Social Origins of Religion Roger Bastide, 2003 This wide ranging study takes the story of Kenneth Jackson's Language and History in Early Britain on from the 12th century to the end of the 20th century mainly by using written and oral recordings of place names The main emphasis is on the place names of Cardiganshire now Ceredigion but place names in other parts of Wales are also considered and they are all discussed in the context of historical dialectology **The Social Evolution of Religion** George Willis Cooke, 1985 **The Social Origins of Christianity** Shirley Jackson Case, 1923

Religions in Practice John R. Bowen, 2015-08-07 Examines religious practices from an anthropological perspective Religions in Practice 6 e offers an issues oriented perspective on everyday religious behaviors prayer sacrifice initiation healing etc by focusing on such topics as transnationalism gender and religious laws The text examines a full spectrum of religions from small scale societies to major established religions The in depth treatment of Islam Hinduism and Christianity is particularly noteworthy and easily supplemented with field projects directly related to the text **The World and Its Meaning** George Thomas White Patrick, 1924 The Arab World Halim Barakat, 1993-10-14 This book will become a classic Barbara Aswad President Middle Eastern Studies Association **The Social Evolution of Religion** George Willis Cooke, 1920 Introduction to Philosophy George Thomas White Patrick, 1924 *Philosophy of Life* Frederick C. Beiser, 2023 Philosophy of Life explores the intellectual movement Lebensphilosophie which flourished in Germany from 1870 until 1920 led by Nietzsche Dilthey and Simmel This was the first Western intellectual movement to develop an entirely secular and humanist conception of life believing that the meaning of life had to be found in life itself **An Encyclopaedia of Religions** Maurice Arthur Canney, 1921 **Courses of Study** Catholic University of America, Washington Catholic university of America (D.C.), 1928 *Social History of the True Orthodox Christians Wandering in Russia* Igor Kuziner, 2025-11-05 This book explores the social history of the radical religious community of Old Believer Wanderers during the period of rapid Late Imperial Early Soviet and Stalinist modernization The self titled True Orthodox Christians believed the 17th century reforms of the Russian Orthodox Church ushered in the reign of an invisible Antichrist Rejecting the corrupted world they advocated extreme asceticism renouncing property marriage and all contact with the state Yet despite their apocalyptic ideology the Wanderers thrived in Late Imperial and Early Soviet society engaging in capitalism pioneering agricultural cooperatives and even participating in Stalinist repression Focusing on three key figures this book examines how these seemingly isolated millenarians adapted to rapid modernization from imperial capitalism to Soviet revolution and Stalinist terror Their surprising integration challenges assumptions about radical religious groups revealing both the adaptability of fringe communities and the unexpected flexibility of modernizing regimes Through their stories this book offers new insights into the relationship between marginalized beliefs and societal transformation This book offers a nuanced and realistic model of the social outcasts existence that recovers their agency and subjectivity from the layers of discursive

projections by elite commentators It is a significant contribution to the history of religion and popular religiosity in the Russian Empire and the early Soviet Union and it presents a new and rare perspective on Russian modernity It will be of interest to researchers in the fields of Russian history Christianity Orthodoxy and the history of religion **Books of 1912-**
