Social Ecology and Education David Wright, Stuart B. Hill, 2020-09-01 Social Ecology and Education addresses ecological understanding as a transformative educational issue a learning response to emerging insights into social ecological relationships and the future of life on our planet In the face of the existential threats posed by climate change loss of biodiversity pandemics and the associated ecological and social challenges there is a need to extend our responses beyond scientific inquiry and technological initiatives This book seeks to move the dialogue towards a deeper and

broader understanding of the complexities of the issues involved To achieve this the book discusses issues rarely addressed through programs in Education for Sustainability and Environmental Education such as student defined knowledge systems deep engagement with the implications of indigenous understandings climate change as symptomatic of broad epistemological problems social disengagement and differentiated barriers to meaningful change This work is enriched by its focus on the learning and the learning systems that have led to our current predicament This book seeks to initiate considerations of this kind to invigorate education for sustainable equitable healthy and meaningful futures As such this book will be of great interest to undergraduate and postgraduate students in a range of education and environmental courses

Social Ecology David Wright, 2013-03-27 Social ecology provides a holistic framework for change based on the interrelationships between the personal social environmental and spiritual It helps understand how we got here and how to realise more sustainable caring futures Students from all disciplines can use this valuable resource to help to enrich their learning with insights and principles from social ecology *Community and Environment* Erwin Anton Gutkind, 1954 The Social Ecology of Change Zdravko Mlinar, Henry Teune, 1978 Monographic compilation of conference papers on ecological aspects of social change and political development processes includes papers on internal migration in Yugoslavia politics in Finland political leadership the model for local government administrative reform in Africa social mobility in Poland etc Diagrams and references Conference held in Ljubljana 1976 aug 1 to 12 *Renewing the Earth* John Clark, 1990 *A Social Ecology of Capital* Éric Pineault, 2023-02-20 An original theory of contemporary capitalist growth and its socio ecological contradictions A timely and urgent analysis which seeks to comprehend our ecological plight through an elucidation of monopoly capital Gareth Dale Reader in Political Economy Brunel University Capital is pushing into motion ever larger global material flows In doing so it has come to depend on massive expenditures of energy putting to work fossil fuels and the machines they animate to transform the world accumulate power and grow the economy The ecological relations and crises of today's societies are driven by the processes of extraction of the elements that come together as a throughput of material and energy flows controlled by capital and shaped by its imperative of valorization In *A Social Ecology of Capital* Eric Pineault proposes an original model of the fossil social metabolism that has sustained the growth of advanced capitalism in the last century Drawing on ecological economics and critical political economy the book analyses how the social structures of accumulation production consumption and waste determine and regulate the material flow and the accumulation of material artifacts Showing how social relations shape the ecology of capital the book highlights the contradictions humanity now faces

Social-Ecological Transformation Karl Bruckmeier, 2016-06-03 This book advances a social ecological theory to reconnect nature and society through sustainable transformation of interacting social and ecological systems Social ecology develops as an interdisciplinary science by using knowledge from the social sciences especially sociology and economics and from natural scientific ecology Knowledge integration across the boundaries of social and natural sciences is not widespread

blocked by the specialisation of theories and their competing forms of explanation and interpretation Chapters in this book describe a new social ecological theory that connects concepts and theories from both sides to create a new interdisciplinary theory Inter and transdisciplinary knowledge synthesis creates possibilities to analyse global environmental problems more systematically by integrating specialized research on environmental problems The author uses social ecological theory to analyse and explain problems and processes of global change in modern society such as climate change and adaptation to it ecosystem change and transformation of the industrial energy regime finally offering pathways of transformation to a future sustainable society

Ecological Solidarity and the Kurdish Freedom Movement Stephen E. Hunt, 2021-10-11 Ecological Solidarity and the Kurdish Freedom Movement Thought Practice Challenges and Opportunities is a pioneering text that examines the ideas about social ecology and communalism behind the evolving political structures in the Kurdish region The collection evaluates practical green projects including the Mesopotamian Ecology Movement Jinwar women's eco village food sovereignty in a solidarity economy environmental defenders in Iranian Kurdistan and Make Rojava Green Again Contributors also critically reflect on such contested themes as Alevi nature beliefs anti dam demonstrations human rights law and climate change the Gezi Park protests and forest fires Throughout this volume the contributors consider the formidable challenges to the Kurdish initiatives such as state repression damaged infrastructure and oil dependency Nevertheless contributors assert that the West has much to learn from the Kurdish ecological paradigm which offers insight into social movement debates about development and decolonization

Climate Change and Social Ecology Stephen M. Wheeler, 2012 Industrial cultures have proved unable to confront the issues underlying the climate problem such as overconsumption overpopulation inequity and dysfunctional political systems Political and social obstacles have prevented the adoption of improved technologies and these would provide only a partial solution in any case Climate Change and Social Ecology takes a new approach to the climate crisis arguing that climate change is a challenge of rapid social evolution In order to address this impending catastrophe and bring about more sustainable development this book argues that we must focus on improving social ecologies our values mind sets and organizations The text presents a compelling vision of how to help social ecologies evolve toward sustainability and explores the social transformations needed to deal with the climate crisis in the long term It reviews the climate change strategies considered to date presents a detailed vision of a future sustainable society and analyzes how this vision might be realized through more conscious public nurturing of our social ecologies This interdisciplinary volume provides a compelling rethink of the climate crisis Authoritative and accessible it will be of great interest to anyone concerned about climate change and sustainability challenges and is essential reading for students professionals and general readers alike
