## **Social Policy And Socialism The Struggle For Socialist Relations Of Welfare:**

**Social Policy and Socialism** Bob Deacon, 1983      The Generosity of Social Policies in Socialist and Post-Socialist States Andreas Heinrich, Monika Ewa Kaminska, Heiko Pleines, Tobias ten Brink, 2025-07-11 This open access book maps and compares national social policies of socialist and post socialist countries examining designs implementation and outcomes It analyses how the generosity of social policies understood as the combination of their inclusiveness and the scope of benefits they offer has been conceptualised in different socialist and post socialist national contexts how these conceptualisations have shaped the content of social policies and finally how the content of social policies has actually been implemented Thus the contributions include the ideational de jure and de facto aspects of social policy in socialist and post socialist contexts

Social Policy Fiona Williams, 2021-06-22 Welfare states face profound challenges Widening economic and social inequalities have been intensified by austerity politics sharpened by the rise in ethno nationalism and exposed by the COVID 19 pandemic At the same time recent decades have seen a resurgence of social justice activism at both the local and the transnational level Yet the transformative power of feminist anti racist and postcolonial decolonial thinking has become relatively marginal to core social policy theory while other critical approaches around disability sexuality migration age and the environment have found recognition only selectively This book provides a much needed new analysis of this complex landscape drawing together critical approaches in social policy with intersectionality and political economy Fiona Williams contextualizes contemporary social policies not only in the global crisis of finance capitalism but also in the interconnected global crises of care ecology and racialized borders These shape and are shaped at national scale by the intersecting dynamics of family nation work and nature Through critical assessment of these realities the book probes the ethical prefigurative and transformative possibilities for a future welfare commons This significant intervention will animate social policy thinking teaching and research It will be essential reading for anyone wanting to understand the complexities of social policy for the years ahead

**International Social Policy** Pete Alcock, Gary Craig, 2009-03-24 The second edition of this textbook provides an accessible and structured look at social policy in a global comparative context With detailed explanations of the historical political and social context of policy developments across thirteen nations the book offers an authoritative picture of social policy across the developed world The book considers core areas of policy provision alongside contemporary international concerns such as globalisation demographic change and economic reform Specifically it examines policy in the following nations USA Canada Australia New Zealand UK Sweden Germany Italy Russia Japan South Korea China South Africa Written and edited by leading social policy experts in each country this is an invaluable contribution to the study of global social policy and an indispensable resource for students researchers and policy makers New to this Edition Offers an expanded first chapter on welfare analysis Completely new chapters on China and South Korea Updates throughout that flag the latest changes and policy trends Explores and compares a variety of approaches to social

policy      **Transformations in Global and Regional Social Policies** A. Kaasch, P. Stubbs, 2014-05-02 This book discusses key issues in global and regional social policy exploring Bob Deacon's pioneering approach to regulation rights and redistribution. It addresses the role of international actors in shaping social policy and discusses the problems and possibilities of new alliances for global social justice.

**The Political and Social Construction of Poverty** Romano, Serena, 2014-01-29 Poverty is not a neutral phenomenon nor are social inclusion programmes neutrally conceived, designed and implemented. Their ultimate nature is built upon ideas, values, actors, politics and economic constraints. This topical book is one of the first to examine the social and political construction of anti-poverty programmes in Central Eastern Europe and their transformation from communist rule to the current economic crisis. It covers the approach towards the 'parasite poor' through to Guaranteed Minimum Income Schemes and illustrates how the distinction between different categories of deserving and undeserving poor has evolved over the years as the result of changing paradigms combined with the pressure exerted by domestic and international actors: the European Union and the World Bank among others. This text breaks new ground for social policy students and scholars interested in understanding how differently post-communist welfare states have represented legitimised and dealt with poverty, need and social justice in accordance with divergent normative frameworks constructed at national level.

**Advanced Introduction to Social Protection** Midgley, James, 2022-03-08 Written by James Midgley, a leading authority on international social policy and social development, this *Advanced Introduction* offers a concise, readable and wide-ranging overview of how protection schemes such as social assistance, social insurance, employer mandates and social allowances promote social welfare by meeting people's income needs and improving their living standards. It defines the field, traces its historical evolution, discusses the contribution of theories and ideologies and examines its impact on poverty.

**European Solidarities** Lars Magnusson, 2007 This volume discusses tensions between a market Europe and a social Europe, between politics of serial dumping and politics of social protectionism and between Europe as a possibility and as a threat.

Magyar Women Chris Corrin, 1994-02-12 Vast changes within East and Central Europe since 1989 have brought countries in this region, including Hungary, under sharp focus. This important study of women's situation within the changing context of Hungarian society gives a comprehensive overview of the various factors which make up women's lives. Rather than experiencing social radicalism in the 1960s, women in Hungary were experiencing the full effects of their rigid authoritarian statist policies. What this meant for their everyday lives is considered in terms of women's paid and unpaid work, family ideologies, social policy innovations, women's health care, changing attitudes and women's hopes and aspirations. Against the background of new openings on the political scene, questions concerning civil society and space for women's agendas are vital.

Making a Difference in Families Robyn Munford, 2020-07-16 This must-read volume will challenge every researcher to re-examine their assumptions and approach to research with families. Munford and Sanders emphasise the positive contribution research can make through the development of an inclusive

research process Their model extends the principles of the action research method by emphasising the contribution of families at each stage of the research and dissemination of results through an easily assessable range of research products The thought provoking case studies articulate the strengths and realities of applying their model in a wide variety of settings in different countries Angeline Barretta Herman Professor of Social Work University of St Thomas This book tackles the hard issues which are becoming of vital importance for all researchers How our research can make a difference to research participants and our communities and also satisfy the needs of other players are some of the difficult questions this book addresses The book s direct approach and its inclusion of work from around the globe make it widely applicable Professor Jan Fook La Trobe University Doing research with families poses particular challenges in social work and welfare The families are generally clients of social services and can be in a vulnerable position Also it is important that family research contributes to improving practice in clinical and community work Making a Difference in Families discusses key approaches to research with families including action research focus groups and participant observation Contributors explore both qualitative and quantitative methods and examine ways in which researchers can involve participants in the research process Detailed case studies are provided of research in a variety of settings and with different kinds of family situations

**The Role of Social Science in the Education of Professional Practitioners** John Astley, 2018-09-27 The Role of Social Science in the Education of Professional Practitioners explores the inter relation between the social sciences and professional practice particularly in areas of health and social welfare and the form that professional education takes The key issue of who provides for our health and welfare needs in the community is considered as are the values and education that drive those people to give service in society and how those professionals can come to a full and open understanding of their role It focuses on the value orientation identity development and sense of self that will enable practitioners to develop their understanding of clients needs in the community The book is divided into chapters that consider the educational and learning theories that underpin professional education and how those ideas have shaped the development of the curriculum for professional practice education Astley provides an in depth discussion of the nature of professional roles and how the making and taking of those roles is historically influenced by politics and policy making The nature and dynamics of the communities in which we live including who has power is addressed with special reference to how the health and social welfare needs of citizens in those communities is assessed planned for and provided This book will be vital reading for academics and professionals in the fields of health and social care professions education social and behavioural sciences higher education professional development and identity formation
