*Socialist Economics in Yugoslavia* Marko Grdešić, Mislav Žitko, 2025-10-31 This book presents a critical history of Yugoslav socialist economics from its inception in the late 1940s to its dissolution in the late 1980s After the dramatic break with the Soviet Union in 1948 Yugoslavia found itself in urgent need of a third way A socialist trajectory which would not resemble the Soviet model nor succumb to the imperatives of capitalist modernization This monumental historical task resulted in the gradual constitution of the system of socialist self management This book is the first to provide a systematic response to key questions about this specifically Yugoslav form of socialist economics How did it develop How was it consolidated into a productive and influential academic discipline What were the theoretical concerns and empirical procedures used by economists in order to create a modern scientific discipline and advance the cause of socialist Yugoslavia And finally how did this body of work enter a terminal crisis and disappear simultaneously with the country itself Even given its failure socialist Yugoslavia constitutes one of the more important and sustained twentieth century attempts at building socialism Thus the Yugoslav way of thinking remains relevant for contemporary topics such as economic democracy comparative economic systems and post capitalist economic models This book will appeal to all readers interested in the history of economics economic sociology political economy the history of Yugoslavia and socialist debates     **Psychological**

*Nine Lives of Neoliberalism* Dieter Plehwe, Quinn

Slobodian, Philip Mirowski, 2020-05-12 Untangling the long history of neoliberalism Neoliberalism is dead Again Yet the philosophy of the free market and the strong state has an uncanny capacity to survive and even thrive in times of crisis Understanding neoliberalism's longevity and its latest permutation requires a more detailed understanding of its origins and development This volume breaks with the caricature of neoliberalism as a simple unvariegated belief in market fundamentalism and homo economicus It shows how neoliberal thinkers perceived institutions from the family to the university disagreed over issues from intellectual property rights and human behavior to social complexity and monetary order and sought to win consent for their project through the creation of new honors disciples and networks Far from a monolith neoliberal thought is fractured and occasionally even at war with itself We can begin to make sense of neoliberalism's nine lives only by understanding its own tangled and complex history

Lenin Bukharin and other revolutionaries as well as the interpretations of contemporary historians of the revolution and the writings of more recent interpreters of Soviet political and economic history Arguing that the first three years of the Bolshevik regime 1918 1921 constitute an attempt to carry out the Marxian ideal of comprehensive central planning and that the disastrous results which all commentators agree occurred were the inevitable outcome of this Marxian ideal coming into conflict with the economic reality of the coordination problem that all economic systems face the book draws clear conclusions and elucidates the air of mystery that often surrounds the subject Offering a radical challenge to contemporary comparative political economy at the level of high theory applied research and public policy this book is appropriate for students and scholars interested in Marxism economic history political economy and Austrian economics
