Socialism Of A Different Kind Reshaping The Left In France:

Socialism of a Different Kind Bernard E. Brown,1982-09-29

Thomas Rodney Christofferson,1991 An overview of the Socialist movement espousing a quasi Marxist ideology before the 1981 election that discusses the conflicts of the 1970s and the 1981 electoral campaign as well as the economic problems that generated a Socialist position of implementing a very limited agenda of reforms once they had gained power

Anticommunism in French Society and Politics, 1945-1953 Aaron Clift,2023-06-20 Anticommunism in French Society and Politics 1945 1953 evaluates the prevalence of anticommunism among the French population in 1945 to 1953 and examines its causes character and consequences through a series of case studies on different segments of French society These include the scouting movement family organisations agricultural associations middle class groups and trade unions and other working class organisations Aaron Clift contends that anticommunism was more widespread and deeply rooted than previously believed and had a substantial impact on national politics and on these social groups and organisations Furthermore he argues that the study of anticommunism allows us a deeper understanding of the values they regarded as the most important to defend Although anticommunism was a diverse phenomenon this work identifies common discourses including portrayals of communism as a threat to the nation the colonial empire the traditional family private property religion the rural world and Western civilisation It also highlights common aims such as the rehabilitation of wartime collaborators and tactics such as the invocation of apoliticism While acknowledging the importance of the Cold War it rejects the assumption that anticommunism was an American import or foreign to French society and demonstrates links between anticommunism and anti Americanism It concludes that anticommunism drew its strength from the connection or even conflation of communism with perceived negative social changes that were seen to threaten traditional French civilisation interacting with the postwar international and domestic environment and the personal experiences of individual anticommunists

The Retreat of Social Democracy John T. Callaghan,2000 An examination of policy and programme in the key social democratic parties of Britain France Germany and Sweden since the 1970s It situates change in the context of capitalist restructuring and shows how the radical Left initially responded to the unfolding crisis of the post war order

The Left's Dirty Job W. Rand Smith,2010-06-15 The Left s Dirty Job compares the experiences of recent socialist governments in France and Spain examining how the governments of Francois Mitterrand 1981 1995 and Felipe Gonzalez 1982 1996 provide a key test of whether a leftist approach to industrial restructuring is possible This study argues that in fact both governments s policies generally resembled those of other European governments in their emphasis on market adapting measures that eliminated thousands of jobs while providing income support for displaced workers Featuring extensive field work and interviews with over one hundred political labor and business leaders this study is the first systematic comparison of these important socialist governments

Poland's Solidarity Movement and the Global

Politics of Human Rights Robert Brier, 2021-06-10 Offers a fresh perspective on recent human rights history by reconstructing debates around dissent and human rights across four countries **The French Socialist Experiment** John Steward Ambler, 1985 The Spirit of '68 Gerd-Rainer Horn, 2007-02-15 Publisher description **Léon Blum** Joel Colton, 1987 John Colton is a meticulous researcher and a fine craftsman In his political biography of Leon Blum these two qualities are beautifully blended none of the available evidence appears to have been over looked and the enormous mass of variegated material has been transmuted in a polished richly tapestried and absorbing narrative **The 'Long 1970s'** Poul Villaume, Rasmus Mariager, Helle Porsdam, 2016-04-28 Today it is widely recognised that the long 1970s was a decisive international transition period during which traditional collective oriented socio economic interest and welfare policies were increasingly replaced by the more individually and neo liberally oriented value policies of the post industrial epoch Seen from a distance of three decades it is increasingly clear that these socio economic and socio cultural processes also found their expression at the level of national and international political power The contributors to this volume explore these processes of political cultural realignment and their social impetus in Western Europe and the Euro Atlantic area in and around the 1970s in the context of three agenda setting topics of international history of this period human rights including the impact of decolonisation East West d tente in Europe and transnational relations and discourses Going beyond the so called Americanisation processes of the immediate postwar period this volume reclaims Europe s place and particularly that of smaller European nations in contemporary Western history demonstrating Europe s contribution to transatlantic transformation processes in political culture discourse and power during this period **The Welfare State's Other Crisis** Claire Frances Ullman, 1998 While most observers have equated privatization with a conservative assault on the welfare state Claire F Ullman demonstrates that such was not the case in France There delegation to nonprofits was motivated by the desire to increase the state s ability to achieve progressive social goals including enabling welfare programs to reach more of the disadvantaged Elites sought to recruit nonprofit organizations as partners not to roll back the state but to bolster and extend its power Ullman suggests that the western welfare state s new reliance on nonprofit organizations should be re evaluated in light of the French case **Dwight D. Eisenhower National Security Conference** , 2005 Who's Afraid of Deleuze and Guattari? Gregg Lambert, 2006-11-03 Deleuze and Guattari s landmark philosophical project Capitalism and Schizophrenia has been hailed as a highly original and sensational major philosophical work The collaboration of two of the most remarkable and influential minds of the twentieth century it is a project that still sets the terms of contemporary philosophical debate It provides a radical and compelling analysis of social and cultural phenomena offering fresh alternatives for thinking about history society capitalism and culture In Who s Afraid of Deleuze and Guattari Gregg Lambert revisits this seminal work and re evaluates Deleuze and Guattari s legacy in philosophy literary criticism and cultural studies since the early 1980s Lambert offers the first detailed analysis of the reception of the Capitalism and Schizophrenia project

by such key figures as Jameson Zizek Badiou Hardt Negri and Agamben He argues that the project has suffered from being underappreciated and too hastily dismissed on the one hand and on the other too quickly assimilated to the objectives of other desires such as multiculturalism or American identity politics In the light of the limitations of this reception history Lambert offers a fresh evaluation of the project and its influences that promise to challenge the ways in which Deleuze and Guattari s controversial and remarkable project has been received Divided into four key sections Aesthetics Psychoanalysis Politics and Power Who s Afraid of Deleuze and Guattari offers a fresh witty and intelligent analysis of this major philosophical project Dwight D. Eisenhower National Security Conference 2005 ,2005 *Unfinished Projects* Paige Arthur,2020-05-05 In this major new reading of Sartre s life and work Paige Arthur traces the relationship between the philosopher s decades long commitment to decolonization and his intellectual positions Where other commentators have focused on the tensions between Sartre s Marxism and his account of existential freedom usually to denigrate one in favor of the other Arthur shows how Sartre s political engagement with global liberation movements and his philosophical framework developed alongside one another Closely following the postwar movements for decolonization and then supporting the war of independence in Algeria Sartre proposed an influential and uncompromising view of imperialism Analyzing the Western attitude to the subhuman colonial subject he offered an account of the social constraints that applied to both ruler and ruled and came to argue that political violence on both sides was a systematic consequence of the colonial order Arthur s rich and nuanced book locates Sartre within the political discussions of his time whilst also looking forward to contemporary debates about new forms of imperialism and resistance **Understanding Henri Lefebvre** Stuart Elden,2004-03-01 Henri Lefebvre has been celebrated as one of the most influential social theorists of the twentieth century Understanding Henri Lefebvre places Lefebvre in his historical and intellectual context and analyzes the extraordinary range of his work across politics philosophy history literature and culture Particular emphasis is given to Lefebvre s trilogy of inspirational thinkers Hegel Marx and Nietzsche his links to contemporaries such as Heidegger Axelos and the Situationists and his critiques of existentialism and structuralism Analysis of his writings on cities are balanced with those on rural communities the production of space connected to ideas of time and history and everyday life linked to the festival and cultural revolution Understanding Henri Lefebvre offers the most wide ranging and reliable account of this central theorist available

Forging Democracy Geoff Eley,2002-04-11 Democracy in Europe has been a recent phenomenon Only in the wake of World War II were democratic frameworks secured and even then it was decades before democracy truly blanketed the continent Neither given nor granted democracy requires conflict often violent confrontations and challenges to the established political order In Europe Geoff Eley convincingly shows democracy did not evolve organically out of a natural consensus the achievement of prosperity or the negative cement of the Cold War Rather it was painstakingly crafted continually expanded and doggedly defended by varying constellations of socialist feminist Communist and other radical

movements that originally blossomed in the later nineteenth century Parties of the Left championed democracy in the revolutionary crisis after World War I salvaged it against the threat of fascism and renewed its growth after 1945 They organized civil societies rooted in egalitarian ideals which came to form the very fiber of Europe's current democratic traditions The trajectories of European democracy and the history of the European Left are thus inextricably bound together Geoff Eley has given us the first truly comprehensive history of the European Left its successes and failures its high watermarks and its low tides its accomplishments insufficiencies and excesses and most importantly its formative lasting influence on the European political landscape At a time when the Left's influence and legitimacy are frequently called into question Forging Democracy passionately upholds its vital contribution

Space, Difference, Everyday Life Kanishka Goonewardena, Stefan Kipfer, Richard Milgrom, Christian Schmid, 2008-02-19 In the past fifteen years Henri Lefebvre's reputation has catapulted into the stratosphere and he is now considered an equal to some of the greats of European social theory Bourdieu Deleuze Harvey In particular his work has revitalized urban studies geography and planning via concepts like the social production of space the right to the city everyday life and global urbanization Lefebvre's massive body of work has generated two main schools of thought one that is political economic and another that is more culturally oriented and poststructuralist in tone Space Difference and Everyday Life merges these two schools of thought into a unified Lefebvrian approach to contemporary urban issues and the nature of our spatialized social structures

When Parties Fail Kay Lawson, Peter H. Merkl, 2014-07-14 Throughout history parties have faltered and new groups have emerged but rarely has this process been so accelerated so widespread and so conducive to dramatic political change as in our present era When Parties Fail explores alternative organizations in depth and comparatively Among the organizations discussed are environmentalist groups such as the West German and Swedish Greens the Italian Radicals and local protest groups in Japan Switzerland and the United States Also considered are new groups seeking attention in unresponsive party systems such as the Danish Gilstrup party the British SDP and American PACs community parties and movements in Israel India Britain and the American South and antiauthoritarian movements in Poland Solidarity Taiwan and Ghana The case of France provides an example of major party survival Three broadly comparative chapters consider the reasons for major party persistence in some nations and the causes and impact of their decline in others The contributors to the book are David Apter Myron J Aronoff Liang shing Fan Frank B Feigert Zvi Gitelman Ronald J Herring Jon Kraus Kay Lawson Tom Mackie Peter H Merkl Raffaella Y Nanetti Angelo Panebianco Mogens N Pedersen Geoffrey Pridham Peter Pulzer Richard Rose Donald Schoonmaker Frank Sorauf Robert C A Sorensen Evert Vedung Hanes Walton Jr and Frank L Wilson Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to

vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Subject Catalog, 1982** Library of Congress, 1982
