Barbalet,2015-04-17 This study first published in 1983 explores the connections between Marx s philosophy and his empirical analysis of society and state by showing the different meanings of many of Marx s concepts as their role in his theory changes and the theory itself develops Beginning with an examination of Marx s search for a sound epistemological basis on which to build a social theory Dr Barbalet then gives an analysis of the way in which Marx continually modifies the concepts he uses and continues with an examination of the different functions they are given in different theoretical settings Various nuances of Marx s thought often obscured by the simplistic early late dichotomy are revealed by Dr Barbalet s close attention to the progressive transformation of Marx s concepts and by his scrupulous analysis of them in not only their textual but also their theoretical context Finally the book examines the manner in which Marx s construction of social theory by its very nature means that some material is replaced by other theoretical fabric as the theoretical structure itself is in different ways dismantled and reorganised as Marx s thought evolves and develops **Man, Decisions, Society** Tom R. Hume's Treatise throws light on Hume's later economic political and historical work Whole Person Promotion, Women, and the Post-Pandemic Era: Impact and Future Outlooks Crosby, Michelle, Faludi, Julianna, 2022-05-20 The COVID 19 pandemic both accelerated social and household inequalities and made them more visible as the spatial and social divide between work and home life was broken down Historically during times of crisis or huge systematic change women have served as shock absorbers Shock absorption of systemic change by women as well as that of our planet's natural resources is not a new phenomenon and this dynamic persisted even during state socialism however in the current institutional setups there seems to be no logical solution because of the orientation around marketization and externalization by central actors Currently during a time of great precarity in our digital revolution old institutions are still counting on women the planet and other vulnerable groups to support this transformation with no clear protection of whole personhood Whole Person Promotion Women and the Post Pandemic Era Impact and Future Outlooks provides the latest empirical research findings in the post pandemic era with the household as the central unit of analysis It improves understanding of how old institutions persist and are even reinforced during times of crisis as well as generates a discussion about to what extent there is variation in experiences how satisfied we are with these dynamics and what internal and external interactions we can attribute to the world that we envision Covering topics such as individual wellbeing platform capitalism and gender inequality this premier reference source is a dynamic resource for lawyers policymakers government officials politicians business leaders managers economists non profit organizations libraries students and faculty of higher education sociologists anthropologists researchers and academicians **Epistemology and the Social** Evandro Agazzi, Javier Echeverría, Amparo Gómez Rodríguez, 2008 Epistemology had to come to terms with the social on two different occasions The first was represented by the dispute about the epistemological status of the social sciences and in this case the already well established epistemology of the natural sciences seemed to have the right to dictate the conditions for a discipline to be a science But the social sciences could successfully vindicate the legitimacy of their specific criteria for scientificity More recently the impact of social factors on the construction of our knowledge including scientific knowledge has reversed in a certain sense the old position and promoted social inquiry to the role of a criterion for evaluating the purport of cognitive including scientific statements But this has undermined the traditional characteristics of objectivity and rigor that seem constitutive of science Moreover in order to establish the real extent to which social conditionings have an impact on scientific knowledge one must credit sociology with a sound ground of reliability and this is not possible without a preliminary epistemological assessment These are some of the topics discussed in this book both theoretically and with reference to concrete cases Social Policy, Social Ethics, and the Aging Society Bernice L. Neugarten, Robert James Havighurst, 1976 **Spreading the wings of Foster Care**, *The Gift in the Economy and Society* Stefan Kesting, Ioana Negru, Paolo Silvestri, 2020-12-28 Mainstream economics offers a perspective on the gift which is constructed around exchange axioms of self interest instrumental

rationality and utility maximisation concepts that predominate within conventional forms of economic analysis Recognising the gift as an example of social practice underpinned by social institutions this book moves beyond this utilitarian approach to explore perspectives on the gift from social and institutional economics Through contributions from an international and interdisciplinary cast of authors the chapters explore key questions such as what is the relationship between social institutions on the one hand and gift exchange reciprocity on the other What are the social mechanisms that underpin gift and gift giving actions And finally what is the relationship between individuals societies gift giving and cooperation The answers to these questions and others serve to highlight the importance of the analysis of gift in economics and other social sciences The book also demonstrates the potential of the analysis of the gift to contribute to solving current problems for humanity at various levels of social aggregation This key text makes a significant contribution to the literature on the gift which will be of interest to readers of heterodox economics social anthropology philosophy of economics sociology and political philosophy

Economic Analysis and Political Ideology Karl Brunner, 1996-10-17 Every economist would benefit from reading this book It contains the papers of an imaginative rigorous and generous scholar Geoffrey Wood The Economic Journal These volumes provide insight into a man absorbed and preoccupied by economic scholarship Economic Analysis and Political Ideology the first volume with a foreword by Nobel Laureate James Buchanan reproduces articles dealing with Professor Brunner's socioeconomic analysis The second volume Monetary Theory and Monetary Policy with a foreword by Alan Meltzer deals with macroeconomic issues

Economics as Social Science Roberto Marchionatti, Mario Cedrini, 2016-10-14 There is a growing consensus in social sciences that there is a need for interdisciplinary research on the complexity of human behavior At an age of crisis for both the economy and economic theory economics is called upon to fruitfully cooperate with contiguous social disciplines The term economics imperialism refers to the expansion of economics to territories that lie outside the traditional domain of the discipline Its critics argue that in starting with the assumption of maximizing behaviour economics excludes the nuances of rival disciplines and has problems in interpreting real world phenomena This book focuses on a territory that persists to be largely intractable using the postulates of economics that of primitive societies In retracing the origins of economics imperialism back to the birth of the discipline this volume argues that it offers a reductionist interpretation that is poor in interpretative power By engaging with the neglected traditions of sociological and anthropological studies the analysis offers suggestions for a more democratic cooperation between the social sciences Economics as Social Science is of great interest to those who study history of economic thought political economy and the history of economic anthropology as well as history of social sciences and economic methodology

Pukhtun Economy and Society (Routledge Revivals) Akbar Ahmed, 2013-04-15 First published in 1980 this groundbreaking Routledge Revival is a reissue of an original and authentic anthropological account of Pukhtun society by Professor Akbar Ahmed Combining extensive fieldwork data collected among the Mohmand tribe in the Northwest Frontier Province of Pakistan with

historical and literary sources Professor Ahmed s study seeks to construct an ideal type model of Pukhtun society based on the ideal Code of the Pukhtuns and to analyse the conditions of its maintenance and transformation The author s thesis is that this ideal model exists within Pukhtun society when interaction with larger state systems is minimal and in poor economic zones In this way he posits an opposition between the Tribal Agencies along the border with Afghanistan where ecological conditions are poor and state influence minimal and the Settled Areas under state administration where Pukhtun society is forced away from its ideals Social Norms and Economic Institutions Kenneth J. Koford, Jeffrey B. Miller, 1991
