Faceless Gods Sandeep Dahiya, 2014-02-22 It is a long story slowly moving like a broad river in its journey through the plains It is just an effort to highlight some sober facts like the true meaning of nationalism religion politics and humanism The work has very sharp political connotations But I would like to clarify that while espousing the cause of clean politics I have taken very dagger sharp cuts at certain political forces whose brand of politics results in reversing the basic meanings of religion and nationalism But it is for sure that all such literary efforts from my side are just a battle cry against bad politics rather than going against any particular political force By having creative cuts at the razor sharp edges of most of the political blocks in India I have tried to carve out a straight faced deity whom people have in mind when they envision their interests in the safe hands of the state *Dragon of Heaven* Du Cheng, 2020-04-18 A vampire ancestor a five clawed golden dragon a Flaming Mirror of Emperor a Sorrowful God Sword and a young man in white clothes floating over from Hua Xia stepping into the underworld with a sword In this great dark yellow world laughing at the buddhas of the world wanting to break the will of heaven to die to live to the end of time until the mountains and rivers are reborn until the universe is cleared the gods are silent the sky is clear the end of cultivation we cultivators will bear the burden of our hearts The Writing Experiment Hazel Smith, 2020-07-16 A systematic and engaging approach to creative writing Carla Harryman Wayne State University By suggesting that students who are not born poets can yet learn to become good ones Smith performs a very important service Professor Susan M Schultz University of Hawaii This is an impressive book because it covers areas of creative writing practice and theory that have not been covered in published form It links radical practice with radical but better known theory and will appeal to anyone looking for a different approach Robert Sheppard Edge Hill College of Higher Education UK The Writing Experiment demystifies the process of creative writing showing that successful work does not arise from talent or inspiration alone Hazel Smith breaks down writing into incremental stages revealing processes that are often unconscious or unacknowledged and shows how they can become part of a systematic writing strategy The book encourages writers to take an explorative and experimental approach to their work It relates practical strategies for writing to major twentieth century literary and cultural movements including postmodernism Suitable for both beginners and experienced writers The Writing Experiment covers many genres including fiction poetry writing for performance and new media Each chapter is illustrated with extensive examples of both student work and published writing and challenging
