Social Science Education in the Elementary School Milton E. Ploghoft, Albert Henry Shuster, Albert H. Shuster, 1976 **Teaching Social Studies** James Little, Gerald L. Wilson, Virginia Wilson, 1993-01-30 Just as society has changed dramatically over the last century so have the social sciences This valuable reference chronicles the historical development of social studies as a discipline in elementary and secondary schools It also assesses the current state of teaching and research in the social sciences and history at the pre college level and it charts new directions for the future of social studies in secondary and elementary schools By tracing the historical development of social studies the reference indicates how social studies has constantly been redefined to meet the changing needs and expectations of society At the same time the historical context provided by the authors sheds new light on the current state of social studies in the curriculum and the development of social studies in the future The book begins with introductory chapters that overview themes and issues common to all areas of history and the social sciences The chapters that follow summarize and assess the developments and trends of particular fields commonly thought to constitute social studies The volume concludes with chapters on broad topics including the place of religion in the social studies curriculum the role of writing in history and the social sciences and the professional training of social studies teachers Each chapter begins with a section of reflections on the development of the discipline followed by a section on current issues and trends followed by a final section of projections for the future of the discipline The result is a comprehensive overview of the past present and future of social studies in elementary and secondary schools and an indispensable reference for educators historians and social scientists *Teaching the Social Studies in the Elementary School* Joy Muchmore Lacey, 1947

The Social Sciences as School Subjects Rolla Milton Tryon, 1935 Social Studies in a New Era Byron G. Massialas, Joseph B. Hurst, 1978 Teaching Significant Social Studies in the Elementary School Elliott Seif, 1977

In this age of technology and extreme specialization, the task of educating the young for social understanding and responsibility has come to be almost an enigma. What should be the content, values, concepts, principles, and modes of thinking of such an education? How are elementary children to become involved in learning about their social world? What posture should teachers take as they interact with pupils and guide the interactions between pupils? These questions, which face any teacher of social studies, are precisely the questions addressed in this book. Theory and practice are intertwined, and descriptions of activities that translate these theories into practice, examples of social studies curriculum materials, and practical ways of planning, organizing, and teaching social studies. A practical guide in the hands of prospective teachers, as students, and as teachers.
