Governor's Advisory Committee on Cigarette Smoking and Health,1964 *Smoking, Health and Personality* Hans Jurgen
Eysenck,2000-11-01 The Report on Smoking and Health published by the Royal College of Physicians in England in 1965
warned of a connection between lung cancer and smoking The findings were widely publicized and were accepted by
practically every one indeed they persist today As Hans J Eysenck shows in his classic study *Smoking Health and Personality*
the results were by no means immune to challenge Not only were the experimental and statistical methods employed
vulnerable to criticism but the results were open to more than one interpretation In this new edition Stuart Brody reviews
Eysenck s achievement Eysenck critically reviewed the literature presented longitudinal studies showing that psychological
characteristics are far more potent predictors of heart disease and cancer than smoking behavior and demonstrated that
psychological treatment can halve death rates Eysenck also spoke the unspeakable iconoclastically attacking the cherished
attribution of millions of deaths to smoking He examined the interaction of smoking with personality and constitutional

factors and the connection between these factors and the development of cancer Eysenck saw the cause and effect relation between cancer and smoking as oversimplification He also makes a number of practical suggestions for the kind of social action that could be taken to decrease the incidence of lung cancer For his part Brody notes that massive campaigns which exhort people to eschew tobacco or cholesterol have had little or no demonstrable health benefits This original and stimulating volume is written with great clarity and is easily understood by the layman It is an incisive account of one of the most important social problems in this country today and a challenge to orthodoxy in the medical world As such this volume offers much for both sides of the anti smoking lobby as well as those in the fields of psychology political science and sociology Hans J Eysenck 1916 1997 wrote many books including the internationally acclaimed Know Your Own IQ and The Uses and Abuses of Psychology His works available from Transaction include Intelligence and new editions of Rebel with a Cause The Psychology of Politics and Dimensions of Personality Stuart Brody worked as a clinical psychologist in Germany as well as the United State He has been published in major U S and British medical journals and is author of Sex at Risk published by Transaction Cigarette Smoking ,2016-12-01 **Tobacco & Your Health: the Smoking Controversy** Harold Sheely Diehl,1969 Facts National Clearinghouse for Smoking and Health,1977
