

Bee-eaters (bird study)

- love the vibrancy of the colors really like the colors
- did the painting look too good if that ever makes sense
- love the way the wings look different
- maybe a little more detailed around the head which could have made it better

the only reason for the black back was

- maybe should have used black for the underwing coverts instead of the tan but after that and very the chested over the chested rest

- loves the colors of the first the second one and every the third one also very like the master but want to keep on with to see how the one over the one
- 12 year old you can give it...

- more but the last one so this one is better but that's the favorite of the master but not the

kindly a favorite of study
