Smart!, 2011-09-01 Slovenia seems closer to Austria or Italy than to its Balkan neighbors The richest of the Slavic nation states it has an entirely Western tradition having belonged in the past to the Roman Empire the Frankish kingdom the Holy Roman Empire the Republic of Venice the Habsburg monarchy and the First French Empire After the Second World War it became part of the Republic of Yugoslavia before declaring independence in 1991 This extraordinary cultural legacy is what sets Slovenia apart matched by an amazingly varied topography packed into a small area Traveling toward the coast you see changes in the landscape and in the architecture This reflects both the natural and the historical variety the Venetians built their buildings one way the Austrians another Slovenia's natural beauty is astonishing Legend relates that when God was allotting nature's bounty he forgot Slovenia His last minute solution was to take bits of the best from other places gorgeous Alpine ranges the less craggy Pohorje mountains the Pannonian plain stretching toward Hungary hill after hill rolling southward into the horizon the unique karst landscape rivers aplenty and a few miles of Adriatic coastline Never having had a glorious unified kingdom in the past Slovenians identify themselves not by blood or history but by their language which differs from the other languages of the ex Yugoslavia The older generation is fluent in Serbo Croatian which helps for politics and trade but has little of its historical baggage and the country has geo political importance as a politically stable stepping stone to the Balkans As far as nationhood goes Slovenia's golden age is now There is a sense of change in the country mostly for the better and not the dull stampede toward materialism that one sees in some other former Eastern bloc countries As a tourist destination Slovenia has it all from medieval ruined monasteries to whitewater rafting The people of this lovely land are genuinely glad that others are discovering their country There are no real language problems the younger people all

speaking English Moreover membership of the EU means that this is a country in transition Culture Smart Slovenia will introduce you to the inner world of this moderate orderly and conservative people who have emerged into the post Communist world hungry for change Country Reports on Economic Policy and Trade Practices ,1995 Country Reports on Economic Policy and Trade Practices United States. Marketing and Globalization

Aurélia Durand, 2018-07-17. This concise text focuses squarely on the issues facing marketers in an increasingly global world. It identifies several trends, linking them together and positioning them as marketing practices that companies implement as a way of responding to the major consequences of globalization. The book also includes case studies to illustrate new practices and allow students to discuss issues of market selection, entry modes, segmentation, targeting, and positioning, as well as product, price, distribution, promotion, and corporate communication policies in a globalized world. Durand's unique approach moves beyond marketing management and strategy issues and provides students with the broader context to understand the marketing practices they'll use in the real world. This book will prove to be an essential resource for any student of marketing and international business working to stay ahead in an increasingly competitive and global industry.
