## **Socialist Economics In Dialogue:**

*Socialist Economics in Dialogue* Daniel De Leon, 1935      *Socialist Economics in Dialogue* Daniel De Leon, 1935

Daniel DeLeon, the Odyssey of an American Marxist L. Glen Seretan, 1979      **Deep Socialism** Peter Wilberg, 2003 A society in which essential truth can be the marketing slogan of a shampoo and real feeling is identified with real chocolate is a society in deep ethical crisis substituting hollow symbolic brand values for deep human values already sold its soul and wants nothing more than to trade yours for its commodities up by a culture of marketing in which all deep human values themselves have been turned into commodities critique not only of the capitalist market economy but of the cynical and ethically corrupting culture of capitalist consumer marketing showing how the modern corporation far from valuing people actually devalues the real individual qualities of its employees whilst at the same time relying on them as a source of surplus value and profit      *Markets in the Name of Socialism* Johanna Bockman, 2011-07-26 Challenging conventional accounts Markets in the Name of Socialism chronicles a transnational dialogue among economists on both sides of the Iron Curtain about democracy socialism and markets These exchanges led to the transformations of 1989 and unintentionally the rise of neoliberalism      **Postcolonial and Postsocialist Dialogues** Redi Koobak, Madina Tlostanova, Suruchi Thapar-Björkert, 2021-03-22 Through staging dialogues between scholars activists and artists from a variety of disciplinary geographical and historical specializations Postcolonial and Postsocialist Dialogues explores the possible resonances and dissonances between the postcolonial and the postsocialist in feminist theorizing and practice While postcolonial and postsocialist perspectives have been explored in feminist studies the two analytics tend to be viewed separately This volume brings together attempts to understand if and how postcolonial and postsocialist dimensions of the human condition historical existential political and ideological intersect and correlate in feminist experiences identities and struggles In the three sections that probe the intersections opacities and challenges between the two discourses the authors put under pressure what postcolonialism and postsocialism mean for feminist scholarship and activism The contributions address the emergence of new political and cultural formations as well as circuits of bodies and capital in a post Cold War and postcolonial era in currently re emerging neo colonial and imperial conflicts They engage with issues of gender sexuality race migration diasporas indigeneity and disability while also developing new analytical tools such as postsocialist precarity queer postsocialist coloniality uneventful feminism feminist opacity feminist queer crip epistemologies The collection will be of interest for postcolonial and postsocialist researchers students of gender studies feminist activists and scholars      Karl Polanyi In Dialogue Brie Michael Brie, 2020-06-21 The contemporary Left fights its political battles on various fronts protesting the crippling structural inequalities that sustain neoliberal economic policy developing sustainable community based alternatives to the consumerism and short termism that exacerbate the environmental crisis and advocating for the cultural recognition emancipation and celebration of the diversity and pluralism of human identity But despite this versatility

the Left appears to be in worldwide retreat whilst an aggressive new Alt Right is taking to the internet and the streets regurgitating a regressive and patriarchal vision of society that has already won startling political victories in the US and Europe Amidst the vertiginous tension of such a crisis Michael Brie argues for an urgent theoretical and practical reorganisation of the Left Developing the work of philosopher and social theorist Karl Polanyi Brie advocates an alliance of socialist liberals and libertarian commonists that unites contemporary campaigns for recognition difference and human dignity with more traditional struggles for social welfare and economic democracy Starting with Nancy Fraser s critical reappraisal of Polanyi in her article e A Triple Movement Parsing the Politics of Crisis after Polanyie included Brie powerfully reinterprets Polanyi s thought for present times developing concrete proposals for a Polanyian political response to neoliberalism an ascendent authoritarian right and the ongoing threat of global ecological disaster Also included are two articles by Polanyi translated into English for the first time and Kari Polanyi Levitt s lecture at the Rosa Luxemburg Foundation e From the Great Transformation to the Great Financialisation

**The French Socialists in Power, 1981-1986** Thomas Rodney Christofferson,1991 An overview of the Socialist movement espousing a quasi Marxist ideology before the 1981 election that discusses the conflicts of the 1970s and the 1981 electoral campaign as well as the economic problems that generated a Socialist position of implementing a very limited agenda of reforms once they had gained power

**Socialism and the Market** Peter J. Boettke,1999-12-23 This set contains the material necessary for a full understanding of the Socialist Calculation debate as well as giving critical insight into the relative merits of Capitalism Socialism and the alternative Market Socialism

**Macroeconomic Management** Christopher Saunders,1988-06-18 Papers by academics and administrators from East and West are contained in this volume Recent macroeconomic policies in the West and the East are examined and new strategies for dealing with economic problems are analyzed

**Essays in Contemporary Fields of Economics** George Horwich,James P. Quirk,1981 This volume honors Emanuel T Weiler the founder and first dean of Purdue University s School of Management and of the Krannert Graduate School of Management Beginning in the mid 1950s Weiler created a unique academic environment within which innovative and lasting contributions were made to both the teaching and content of economics and management Members of the original economics faculty recruited by Weiler as well as several of their students wrote this collection of essays All but one of the papers were prepared expressly for the volume and have not been published previously The essays cover diverse areas which evolved from Weiler s leadership The work has four major topical divisions Economic Theory Applied Economics Macroeconomics and Economics Education plus a section of four memoirs

**The Conversation of Economic Development: Historical Voices, Interpretations and Reality** Wilfred L. David,2019-07-23 This book investigates the belief patterns that underly alternative perspectives of development thought and policy It discusses the differing theories and models of development in a discursive manner to highlight the importance of interaction between academic discourse and everyday life experiences Utilizing insights drawn from the history of ideas

economic history philosophy and political economy the author shows how the field of development economics has evolved

Essays in Economics Edwin Robert Anderson Seligman,1925      **The 99 Percent Economy** Paul S. Adler,2019-09-05 We live in a time of crises economic turmoil workplace disempowerment unresponsive government environmental degradation social disintegration and international rivalry In *The 99 Percent Economy* Paul S Adler a leading expert on business management argues that these crises are destined to deepen unless we radically transform our economy But despair is not an option and Adler provides a compelling alternative democratic socialism He argues that to overcome these crises we need to assert democratic control over the management of both individual enterprises and the entire national economy To show how that would work he draws on a surprising source of inspiration the strategic management processes of many of our largest corporations In these companies the strategy process promises to involve and empower workers and to ensure efficiency and innovation In practice this promise is rarely realized but in principle that process could be consolidated within enterprises and it could be scaled up to the national level Standing in the way Private ownership of society s productive resources which is the foundation of capitalism s ruthless competition and focus on private gain at the cost of society the environment and future generations Adler shows how socialized public ownership of our resources will enable democratic councils at the local and national levels to decide on our economic social and environmental goals and on how to reach them The growing concentration of industry makes this socialization step ever easier Democratic socialism is not a leap into the unknown Adler shows Capitalist industry has built the foundations for a world beyond capitalism and its crises      The American Economic Review ,1913 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association      **Introducing Foreign Models for Development** Izumi Ohno,Kimiaki Jin,Kuniaki Amatsu,Junichi Mori,2023-10-03 This open access book studies how foreign models of economic development can be effectively learned by and applied to today s latecomer countries Policy capacity and societal learning are increasingly stressed as pre conditions for successful catch up However how such learning should be initiated by individual societies with different features needs to be explained The book answers this pragmatic question from the perspective of Japan s past experience and its extensive development cooperation in Asia Africa and Latin America Since the late nineteenth century Japan has developed a unique philosophy and method for adopting advanced technologies and systems from the West the same philosophy and method govern its current cooperation with the developing world The key concepts are local learning and translative adaptation Local learning says that development requires the learner to adopt a proactive mindset and the goal of graduating from receiving aid Meanwhile translative adaptation requires foreign models be modified to fit local realities given the different structures of the home and foreign society The development process must be wholly owned by the domestic society in rejection of copy and paste acceptance These ideas not only informed Japan but are key to successful development for all The book also asks how this learning method should or should not be revised in the age

of SDGs and digitalization Following the overview section that lays out the general principles the book offers many real cases from Japan and other countries The concrete actions outlined in these cases with close attention to individual growth ingredients as opposed to general theories are crucial to successful policy making The book contains materials that are highly useful for national leaders and practitioners within developing countries as well as students of development studies

*Practical socialism without communism. Poverty, wealth and taxation: a political conversation, with two unspoken addresses on 'Jesus, a socialist', and 'rational religion'.* James MacDonald (unitarian minister.),1891      *The Transition Study of Postsocialist China* Wing-Chung Ho,2010 There is no denying that China has experienced and is still experiencing radical changes generally initiated by the vibrant market driven economy that began in the late 1970s The question remains however of what has happened to those who just a few decades before experienced pride and power in being part of the proletariat How do they make sense of the past and face up to the uncertainties of the future This book presents an anthropological investigation into their lives and memories in order to understand their situation Presently a working class neighborhood in Shanghai Cucumber Lane was in the 1960s a well known socialist model community being transformed from an urban slum in the 1940s The neighborhood was further recast as a civilized small community in the 1990s Based on oral histories as well as ethnographic observations and pertinent historical materials this book portrays the ways the Chinese have been making sense of and coping with radical changes during a period punctuated by shifts in political priorities vicissitudes in ideological orientation changes in the way they conceive of their relationship with the state and enterprises the de politicization of social identities the rise and fall of collectivism and the explosive vitality of the new market economy      Money, Time and Rationality in Max Weber Stephen Parsons,2013-12-19 This unique study into the roots of Max Weber s Political Economy is an intriguing read and a valuable contribution to the Weberian literature Parsons argues that Weber s analysis is highly influenced by the Austrian School of Economics and the relationship between his critique of centrally planned economies and that of Mises      The New World of Work Vaughan-Whitehead, Daniel,Ghellab, Youcef,de Bustillo Llorente , Rafael M.,2021-12-16 Actors in the world of work are facing an increasing number of challenges including automatization and digitalization new types of jobs and more diverse forms of employment This timely book examines employer and worker responses challenges and opportunities for social dialogue and the role of social partners in the governance of the world of work
