Social Services For Senior Gay Men And Lesbians:

Social Services for Senior Gay Men and Lesbians Jean K Quam, 2014-02-25 *Social Services for Senior Gay Men and Lesbians* is an important new reference that provides those in the helping professions with practical information on how to work with the older gay and lesbian population. Although older gays and lesbians are the same in many ways as their heterosexual counterparts, they have an extra layer of concerns that are unique to their sexual orientation, including coming out to family and medical professionals, fear of discrimination, isolation, and loneliness. This new book helps social service providers address these and other concerns of the aging homosexual. *Social Services for Senior Gay Men and Lesbians* examines the history of homosexuality and how practitioners have developed ways to better serve this population. The book features case studies of topics that face practitioners and their older gay clients, including housing needs of older gay and lesbian adults, group therapy for older gay males, long-term care dilemmas for older lesbians, counseling an older gay male who is coming out, staff development for non-gay social service providers, historical review of gay and lesbian issues. Because so little information exists in these and other areas, *Social Services for Older Gay Men and Lesbians* is an excellent resource for social workers, psychologists, nurses, counselors, and physicians.

, 1997 *Handbook of Social Work in Health and Aging* Barbara Berkman, 2006-02-09 *The Handbook of Social Work in Health and Aging* is the first reference to combine the fields of health care, aging, and social work in a single authoritative volume. These areas are too often treated as discrete entities, while the reality is that all social workers deal with issues in health and aging on a daily basis, regardless of practice specialization. As the baby boomers age, the impact on practice in health and aging will be dramatic, and social workers need more specialized knowledge about aging, health care, and the resources available to best serve older adults and their families. The volume's 102 original chapters and 13 overviews, written by the most experienced and prominent gerontological health care scholars in the United States and across the world, provide social work practitioners and educators with up-to-date knowledge of evidence-based practice guidelines for effectively assessing and treating older adults and their families, new models for intervention in both community-based practice and institutional care, and knowledge of significant policy and research issues in health and aging. A truly monumental resource, this handbook represents the best research on health and aging available to social workers today.
