Warriors and Peacemakers Mark Cooney, 1998-04-01 Why do some conflicts escalate into violence while others dissipate harmlessly Under what circumstances will people kill and why While homicide has been viewed largely in the pathological terms of crime and deviance violence Mark Cooney contends is a naturally occurring form of conflict found throughout history and across cultures under certain social conditions Cooney has analyzed the social control of homicide within and across over 30 societies and interviewed several dozens of prisoners incarcerated for murder or manslaughter as well as members of their families Violence such as homicide can only be understood he argues by transcending the traditional focus on the social characteristics of the killer and victims and by looking at the role played by family members friends neighbors onlookers police officers and judges These third parties can be a source of peace or violence depending on how they are configured in particular cases Violence flourishes Cooney demonstrates when authority is either very strong or

very weak and when third party ties are strong and boundaries between groups sharply defined Drawing on recent theory in the lively new sociological speciality of conflict management Mark Cooney has culled a vast array of evidence from modern and preindustrial societies to provide us with the first general sociological analysis of human violence

Human Rights and Wrongs. Biological Skepticism towards Human Rights Ammar Younas, 2018-12-11 Master s Thesis from the year 2018 in the subject Politics Topic Public International Law and Human Rights grade A language English abstract This thesis is an attempt to provide an adequate theoretical framework to understand the biological basis of human rights We argue that the skepticism about human rights is increasing especially among the most rational innovative and productive community of intellectuals belonging to the applied sciences By using examples of embryonic stem cell research humanoid robotics and artificial intelligence a clash between applied scientists and legal scientists cum human rights activists has been highlighted International human rights regimes notably UN bodies are writing declaration after declaration related to the issues which are purely of biological nature such as bioethics human genome genetic engineering and human cloning Because of these declarations applied scientists have fed up of human rights and can justifiably reject them as a whole considering them alien to scientific culture and hence saying that they are unable to find local normative validity of human rights inside the scientific community After an extensive literature review this thesis concludes that

advances in applied sciences proven by empirical evidences should not be restricted by normative theories and philosophies of the social scientists who often take part in drafting of legal documents such as UN Declarations Whereas biology can provide a framework of cooperation for social and applied scientists

Black Rights/White Wrongs Charles W. Mills, 2017-03-01 Liberalism is the political philosophy of equal persons yet liberalism has refused equality to those it saw as sub persons Liberalism is the creed of fairness yet liberalism has been complicit with European imperialism and African slavery Liberalism is the classic ideology of Enlightenment and political transparency yet liberalism has cast a dark veil over its actual racist past and present In sum liberalism s promise of equal rights has historically been denied to blacks and other people of color In *Black Rights White Wrongs* The Critique of Racial Liberalism political philosopher Charles Mills challenges mainstream accounts that ignore this history and its current legacy in self conceived liberal polities today Mills argues that rather than bracket as an anomaly the role of racism in the development of liberal theory we should see it as shaping that theory in fundamental ways As feminists have urged us to see the dominant form of liberalism as a patriarchal liberalism so too Mills suggests we should see it as a racialized liberalism It is unsurprising then if contemporary liberalism has yet to deliver on the recognition of black rights and the correction of white wrongs These essays look at racial liberalism past and present white ignorance as a guilty ignoring of social reality that facilitates white racial domination Immanuel Kant s role as the most important liberal theorist of both personhood and sub personhood the centrality of racial exploitation in the United States and the evasion of white supremacy in John Rawls s ideal theory framing of social justice and in the work of most other contemporary white political philosophers Nonetheless Mills still believes that a deracialized liberalism is both possible and desirable He concludes by calling on progressives to Occupy liberalism and develop accordingly a radical liberalism aimed at achieving racial justice
