The essays assembled in this volume are shaped by conditions both enabling and constraining that can perhaps best be described as an ethnographic chiasmus. This expression refers to the surprise and reversal of position that are characteristic of fieldwork and it attends to the fact that transcultural understanding comes about as a meeting touching or crossing. Chiasmus also pertains to the relationship between culture and rhetoric in general. Culture structures rhetoric, rhetoric structures culture. Both are coemergent. In order to elucidate this process, ethnography has to focus on the manifold modes of rhetoric through which culture-specific patterns of thought and action are created. *Culture Figures* Michał

Mokrzyński, 2024-06-01. Ethnographic research, anthropological theory and the understanding of the objects of inquiry are co-created through figuration using tropes and rhetorical figures and techniques of persuasion. Delving into descriptive ethnography and theoretical texts spanning across classical monographs and recent texts in cultural anthropology, *Culture Figures* places rhetoric and rhetoricity as central to the discipline's self-understanding. It focuses on how understandings of culture and social life are shaped and conveyed in cultural anthropology through textual rhetoric. The book demonstrates how processes of using tropes and modes of persuasion underlie the creation of meanings or misunderstandings in society.

Broadening the Horizon of Linguistic Politeness Robin T. Lakoff, Sachiko Ide, 2005-10-27. This collection of 19 papers celebrates the coming of age of the field of politeness studies, now in its 30th year. It begins with an investigation of the meaning of politeness, especially linguistic politeness, and presents a short history of the field of linguistic politeness studies, showing how such studies go beyond the boundaries of conventional linguistic work, incorporating as they do non-language insights. The emphasis of the volume is on non-Western languages and the ways linguistic politeness is achieved with them. Many, if not most, studies have focused on Western languages, but the languages highlighted here show new and different aspects of the phenomena. The purpose of linguistic politeness is to aid in successful communication throughout the world, and this volume offers a balance of geographical distribution not found elsewhere, including Japanese, Thai, and Chinese, as well as Greek, Swedish, and Spanish. It covers such theoretical topics as face, *wakimae*, social levels, gender-related differences in language usage, directness and indirectness, and intercultural perspectives. **Humour, Comedy and Laughter** Lidia

Dina Sciama, 2016-04-01. Anthropological writings on humor are not very numerous or extensive, but they do contain a great deal of insight into the diverse mental and social processes that underlie joking and laughter. On the basis of a wide range of ethnographic and textual materials, the chapters examine the cognitive, social, and moral aspects of humor and its potential to bring about a sense of amity and mutual understanding, even among different and possibly hostile people. Unfortunately, though, cartoons, jokes, and parodies can cause irremediable distress and offence. Nevertheless, contributors' cross-cultural evidence confirms that the positive aspects of humor far outweigh the danger of deepening divisions and fueling hostilities.
