with their own safety rather than a pushing the edge ethos normally associated with extreme sports
