**Social Policy in a Global Society** International Development Research Centre (Canada),1995 Social Policy in a Global Society Parallels and lessons from the Canada Latin America experience     Labor Market Policies in Canada and Latin America: Challenges of the New Millennium R. Albert Berry,2013-03-14 Canada and the countries of Latin America are in the midst of major changes and choices in the area of labor markets and related social policy These decisions are likely to have profound consequences for the quality of life of workers throughout the hemisphere Labor Market Policies in Canada and Latin America Challenges of the New Millennium reviews the evidence of Canada and Latin America on three major labor policy instruments unemployment insurance minimum wages and training and on the effects of the payroll taxes which are the main means of funding the unemployment insurance system and other components of social expenditure This is the first study attempting an in depth comparison of these labor policy instruments between Canada and Latin America The useful juxtaposition of Canadian and Latin American experiences comes at a time when the trend in Canada is to back away from the perhaps overly generous or ineffectively administered elements of the labor legislation social security net and when Latin American countries have undertaken significant reforms of their past systems but require further changes to move toward the sorts of legislation and support systems that characterize developed countries The experiences of Canada and Latin America are mutually relevant since all are small economies forced to adjust to events at the world or hemispheric level and most are inclined to approach policy in an intermediate fashion which falls between the more market oriented American and the more interventionist European models Together with its comparative aspect this volume attempts a more balanced and in depth assessment in each of the policy areas than has hitherto been available The gradually increasing base of available empirical data on the period after the reforms has been used in the studies which provide thorough syntheses of the available research for Canada and Latin America     Political And Economic Determinants of Population Health and Well-Being: Vincente Navarro,Caries Muntaner,2020-11-26 The field of social inequalities in health continues its vigorous growth in the early years of the 21st century This volume following in the footsteps of Vicente Navarro s edited collection The Political Economy of Social Inequalities is a compilation of recent contributions to the areas of social epidemiology health disparities health economics and health services research The overarching theme is to describe and explain the evergrowing health inequalities across social class race and gender as well as neighborhood city region country and continent The approach of this book is distinctly multi trans and interdisciplinary the fields of public health population health epidemiology economics sociology political science philosophy medicine and history are all represented here     **Transnational Social Policies** International Development Research Centre (Canada),1999 Relationships between social policy and human development are the subject of much research and theorizing The literature in this area however examines these issues strictly within national contexts What influence will international agendas such as NAFTA the World Summit for Social Development and Habitat II

have Transnational Social Policies specifically addresses the worldwide trend for national policies on human and social development to be increasingly influenced by agendas that are international or transnational in nature In doing so the book examines the underlying international developmental ethical economic and political issues shaping national policies in health education and employment in the developing world This book s focus on the transnational character of the social policy debate makes it a truly unique and original contribution to the literature It will appeal to the academic community worldwide in international development public policy and administration and social work policymakers researchers and practitioners in the field of public social policy and the international community of individuals and organizations working in international social development      **Information Technology, Development, and Social Change** Fay Patel,Prahalad

Sooknanan,Giselle Rampersad,Anuradha Mundkur,2012-05-31 The speed and cost effectiveness of new information technology has prompted many to view these innovations as a panacea for social and economic development However such a view flies in the face of continuing inequities in education health food and infrastructure This volume explores these issues along with questions of access privilege literacy training and the environmental and health effects of information technologies in the developing world arguing that a higher level of development does not always result from a higher level of technologization      Lone Parent Incomes and Social Policy Outcomes Terrance Hunsley,Queen's University (Kingston, Ont.).

School of Policy Studies,1997 The majority of the more than one million lone parent families in Canada live below the poverty line To evaluate the effectiveness of Canadian policies in helping low income lone parent families Terrance Hunsley compares the final income of five different types of families in ten countries and draws on interviews conducted with lone parents in the same set of countries      **British Bulletin of Publications on Latin America, the Caribbean, Portugal, and Spain**
