Bureau of the Census, 1961 **The Oxford Handbook of the Ethiopian Economy** Fantu Cheru, Christopher

Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of

development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

Social Policy Reform in Hong Kong and Shanghai: A Tale of Two Cities Linda Wong, Lynn T. White, III, Gui Shixun, 2016-07-22 As the richest cities in the world's most populous nation Hong Kong and Shanghai have recently experienced dynamic growth spurred by more and better managed capital These cities also have social problems whose solutions will cost money Their urban populations are aging Health finance at the level these First World cities demand threatens to consume a large portion of the municipal budgets Eldercare and social security are now less well covered by traditional Chinese families Education has become more complex and public tuition where it occurs brings with it official plans for schools Immigrants have flocked to Shanghai from inland China and Hong Kong's border has become a protector of the former colony's high productivity jobs Housing problems also have deeply affected both cities albeit in somewhat different ways This book provides a comprehensive overview of the similarities and differences between social policies in the two cities Each chapter covers a different issue health finance housing education labor poverty and social security eldercare and migration and competitiveness The contributors explore pertinent developments in each city and analyze the similarities and differences between the two cities approaches to social policies They focus on policy reform and the interface between social policy and its environment One main theme throughout the book is the extent to which spending for capital accumulation is in conflict with spending for social policies

The Transnationalized Social Question Thomas Faist, 2018-11-30 The social question is back Yet today's social question is not primarily between labour and capital as it was in the nineteenth century and throughout much of the twentieth The contemporary social question is located at the interstices between the global South and the global North It finds its expression in movements of people seeking a better life or fleeing unsustainable social political economic and ecological conditions It is transnationalized not only because migrants and their significant others entertain ties across the borders of national states staying in touch with family and friends receiving or sending financial remittances in transnational social spaces Also of importance are cross border recruitment schemes for workers and the cross border diffusion of norms appealed to in the case of migration for example the social right to decent work as a human right Moreover migration can become an issue of inclusion or exclusion in fields important to life chances in the emigration transit or immigration states a transnationalization of national states And as in the nineteenth century political conflicts arise constituting the social question as a public concern In earlier periods class differences

dominated conflicts While class has always been criss crossed by manifold heterogeneities not least of all cultural ones around ethnicity religion and language it is these latter heterogeneities that have sharpened in situations of immigration and emigration over the past decades Casting a wide net in terms of conceptual and empirical scope this book tackles both the social structure and the politics of social inequalities It sets a comprehensive agenda for research which also includes the public role of social scientists in dealing with the transnationalized social question **Sustainability Appraisal** Barry Dalal-Clayton, Barry Sadler, 2014-03-26 Sustainability Appraisal is a sourcebook of the state of the art of this rapidly emerging and diversifying area It draws on a wealth of international experiences and approaches to illustrate the status and scope of Sustainability Appraisal Assessment SA This comprehensive guide highlights how SA can be used to analyse and integrate the key environmental social and economic pillars of sustainability into decision making at all levels from policy to project to investment by government business and industry or international organizations Distilling both published and unpublished materials and with contributions from a range of leading experts organizations and agencies this book will be of significant value to professionals everywhere who are in need of a solid reference guide to what constitutes SA practice and more importantly how and when it can be applied **Disaster Makers** Terry Gibson, 2025-02-20 Drawing on decades of on the ground experience a strong body of existing research on the social construction of risk and his own academic research Terry Gibson demonstrates the transformative potential of current debates around de and re growth for disaster studies Some disasters are highly visible to us all such as the Covid 19 pandemic or the climate emergency Many more are hidden everyday disasters grinding down the lives of the poor and vulnerable Very few of these disasters just happen Most are caused by those who create risk faster than they can mop it up by those who pursue reckless unmanaged economic growth that demands ever increasing manufacture consumption building food production and energy consumption These are the disaster makers In this book Gibson provides a thorough sophisticated yet accessible account of who the disaster makers are what they do and how we can do things better Ultimately Gibson demonstrates the urgency of replacing growth based economics with a fundamentally different social and economic model This is more than a dream As Gibson shows it becomes a practical possibility the moment enough of us commit to building a movement **World Public Sector Report 2023** Department of Economic and Social Affairs, 2023-10-25 This report examines the role that national institutional and governance innovations and changes that emerged during the COVID 19 pandemic can play in advancing progress towards the 2030 Agenda for Sustainable Development The consequences of the pandemic threaten to derail progress and make the Sustainable Development Goals SDGs more difficult to achieve Yet the pandemic also sparked rapid innovation in government institutions and public administration that could be capitalized on Against this backdrop the report focuses on how governments can reshape their relationship with people and other actors to enhance trust and promote the changes required for more sustainable and peaceful societies How they can assess competing priorities and address difficult policy

trade offs that have emerged since 2020 And what assets and innovations they can mobilize to transform the public sector and achieve the SDGs The e book for this publication has been converted into an accessible format for the visually impaired and people with print reading disabilities It is fully compatible with leading screen reader technologies such as JAWS and NVDA

Global Population Alison Bashford,2014-02-11 Concern about the size of the world s population did not begin with the Baby Boomers Overpopulation as a conceptual problem originated after World War I and was understood as an issue with far reaching ecological agricultural economic and geopolitical consequences This study traces the idea of a world population problem as it developed from the 1920s through the 1950s long before the late 1960s notion of a postwar population bomb Drawing on international conference transcripts the volume reconstructs the twentieth century discourse on population as an international issue concerned with migration colonial expansion sovereignty and globalization It connects the genealogy of population discourse to the rise of economically and demographically defined global regions the characterization of civilizations with different standards of living global attitudes toward development and first and third world designations

Economic Liberalisation, Social Capital and Islamic Welfare Provision J. Harrigan,H. El-Said,2009-02-25 This book looks at two aspects of Islamic activity in the Middle East and North Africa the development of social capital and the provision of welfare services within the context of economic liberalisation programmes to see whether the retrenchment of the state under liberalisation has created a space for Islamic based activities

APAIS 1992: Australian public affairs information service , **Mapping the Women's Movement** Monica Threlfall,1996 Second wave feminism is now in its third decade The movement that began in the 1960s in the United States has gone through many permutations continuously emerging in new forms in different parts of the world Awareness of gender has entered popular culture redrawn political divisions and impinged on national economies and international institutions

The State of the World's Children 2011 ,2011-02 The State of the World s Children 2011 Adolescence An Age of Opportunity examines the global state of adolescents outlines the challenges they face in health education protection and participation and explores the risks and vulnerabilities of this pivotal stage The report highlights the singular opportunities that adolescence offers both for adolescents themselves and for the societies they live in The accumulated evidence demonstrates that investing in adolescents second decade is our best hope of breaking the intergenerational cycle of poverty and inequity and of laying the foundation for a more peaceful tolerant and equitable world

Social Contours of Risk Roger E Kasperson,2014-07-30 We live in a risk society where the identification distribution and management of risks from new technology environmental factors or other sources are crucial to our individual and social existence In The Social

Contours of Risk Volumes I and II two of the world's leading and most influential analysts of the social dimensions of risk bring together their most important contributions to this fundamental and wide-ranging field. Volume II centres on the analysis and management of risk in society in international business and multinationals and globally. The acceptability of risk to an individual depends on the context, whether the larger society or, for example, a corporate framework. Their work clarifies the structures and processes for managing risks in the private sector and the factors that produce or impede effective decisions. The authors demonstrate that corporate culture is crucial in determining risk management. They analyse the transfer of corporate risk management systems from industrial to developing countries and how globalization is spreading and creating new kinds of risk: the combination of traditional and modern hazards presented by climate change, technology transfer and economic growth. They describe the new priorities and capacities needed to deal with these enhanced vulnerabilities around the globe.
