Molinaro, 2016-03-03

Alicia Giménez Bartlett's popular crime series written in Spanish and organized around the exploits of Police Inspector Petra Delicado and Deputy Inspector Fermin Garzon is arguably the most successful detective series published in Spain during the previous three decades Nina L. Molinaro examines the tensions between the rhetoric of gender differences espoused by the woman detective and the orthodox ideology of the police procedural She argues that even as the series incorporates gender differences into the crime series formula it does so in order to correct women naturalize men's authority sanction social hierarchies and assuage collective anxieties As Molinaro shows with the exception of the protagonist the women characters require constant surveillance and modification often as a result of men's supposedly intrinsic protectiveness or excessive sexuality Men by contrast circulate more freely in the fictional world and are intrinsic to the political psychological and

economic prosperity of their communities Molinaro situates her discussion in Petra Delicado's contemporary Spain of dog owners, Russian cults and gated communities

This study explores the ways in which fictional representations of the past mirror contemporaneous anxieties within Italian society in the work of writers such as Leonardo Sciascia, Andrea Camilleri, Carlo Lucarelli, Francesco Guccini, Lorian Macchiavelli, Marcello Fois, Maurizio De Giovanni and Giancarlo De Cataldo, film directors such as Elio Petri, Pietro Germi, Michele Placido and Damiano Damiani, and TV series such as the *Commissario De Luca* series, the *Commissario Nardone* series and *Romanzo criminale*. Crime Fiction Data Gideon Fairchild, AI, 2025-02-19 Crime Fiction Data provides a deep dive into the economics and social science behind the crime fiction genre, analyzing readership data and market trends to uncover what makes this genre so enduringly popular. The book uses industry statistics and quantitative analysis to explore the performance of different sub-genres, offering valuable insights for publishers, authors and academics. One intriguing finding is how closely crime fiction mirrors societal anxieties evolving alongside our moral codes. By examining sales data and reader demographics, the book reveals patterns in age, gender, education and income that influence sub-genre preferences, offering a unique data-driven perspective on reader behavior. The book's approach stands out by using quantitative methods to provide an objective picture of the crime fiction landscape. Instead of relying solely on textual analysis, Crime Fiction Data applies statistical techniques like regression and cluster analysis to identify patterns and predict future trends in the publishing world. The book first introduces key databases and methods, then explores readership demographics and market trends before dedicating later chapters to specific sub-genres like hard-boiled and psychological thrillers, assessing their market performance. This method provides an evidence-based understanding of this popular genre.

The Crime Novel Tony Hilfer, 2014-07-03 Although rarely distinguished from the detective story, the crime novel offers readers a quite different experience. In the detective novel, a sympathetic detective figure uses reason and intuition to solve the puzzle, restore order and reassure readers that right will always prevail. In the crime novel, by contrast, the hero is either the killer, the victim, a guilty bystander or someone falsely accused, and the crime may never be satisfactorily solved. These and other fundamental differences are set out by Tony Hilfer in *The Crime Novel*, the first book that completely defines and explores this popular genre. Hilfer offers convincing evidence that the crime novel should be regarded as a genre distinct from the detective novel, whose conventions it subverts to develop conventions of its own. Hilfer provides in-depth analyses of novels by Georges Simenon, Margaret Millar, Patricia Highsmith and Jim Thompson. He also treats such British novelists as

Patrick Hamilton Shelley Smith and Marie Belloc Lowndes as well as the American novelists Cornell Woolrich John Franklin Bardin James M Cain and Fredric Brown In addition he defines the distinctions between the American crime novel and the British showing how their differences correspond to differences in American and British detective fiction This well written study will appeal to a general audience as well as teachers and students of detective and mystery fiction For anyone interested in the genre it offers valuable suggestions of what to read next
