Small Powers In Alignment:

Small Powers in Alignment Omer de Raeymaeker, 1974 **Asia-Pacific Secondary States as Kingmakers** Richard J. Cook, Maximilian Ohle, Zhaoying Han, 2025-05-30 Focusing on the Asia Pacific region Cook Ohle and Han investigate the escalating strategic competition between China and the US They explore the dynamics of key regional secondary states caught in the middle namely Japan South Korea the Philippines and Vietnam emphasising their crucial role as potential kingmakers in the shifting balance of power China and the US are competing to win influence over these regional linchpins to advance their geopolitical ambitions and ultimately win the strategic competition Elucidating a power of the weak paradox this contribution examines the challenging choices faced by these secondary states as they navigate alignment pressures which influence the trajectory of the great power strategic competition Drawing upon a range of first hand government sources and regional perspectives the authors take the temperature of the China US strategic competition revealing the intricate influencing dynamics and perilous choices linchpins are being pushed to make that will determine the fate of the Asia Pacific This is a timely resource for researchers students scholars and politicians navigating the complex realm of international relations by providing a profound exploration of power struggles strategic choices and the often overlooked role of secondary states **Chinese Security Policy** Robert Ross, 2009-05-20 This volume provides a coherent and comprehensive understanding of Chinese security policy comprising essays written by one of America's leading scholars Chinese Security Policy covers such fundamental areas as the role of international structure in state behavior the use of force in international politics including deterrence coercive diplomacy and war and the sources of great power conflict and cooperation and balance of power politics with a recent focus on international power transitions The research integrates the realist literature with key issues in Chinese foreign policy thereby placing China's behaviour in the larger context of the international political system Within this framework Chinese Security Policy considers the importance of domestic politics and leadership in Chinese policy making This book examines how Chinese strategic vulnerability since U S China rapprochement in the early 1970s has compelled Beijing to seek cooperation with the United States and to avoid U S China conflict over Taiwan It also addresses the implications of the rise of China for the security of both United States and of Chinese neighbors in East Asia and considers the implications of China's rise for the regional balance of power and the emerging twenty first century East Asian security order This book will be of great interest to all students of Chinese Security and Foreign Policy Chinese and Asian Politics US foreign policy and International Security in general *The Functions of Small States in the Strategies of the Great Powers* Trygve Mathisen, 1971 **Write Great Code, Vol. 2** Randall Hyde, 2004 Provides information on how computer systems operate how compilers work and writing source code **China's Rise and the Balance of Influence in Asia** William W. Keller, Thomas G. Rawski, 2007-05-31 China's protracted boom and political transformation is a major episode in the history of global political economy Beginning in the late 1970s China experienced a

quarter century of extraordinary growth that raised every indicator of material welfare lifted several hundred million out of poverty and rocketed China from near autarky to regional and even global prominence These striking developments transformed China into a major U S trade and investment partner a regional military power and a major influence on national economies and cross national interchange throughout the Pacific region Beijing has emerged as a voice for East Asian economic interests and an arbiter in regional and even global diplomacy from the Asian financial crisis to the North Korean nuclear talks China s accession to the World Trade Organization promises to accentuate these trends The contributors to this volume provide a multifaceted examination of China in the areas of economics trade investment politics diplomacy technology and security affording a greater understanding of what relevant policies the United States must develop This book offers a counterweight to overwrought concerns about the emerging Chinese threat and makes the case for viewing China as a force for stability in the twenty first century *Write Great Code, Volume 2, 2nd Edition* Randall

Hyde,2020-08-11 Thinking Low Level Writing High Level the second volume in the landmark Write Great Code series by Randall Hyde covers high level programming languages such as Swift and Java as well as code generation on 64 bit CPUsARM the Java Virtual Machine and the Microsoft Common Runtime Today s programming languages offer productivity and portability but also make it easy to write sloppy code that isn t optimized for a compiler Thinking Low Level Writing High Level will teach you to craft source code that results in good machine code once it s run through a compiler You ll learn How to analyze the output of a compiler to verify that your code generates good machine code The types of machine code statements that compilers generate for common control structures so you can choose the best statements when writing HLL code Enough assembly language to read compiler output How compilers convert various constant and variable objects into machine data With an understanding of how compilers work you ll be able to write source code that they can translate into elegant machine code NEW TO THIS EDITION COVERAGE OF Programming languages like Swift and Java Code generation on modern 64 bit CPUs ARM processors on mobile phones and tablets Stack based architectures like the Java Virtual Machine Modern language systems like the Microsoft Common Language Runtime **Strategic Adjustment and the Rise of China** Robert S. Ross,Øystein Tunsjø,2017-06-20 Strategic Adjustment and the Rise of China demonstrates how structural and domestic variables influence how East Asian states adjust their strategy in light of the rise of China including how China manages its own emerging role as a regional great power The contributors note that the shifting regional balance of power has fueled escalating tensions in East Asia and suggest that adjustment challenges are exacerbated by the politics of policymaking International and domestic pressures on policymaking are reflected in maritime territorial disputes and in the broader range of regional security issues created by the rise of China Adjusting to power shifts and managing a new regional order in the face of inevitable domestic pressure including nationalism is a challenging process Both the United States and China have had to adjust to China s expanded capabilities China has sought an expanded influence in maritime East Asia the

United States has responded by consolidating its alliances and expanding its naval presence in East Asia. The region's smaller countries have also adjusted to the rise of China. They have sought greater cooperation with China even as they try to sustain cooperation with the United States. As China continues to rise and challenge the regional security order, the contributors consider whether the region is destined to experience increased conflict and confrontation.

Handbook of Indo-Pacific Studies Barbara Kratiuk, Jeroen Van den Bosch, Aleksandra Jaskólska, Yoichiro Sato, 2023-03-08

This handbook explores the significance of the Indo-Pacific in world politics. It shows how the re-emergence of the Indo-Pacific in international relations has fundamentally changed the approach to politics, economics and security. The volume explores the themes related to trade, politics and security for better understanding of the Indo-Pacific and the repercussions of the region's emergence. It studies different security and political issues in the region: military competition, maritime governance, strategic alliances and rivalries, and international conflicts. It analyses various socio-economic dimensions of the Indo-Pacific, such as political systems, cultural and religious contexts, and trade and financial systems. It examines the strategies of various states, such as the United States, Japan, India and China, and their approaches towards the Indo-Pacific. It covers the role of middle powers and small states in detail. Interdisciplinary in approach and with essays from authors from around the world, this volume will be indispensable to scholars, researchers and students in the fields of international relations, politics and Asian studies.

Military Strategy of Middle Powers Håkan Edström, Jacob Westberg, 2020-10-15

Military Strategy of Middle Powers explores to what degree twenty-first century middle powers adjust their military strategies due to changes in the international order, such as the decline in US power. The overarching objective of the book is to explain continuity and change in the strategies of a group of middle powers during the twenty-first century. These strategies are described, compared and explained through the lens of Realism. In order to find potential explanations for change or continuity within the cases, as well as for similarities and differences between the cases, the strategies of 11 middle powers are analysed: Canada, Germany, Italy, Spain, Australia, Brazil, Indonesia, South Africa, India, Japan and South Korea. This group of countries are considered similar in several important aspects, primarily regarding relative power capacity. When searching for potential explanations for different strategic behaviours among the middle powers, their unique regional characteristics are a key focus, and consequently the impact of the structure and polarity, as well as the patterns of amity and enmity of the regional context.

are analysed The empirical investigation is focused on security strategies used since the terrorist attacks 9 11 2001 which was one of the first major challenges to US hegemony This book will be of much interest to students of military and strategic studies foreign policy and International Relations in general **Great Powers, Weak States, and Insurgency** Patrick W. Quirk, 2017-01-25 This book offers an original and theoretically rich examination into the dynamics of alliances that great powers and weak states form to defeat threats such as rebellion or insurgency within the smaller state s borders The author examines contemporary examples of such internal threat alliances including Russia s collaboration with Syria s Assad regime to defeat anti government rebels and U S cooperation with Afghanistan s ruling political elite to combat the Taliban In each case the weaker state s leadership wanted to remain in power while the great power sought to safeguard its interests linked to the regime s stability The book adds to International Relations IR theory by presenting a distinct conceptual framework that explains why internal threat alliances form why some are more cohesive than others and why some are effective while others are not It thus promises to be of interest to IR scholars and students working in the areas of security studies alliance dynamics political violence and civil war but also to policy makers grappling with how to salvage interests such as access to natural resources or regional stability imperiled by violence in weak states **Cambodia's China Strategy** Chanborey Cheunboran, 2021-06-21 This book explores the tensions within Cambodia s foreign policy between a tight alignment with China on the one hand and Cambodia s commitment to the Association of the Southeast Asian Nations ASEAN as well as its delicate foreign policy diversification towards other major powers on the other hand It traces the long history of Cambodia s quest for survival from its bigger and historically antagonistic neighbours the Thai and the Vietnamese and its struggle for security and independence from the two neighbours and external major powers particularly the United States and China It discusses Cambodia s geopolitical predicaments deriving from its location of being sandwiched between powerful neighbours and limited strategic options available for the Kingdom The book also assesses recent developments in Cambodia s relations with its neighbours and their implications for Cambodia s increasingly tight alignment with China in recent years It considers the extent to which the ruling regime in Cambodia depends on strong relations with China for its legitimacy and survival and argues that there are risks and danger for Cambodia in moving towards an increasingly tight alignment with China *Asian Geopolitics and the US-China Rivalry* Felix Heiduk, 2021-07-22 This book analyses the ways in which foreign policy actors in Asia have responded to the emerging great power conflict between the US and the People s Republic of China focusing on medium and small states across the Indo Pacific The book offers a much needed counterpoint to existing analyses on the Indo Pacific and China s BRI and presents a new perspective by examining how great power politics are locally reinterpreted conditioned or at times even contested It illustrates the policy level challenges which the US China rivalry poses for established political and economic practices and outlines how these challenges can be best addressed by smaller states and their societies A timely assessment of the power play in the Indo Pacific with the angle of Sino American rivalry this book

makes an important contribution to the study of Political Science International Relations Asian Studies and Security Studies Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license [Documents on Disarmament](#) United States. Arms Control and Disarmament Agency, 1968 **The Limits of Alignment** John D. Ciorciari, 2010-08-16 The Limits of Alignment is an engaging and accessible study that explores how small states and middle powers of Southeast Asia ensure their security in a world where they are overshadowed by greater powers John D Ciorciari challenges a central concept in international relations theory that states respond to insecurity by either balancing against their principal foes bandwagoning with them or declaring themselves neutral Instead he shows that developing countries prefer limited alignments that steer between strict neutrality and formal alliances to obtain the fruits of security cooperation without the perils of undue dependency Ciorciari also shows how structural and normative shifts following the end of the Cold War and the advent of U S primacy have increased the prevalence of limited alignments in the developing world and that these can often place constraints on U S foreign policy Finally he discusses how limited alignments in the developing world may affect the future course of international security as China and other rising powers gather influence on the world stage

Euro-Atlantic Discourse in Georgia Frederik Coene, 2016-04-14 How have discourses of Euro Atlanticism been used in domestic and international affairs by the political elite in Georgia After the 2003 Rose Revolution as relations with Russia soured a Euro Atlantic orientation portrayed as a single and coherent strategy became the cornerstone of Georgian foreign policy as well as a model for domestic reforms This promise of a prosperous future offered new hope to the Georgian population Scepticism or critical thinking towards President Saakashvili and his government were equated to pro Russian treason and pro western orientation and impressive reforms promoted as being modelled along European standards emerged simultaneously with an outspoken rhetoric and active symbolism References to Europe and the Euro Atlantic structures became ubiquitous as European flags were brandished throughout the country Addressing a gap in the existing literature the author examines a large volume of data extracted from news items from 20 different Georgian and International media channels over a ten year period Through this he identifies patterns in the discourse to explain the intentions of the Georgian elite and examines the effectiveness of the rhetoric *Sustaining America's Strategic Advantage* Joel R. Hillison, Jerad I. Harper, Christopher J. Bolan, 2023-02-14 Written for foreign policy practitioners scholars and students this book offers critical insights into the modern landscape of international politics and warfare and explains how the United States can sustain its strategic advantages in the 21st century and beyond From the level of grand strategy to more intricate security issues this book explores how the United States can sustain its strategic military and political advantages around the world Developing and implementing effective national policies fostering strong diplomatic and geopolitical ties with allies in Europe the Indo Pacific and the Middle East and managing an effective defense enterprise are key according to the authors to competing on a

shifting international security landscape Advancing the literature on grand strategy and outlining emerging critical issues in security this book offers an overarching framework for strategy an analysis of crucial security related topics such as cyber warfare and informed opinions on components of competitive success such as irregular warfare and partner building Written by well respected scholars security professionals and foreign policy practitioners this book goes beyond focusing on hard power to consider how the U S can leverage its education institutions and a worldwide network of allies and partners to sustain its strategic advantage now and in the future

How Realist Is India's National Security Policy? Kanti Bajpai, 2023-03-30 In managing national security how Realist is India in terms of cultivating and using power and especially military power A conventional view of India is that it has been uncomfortable with realism or power politics as a guide to policy This volume shows that it has been more realist than is generally recognized and that it has increasingly become comfortable with power in the service of its interests The essays in this volume Examine the different aspects and types of realism in India s national security policy Include a range of perspectives from academics as well as former military officers and diplomats Focus on India s military and foreign policy in dealing with China Pakistan the United States Southeast Asia and West Asia This key volume will be indispensable to scholars and researchers of politics and international relations defence and strategic studies and South Asian studies and to government officials journalists and general readers interested in the external dimensions of India s national security

Images and Strategies for Autonomy Ole Elgström, 2013-11-11 How do small states approach their security problems What types of strategic instruments exist for small states and when and why are certain strategies chosen rather than others The security of weak states is problematic demanding trade offs in the decisions made Using 19th century Swedish security policy as an example it is argued here that small states in their pursuit of security and autonomy face a dilemma between abandonment and entrapment leading to a choice between balancing between great powers or making an approach to one of them This hard choice confronts both non aligned and allied states It is also argued that a focus on the images of decision makers is required as a complement to traditional realist theory in order to gain an in depth understanding of small state security decisions This book is special in its focus on small non aligned states Most studies on balance of power behaviour limit their analysis to alignment decisions The study also expands the domain of image constructs by introducing perceived regime characteristics into the analysis besides images of power and intentions Audience Scholars and students interested in foreign policy analysis particularly small state behaviour The book points to the importance of beliefs and ideas in security policy

China-Russia Strategic Alignment in International Politics Alexander Korolev, 2025-10-01 Post Cold War China Russia strategic cooperation has displayed significant development and become an increasingly important factor in contemporary international politics However there has been no theory grounded framework and corresponding measurements that would allow an accurate and systematic assessment of the level of China Russia alignment and its progress over time How closely aligned are China and Russia How to define and measure strategic

alignments between states This book bridges area studies and International Relations literature to develop a set of objective criteria to measure and explain the development of strategic alignment in post Cold War China Russia relations China Russia Strategic Alignment in International Politics establishes that on a range of criteria China Russia alignment has been moving towards a full fledged alliance showing a consistent incremental upward trend There are strong structural incentives for furthering the China Russia alignment The alignment framework developed in the book is applicable to other cases of interstate strategic cooperation and enables systematic comparisons of different strategic alignments
