First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *Evolution and Social Life* Tim
Ingold,2016-07-07 Evolution is among the most central and most contested of ideas in the history of anthropology This book
charts the fortunes of the idea from the mid nineteenth century to recent times By comparing biological historical and
anthropological approaches to the study of human culture and social life it lays the foundation for their effective synthesis
Far ahead of its time when first published the book anticipates debates at the forefront of contemporary thinking Revisiting
the work after almost thirty years Tim Ingold offers a substantial new preface that describes how the book came to be written
how it was received and its bearing on later developments Unique in scope and breadth of theoretical vision Evolution and

in today s life **Musings: On Social Life** Arun Sapre,2022-05-24 Human behavior under diverse social conditions is
complex and puzzling Driven by experience ambitions struggles passion emotions social situations etc humans try to find
ways to survive and progress Every individual and situation is unique and shapes up differently Yet there exists a common
thread or a general pattern showing a natural trend It is reasonably possible to understand this trend if one keeps free from
biases strategies ideologies or closed thinking Positive thinking could provide a picture that would be closer to reality

Peculiar social realities could be better understood within a general pattern Based on daily experiences one develops some understanding of the diverse behavior of the people around It has a strong and reasonably discernable social context Collating and shaping these thoughts on diverse social topics needs efforts to shade out unrealistic content and take insight closer to reality The topics covered in the book are of common interest and readers may find them closer to their daily experiences Overall there is a message to be positive going closer to the natural processes and taking a balanced view even in puzzling situations Understanding social issues is a utilitarian exercise diverse unending interesting and even relaxing Contributing to this dispassionate exercise is always a pleasure for anyone

A General Theory of Emotions and Social Life
Warren D. TenHouten, 2006-11-22 Founded upon the psychoevolutionary theories of Darwin Plutchik and Izard a general socioevolutionary theory of the emotions affect spectrum theory classifies a wide spectrum of the emotions and analyzes them on the sociological psychological and neurobiological levels This neurocognitive sociology of the emotions supersedes the major theoretical perspectives developed in the sociology of emotions by showing primary emotions to be adaptive reactions to fundamental problems of life which have evolved into elementary social relationships and which can predict occurrences of the entire spectrum of primary complex secondary and tertiary emotions Written by leading social theorist Warren D TenHouten this book presents an encyclopaedic classification of the emotions describing forty six emotions in detail and presenting a general multilevel theory of emotions and social life The scope of coverage of this key work is highly topical and comprehensive and includes the development of emotions in childhood symbolic elaboration of complex emotions emotions management violence and cultural and gender differences While primary emotions have clearly defined valences this theory shows that complex emotions obey no algebraic law and that all emotions have both creative and destructive potentialities

The Social Life of Trees Laura Rival, 2021-03-10 The passionate response of the British public to the Newbury Bypass is a revealing measure of how strongly people feel about trees and the environment Similarly in the United States the giant sequoia of California is an enduring national symbol that inspires intense feelings As rainforests are sacrificed to the interests of multi national corporations and traditional ways of life disappear the status of forests the cultural significance of trees and the impact of conservation policies are subjects that have inspired intense engagement Why do people feel so strongly about trees With this explosion of interest in environmental issues a serious study of what trees mean to people has long been overdue This interdisciplinary book responds to this need by providing the first cross cultural analysis of tree symbolism Drawing on rich case studies contributors explore the processes through which trees are used as metaphors of identity and continuity Political struggles over forest resources feature prominently and the perceptions of trees in various cultures provide telling insights into the ways in which human societies conceptualize nature As well as being a major contribution to the field of symbolic anthropology this comprehensive study will be essential reading for students in a wide range of courses and for anyone with a keen interest in the politics of ecology the occult and neo paganism and the
