## **Social Psychology Readings From The First Century:**

**Reading Minjung Theology in the Twenty-First Century** Yung Suk Kim, Jin-Ho Kim, 2013-09-16 This edited volume brings Ahn Byung Mu's minjung theology into dialogue with twenty-first century readers. Ahn Byung Mu was one of the pioneers of Korean minjung theology. The centerpiece of his minjung theology is focused on the Greek word *ochlos*, understood as the divested, marginalized, powerless people. Part 1 introduces readers to his life and theological legacy. Part 2 includes four important writings of Ahn Byung Mu: *Jesus and Minjung in the Gospel of Mark*, *Minjung Theology in the Gospel of Mark*, *The Transmitters of Jesus*, *Event Tradition and Minjok*, *Minjung and Church*. Part 3 contains a collection of articles from international scholars who evaluate and engage Ahn's *ochlos* minjung theology in their own fields and formulate critical readings of minjung theology. Responses include postcolonial black theology and feminist perspectives. **Social**

**Catholicism for the Twenty-First Century?--Volume 1** William F. Murphy, 2024-09-12 This first of two volumes introduces the tradition of social Catholicism not only in its earlier realizations but regarding how a contemporary renewal might address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo-fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional democracy quickly arises. In this context, some of the most influential voices among American Catholics are focused on criticizing liberal democracy, on advocating a postliberal order, and the establishment of a Catholic integralist state, or on insisting that abortion should be the primary sociopolitical concern for Catholics. Treating these threats to democracy as largely irrelevant. This volume shows the rich tradition of social Catholicism and how the Social Doctrine of the Church came to appreciate the key tenets of constitutional democracy. As Pope Benedict XVI wrote, this social doctrine leads us to take a stand for the common good, to take the institutional or political path of charity, to be solicitous for the institutions that give structure to the life of society: juridically, civilly, politically, and culturally. It engages some of the most influential contemporary Catholic thinkers and argues that they too should recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy. *Social Work for the Twenty-first Century* Francis K. O. Yuen, 2006-04-30 This work is a critical analysis of the various aspects of social work education and practice. It argues that social work is still a profession searching for a firm identity and a clear and respectful image. The incorporation of science and scientific approach into social work education and practice appears to be the key for the profession to continue to grow and gain its rightful place in the professional and academic communities. Lastly, this book is intended to generate productive dialogues to advance the profession and its educational processes. *Leadership for the Twenty-First Century* Joseph Rost, 1993-02-18 This illuminating study critiques the concept of leadership as understood in the last 75 years and looks to the twenty-first century for a reconstructed understanding of leadership in the postindustrial era. More similarities in past decades were found than had been thought. The thread throughout Rost's book is that leadership was conceived of as good

management He develops a new definition and paradigm for leadership in this volume that distinguishes leadership from management in fundamental ways The ethics of leadership from a postindustrial perspective completes the paradigm The book concludes with suggestions that can be immediately utilized in helping to transform our understanding of leadership

**George Herbert Mead in the Twenty-first Century** F. Thomas Burke, Krzysztof Skowronski, 2013-03-22 This volume is composed of extended versions of selected papers presented at an international conference held in June 2011 at Opole University the seventh in a series of annual American and European Values conferences organized by the Institute of Philosophy Opole University Poland The papers were written independently with no prior guidelines other than the obvious need to address some aspect of George Herbert Mead's work While rooted in careful study of Mead's original writings and transcribed lectures and the historical context in which that work was carried out these papers have brought that work to bear on contemporary issues in metaphysics epistemology cognitive science and social and political philosophy There is good reason to classify Mead as one of the original classical American pragmatists along with Charles Peirce William James and John Dewey and consequently as a major figure in American philosophy Nevertheless his thought has been marginalized for the most part at least in academic philosophy It is our intention to help recuperate Mead's reputation among a broader audience by providing a small corpus of significant contemporary scholarship on some key aspects of his thought

**Religious Fundamentalism** Peter Herriot, 2008-09-25 How does a religious fundamentalist come to embrace a counter cultural world view Fundamentalism can be analysed from a variety of perspectives It is a type of belief system which enables individuals to make sense of their lives and provides them with an identity It is a social phenomenon in which strictly religious people act

according to the norms values and beliefs of the group to which they belong It is a cultural product in the sense that different cultural settings result in different forms of fundamentalism And it is a global phenomenon in the obvious sense that it is to be found everywhere and also because it is both a reaction against and also a part of the globalising modern world Religious Fundamentalism deals with all of these four levels of analysis uniquely combining sociological and psychological perspectives and relating them to each other Each chapter is followed by a lengthy case study and these range from a close textual analysis of George W Bush s second inaugural speech through to a treatment of Al Qaida as a global media event This book provides a comprehensive social scientific perspective on a subject of immense contemporary significance and should be of use both to university students and also to students of the contemporary world Twenty-First Century Readings of 'Tender is the Night' William Blazek, Laura Rattray, 2007-06-01 Bringing together established Fitzgerald scholars from the United Kingdom Europe and North America this collection offers eleven new readings of F Scott Fitzgerald s 1934 novel Tender is the Night While The Great Gatsby continues to attract more attention than the rest of Fitzgerald s oeuvre combined persistent if infrequent writings on Tender is the Night from the 1950s onwards indicate that like Gatsby s green light Fitzgerald s fourth novel continues both to perplex and intrigue In addition to the inevitable biographical interpretations the novel has in myriad readings been viewed as a marriage novel a text of disturbed psychology a text nostalgically marking the passing of a talent and a time an outdated Jazz Age story and the great novel about American history This new collection of essays opens criticism of Tender Is the Night to a new generation of scholars providing new ways for readers to appreciate this complex compelling and profound work Contributors include editors of the F Scott Fitzgerald Review the general editor of the Cambridge Edition of Writings of F Scott Fitzgerald members of the Fitzgerald Society Executive and the directors of the biennial F Scott Fitzgerald conference The book will be published to coincide with the biennial F Scott Fitzgerald conference in July 2007 **The Social Acceptance of Inequality** Francesco Duina, Luca Storti, 2025-08 The world has staggering levels of inequality Most people worry about this Some however accept or even approve of those inequalities Why The Social Acceptance of Inequality offers the first comprehensive analysis of the logics people use in support of economic inequalities Turning to case studies from across the globe it examines four primary logics Market economic logics see people accept and even approve of economic inequalities because of the positive material outcomes for societies with which they are purportedly associated Moral logics see people thinking of inequalities as fair according to higher or ethical principles such as meritocracy When relying on cultural institutional logics people view economic inequalities as consistent with established or emerging outlooks policies or organizational arrangements Using group ethnic logics people justify inequalities on the basis of hierarchical distinctions between superior and inferior collectivities These logics do not exist in isolation they often interact with each other and inevitably function in particular political economic and cultural contexts With contributors from across the world and the social sciences evidence comes from North and South America Europe and Asia Attention goes not

only to those in positions of privilege but also those in vulnerable positions who despite their conditions look favorably upon inequalities With original analyses employing a wealth of methodological approaches the book offers a compelling investigation of the logics of acceptance their variations and intersections and how we may move toward a less unequal world Chapter 2 of this work is available under the terms of a CC BY NC ND 4 0 International open access licence This part of the work is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations
