Russill**

Social Order And Political Change:

Political Science and the Problem of Social Order Henrik Enroth, 2022-03-24 Shows how the problem of social order has shaped concept formation theory and normative argument in political science

Political Identity and Social Change Jamie Frueh, 2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa To gain a better understanding of how structures of identity changed along with the rest of South Africa s institutions Frueh analyzes three social and political conflicts the Soweto uprisings of 1976 the reformist constitutional debates of 1983 1984 and post apartheid crime Analyzing these conflicts demonstrates how identity labels function as structures of social discourse how social activity is organized through these structures and how both the labels and their power have changed during the course of South Africa s transition In this way the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change

Political Protest and Social Change Charles F. Andrain, David Ernest Apter, 1995 At the close of the twentieth century political protests have erupted throughout the world While the collapse of communism was certainly one of the most spectacular protest related events smaller protests have become ubiquitous In Los Angeles labor activists campaign against commercial real estate owners to unionize janitors mainly Latina immigrants In the People s Republic of China peasants revolt against tax collectors Amazonian Indians protest public and economic policies that destroy their culture and rainforest habitat This book analyzes the reciprocal impact of cultural beliefs sociopolitical structures and individual behaviors on protests throughout the world Why do individuals participate in protest activities How do cultural beliefs personal attitudes and subjective perception influence the potential protester Addressing the issue of agency in protest the authors also examine why protestors enlist different tactics to achieve their goals Why are some protests violent and others nonviolent When and why do activists conclude that it is better to accommodate than confront Finally and crucially what are the consequences of protest movements

Paper, Performance, and the State : Social Change and Political Culture in Mughal India Farhat Hasan, 2022-02-03 Looking at the political processes in early modern South Asia as shaped by state formation from below this work argues that outside the imperial and trans regional contexts the Mughal state subsisted on the mutually empowering relations with the elites and common people

Crime, Justice, and Social Order Alison Liebling, Joanna Shapland, Richard Sparks, Justice Tankebe, 2021-12-23 To honour the extraordinary contribution of Professor Anthony Edward Bottoms to criminology and criminal justice leading criminologists and penal scholars have been asked to contribute original essays on the wide range of areas in which he has written The book starts by reflecting on the depth and breadth of Anthony s contribution and his melding of perspectives from moral philosophy social theory empirical social science research and criminal justice This is no ordinary collection because it also contains a major essay by Anthony Bottoms on Criminology and positive morality reflecting on social order and social norms In similar vein Jonathan

Jacobs approaches criminology from a moral philosophical viewpoint whilst Ian Loader and Richard Sparks ponder social theory and contemporary criminology. Typically Peter Neyroud reflects on evidence based practice and the process of trying to do experiments in relation to policing. In the second section of the book on Crime Justice and Communities Loraine Gelsthorpe reminds us that justice is about people in considering the treatment of women in community justice. Joanna Shapland draws parallels between the process of desistance from crime and the potential role of restorative justice in affecting offenders' journeys. P. O. Wikström reflects on the social ecology of crime whilst Antje Du Bois-Pedain considers the theoretical and practical challenges of sentencing constructively. Finally the book turns to Anthony Bottoms' major interest in punishment and penal order. David Garland puts penal populism under the microscope whilst Alison Liebling explores the empirical evidence for theories of penal legitimacy. Mike Nellis looks back at the use of the creative arts in prisons in Scotland's Barlinnie Unit whilst Justice Tankebe explores police legitimacy.

The Political Economy of Italy's Decline

Andrea Lorenzo Capussela, 2018-04-05. Italy is a country of recent decline and long standing idiosyncratic traits. A rich society served by an advanced manufacturing economy where the rule of law is weak and political accountability low, it has long been in downward spiral, alimented by corruption and clientelism. From this spiral has emerged an equilibrium as consistent as it is inefficient that raises serious obstacles to economic and democratic development. *The Political Economy of Italy's Decline* explains the causes of Italy's downward trajectory and explains how the country can shift to a fairer and more efficient system. Analysing both political economic literature and the history of Italy from 1861 onwards, *The Political Economy of Italy's Decline* argues that the deeper roots of the decline lie in the political economy of growth. It places emphasis on the country's convergence to the productivity frontier and the evolution of its social order and institutions to illuminate the origins and evolution of the current constraints to growth, using institutional economics and Schumpeterian growth theory to support its findings. It analyses two alternative reactions to the insufficient provision of public goods: an opportunistic one employing tax evasion, corruption or clientelism as means to appropriate private goods, and one based on enforcing political accountability. From the perspective of ordinary citizens and firms, such social dilemmas can typically be modelled as coordination games which have multiple equilibria. Self-interested rationality can thus lead to a spiral in which several mutually reinforcing vicious circles lead society onto an inefficient equilibrium characterized by low political accountability and weak rule of law. *The Political Economy of Italy's Decline* follows the gradual setting in of this spiral as it identifies the deeper causes of Italy's decline.

Social Change and Political Transformation Chris Rootes, Howard Davis, 2018-05-11. Social Change in Political Transformation is a thorough examination of political transformation; the book features contributors from western and eastern Europe giving their views on how European society and institutions are changing. The themes of social change, new movements and the development of European institutions are developed within a broad framework and are supported by considerable empirical detail relating to the European Community and a disaggregated eastern Europe. Students of political

sociology politics and European studies will all find this a useful text providing theories and explanations as well as summaries of recent research

Social Justice and Political Change David Mason, 2018-04-17 Analysis and debate about economic and political justice rarely involves research on the views of the common person. Scholars often make assumptions about what common people think is fair but for the most part they confine their thinking to a single country and argue on rational or moral grounds with little supporting empirical data. *Social Justice and Political Change* involves the collaboration of thirty social scientists in twelve countries and represents broad ranging comparative research. The book grows out of a collaborative study of public opinion about social justice. Though conceived prior to the revolutions that swept Central and Eastern Europe in 1989 the ISJP did not put its survey into the field until the summer of 1991 in a new climate of open international exchange in social research. Employing common methods of data collection and within the limits of translation identical survey instruments the ISJP investigated public opinion in seven newly emerging post Communist countries and five of the world's most influential capitalist democracies with special sensitivity to divergencies in the newly united Germany. Among the themes addressed by the volume are the views and beliefs of citizens in the post Communist states on the transition to market economies and parliamentary democracy the role of ideology in legitimating inequality the structural determination of beliefs about justice the processes that shape individual level evaluations and the major implications of public opinion and mass participation in the democratic process

Break the Caste George Gerharz, 2021-10-01 In *Break the Caste* George Gerharz unmask common American misperceptions of poverty inequality and social mobility. Based on personal experience from five decades of anti poverty work and current research he proposes solutions to inequality lack of mobility and poverty and examines how the American social order and corporate powers create these problems. In this book he provides four strategies to create a more equal and economically mobile nation.

Generative Mechanisms Transforming the Social Order Margaret S. Archer, 2015-02-18 This volume examines how generative mechanisms emerge in the social order and their consequences. It does so in the light of finding answers to the general question posed in this book series: Will Late Modernity be replaced by a social formation that could be called Morphogenic Society? This volume clarifies what a generative mechanism is to achieve a better understanding of their social origins and to delineate in what way such mechanisms exert effects within a current social formation either stabilizing it or leading to changes potentially replacing it. The book explores questions about conjuncture convergence and countervailing effects of morphogenetic mechanisms in order to assess their impact. Simultaneously it looks at how products of positive feedback intertwine with the results of morphostatic negative feedback. This process also requires clarification especially about the conditions under which morphostasis prevails over morphogenesis and vice versa. It raises the issue as to whether their co existence can be other than short lived. The volume addresses whether or not there also is a process of morpho necrosis i.e. the ultimate demise of certain morphostatic mechanisms such that they cannot recover. The book concludes that

not only are generative mechanisms required to explain associations between variables involved in the replacement of Late Modernity by Morphogenic Society but they are also robust enough to account for cases and times when such variables show no significant correlations

Dynamics of Political Communication Michael Angel Folorunso, 2013 Effective political communication involves diligent identification of problems on the one hand and proffering solutions on the other using popular images to affect decision making sharing and acting This book is aimed at making readers politicians students policy makers political activists social actors and researchers to understand the fact that political communication is not value free It shows the ways and means of generating media literacy as well as power literacy Political communication is a multidisciplinary subject required to elevate and polish language politically crafted to enable target audience give diverse interpretations to the message conveyed by the source The book shows also the dissensual value choosing relationships between politics communication rhetorical tropes and social media The primary strength of Folorunso's book resides in its rhetorical emphasis particularly in regard to the uses of images campaigns drama and social media in politics as essential skills needed in a democratic community consciously driven by charismatic and or transformational leadership Rhetoric Society of Africa

Chinese Social Policy in a Time of Transition Douglas Besharov, Karen Baehler, 2013-05-17 The story of China's spectacular economic growth is well known Less well known is the country's equally dramatic though not always equally successful social policy transition Between the mid 1990s and mid 2000s the focal period for this book China's central government went a long way toward consolidating the social policy framework that had gradually emerged in piecemeal fashion during the initial phases of economic liberalization Major policy decisions during the focal period included adopting a single national pension plan for urban areas standardizing unemployment insurance re-establishing nationwide rural health care coverage opening urban education systems to children of rural migrants introducing trilingual education policies in ethnic minority regions expanding college enrolment addressing the challenge of HIV AIDS more comprehensively and equalizing social welfare spending across provinces among others Unresolved is the direction of policy in the face of longer term industrial and demographic trends and the possibility of a chronically weak global economy Chinese Social Policy in a Time of Transition offers scholars practitioners students and policymakers a foundation from which to explore those issues based on a composite snapshot of Chinese social policy at its point of greatest maturation prior to the 2007 global crisis

Conflict and Social Order in Tibet and Inner Asia Fernanda Pirie, Toni Huber, 2008-07-31 Revolution and social dislocation under the communist regimes of China and the Soviet Union followed by the upheavals of reform and modernisation have been experienced by Tibetan Mongolian and Siberian people forcibly integrated into these nation states as conflict violence and social disruption This volume bringing together case studies from throughout the region assesses the experiences and legacies of such events Highlighting the agency of those who shape and manipulate conflict and social order and their historical cultural and religious resources the contributors discuss evidence of social continuity as well as the

recreation of social order Engaging with anthropological debates on conflict and social order this volume provides an original comparative perspective on both Tibet and Inner Asia *Generations, Political Participation and Social Change in Western Europe* Maria Grasso, 2016-03-31 This new comparative analysis shows that there are reasons to be concerned about the future of democratic politics Younger generations have become disengaged from the political process The evidence presented in this comprehensive study shows that they are not just less likely than older generations to engage in institutional political activism such as voting and party membership they are also less likely to engage in extra institutional protest activism *Generations Political Participation and Social Change in Western Europe* offers a rigorously researched empirical analysis of political participation trends across generations in Western Europe It examines the way in which the political behaviour of younger generations leads to social change Are younger generations completely disengaged from politics or do they simply choose to participate in a different way to previous generations The book is of key interest to scholars students and practitioners of political sociology political participation and behaviour European Politics Comparative Politics and Sociology *The Legal Ideology of Removal* Tim Alan Garrison, 2002-12-01 This study is the first to show how state courts enabled the mass expulsion of Native Americans from their southern homelands in the 1830s Our understanding of that infamous period argues Tim Alan Garrison is too often molded around the towering personalities of the Indian removal debate including President Andrew Jackson Cherokee leader John Ross and United States Supreme Court Justice John Marshall This common view minimizes the impact on Indian sovereignty of some little known legal cases at the state level Because the federal government upheld Native American self dominion southerners bent on expropriating Indian land sought a legal foothold through state supreme court decisions As Garrison discusses *Georgia v Tassels* 1830 *Caldwell v Alabama* 1831 *Tennessee v Forman* 1835 and other cases he shows how proremoval partisans exploited regional sympathies By casting removal as a states rights rather than a moral issue they won the wide support of a land hungry southern populace The disastrous consequences to Cherokees Creeks Choctaws Chickasaws and Seminoles are still unfolding Important in its own right jurisprudence on Indian matters in the antebellum South also complements the legal corpus on slavery Readers will gain a broader perspective on the racial views of the southern legal elite and on the logical inconsistencies of southern law and politics in the conceptual period of the anti Indian and proslavery ideologies *Social Change and Political Participation in Turkey* Ergun Ozbudun, 2015-03-08 Scholars have long argued that political participation tends to increase with economic and social modernization In this study of Turkey however the author shows that rapid socio economic growth has coincided with a substantial decline in turnout at the polls His ecological analysis of subnational aggregate voting data for the sixties and the explanation of his startling findings form the core of this up to date and comprehensive survey of Turkey s political development Turkey is one of very few countries to combine rapid socio economic change with a democratic system The author demonstrates that in this context modernization tends to increase autonomous instrumental

and class based political participation and to decrease mobilized deferential and communal based political participation The topics he examines include social cleavages and the party system distribution of land and income geographical and social mobility access to education regional variations in voting turnout urban rural differences in voting behavior socio economic correlates of voting activity and party votes and patterns of participation among peasants and the urban poor Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Politics and Social Change* Ishwaran,2022-09-12 **Critical Approaches to Climate Change and Civic Action** Anabela Carvalho,Julie Doyle,Chris Russill,2021-09-10 Social Cleavages and Political Change Jeff Manza,Clem Brooks,1999-09-23 What social groups support which political party and how that support has changed over time are central questions in the sociology of political behaviour This study provides the first systematic book length reassessment and restatement of the sociological approach to American politics in more than 20 years It challenges widespread arguments that the importance of social cleavages have declined precipitously in recent years in the face of post industrial social and economic changes The book reconceptualizes the concept of social cleavages and focus on four major cleavages in American society class religion gender and race arguing a that a number of important changes in the alignments of the groups making up these four cleavages have occurred The book examines the implications of these changes for the Democratic and Republican Parties The findings of the book are examined in light of the central dilemmas facing the two major parties in the contemporary political environment Routledge Handbook of Comparative Constitutional Change Xenophon Contiades,Alkmene Fotiadou,2020-06-11 Comparative constitutional change has recently emerged as a distinct field in the study of constitutional law It is the study of the way constitutions change through formal and informal mechanisms including amendment replacement total and partial revision adaptation interpretation disuse and revolution The shift of focus from constitution making to constitutional change makes sense since amendment power is the means used to refurbish constitutions in established democracies enhance their adaptation capacity and boost their efficacy Adversely constitutional change is also the basic apparatus used to orchestrate constitutional backslide as the erosion of liberal democracies and democratic regression is increasingly affected through legal channels of constitutional change Routledge Handbook of Comparative Constitutional Change provides a comprehensive reference tool for all those working in the field and a thorough landscape of all theoretical and practical aspects of the topic Coherence from this aspect does not suggest a common view as the chapters address different topics but reinforces the establishment of comparative constitutional change as a distinct field The book brings together the most respected scholars working in the field and

presents a genuine contribution to comparative constitutional studies comparative public law political science and constitutional history

Whispering the Strategies of Language: An Mental Quest through **Social Order And Political Change**

In a digitally-driven world where displays reign great and quick conversation drowns out the subtleties of language, the profound techniques and mental nuances hidden within words often get unheard. Yet, set within the pages of **Social Order And Political Change** a interesting literary treasure pulsing with fresh thoughts, lies an exceptional quest waiting to be undertaken. Penned by a talented wordsmith, that enchanting opus invites readers on an introspective journey, gently unraveling the veiled truths and profound affect resonating within the very cloth of each word. Within the emotional depths of this moving evaluation, we shall embark upon a honest exploration of the book is key themes, dissect their charming publishing fashion, and yield to the strong resonance it evokes serious within the recesses of readers hearts.
